THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 13, 1957, after due notice by publication in the

Bulletin; laid over to December 10, 1957, for inspection and decision; hearing closed; then to January 14, 1958, for applicant to file revised plans showing what is proposed, including fences; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a residence use, D area, class 1 height district; that as of July 25, 1916, that part of the premises within 100 feet of Dumont Avenue was in a business use district and the present use designation became effective May 15, 1941; and

WHEREAS, the decision of the Borough Superintendent, dated April 2, 1957, acting on N.B. Applic. 380-57, reads:

"1. Proposed erection of a business structure in a residence zone is contrary to Art. II Sec. 3 of Zoning Resolution.

"2. Proposed parking of patron cars in open area in a residence zone is contrary to Art. II Sec. 3 of Zoning Resolution.

"3. Proposed ground signs and other signs in a residence district is contrary to Art. II Sec. 3 of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 200 foot frontage by 395.47 feet in depth, presently vacant; that it is proposed to erect a modern restaurant, one story in height, of class 3 construction, having a frontage of 93 feet and a depth of 93 feet; that the balance of the open area of the site will be used for the parking of patrons' cars; that it is also proposed to erect two electrically illuminated ground signs, each 10 feet wide and 30 feet high, to advertise the proposed restaurant; and

WHEREAS, the applicant contends that inasmuch as the proposed restaurant and parking area will occupy the entire block, the use will be isolated and have little or no adverse effect on the community; that Linden Boulevard and South Conduit Avenue are highly traversed auto lanes and as such, not only is the proposed use in keeping at this point, but the erection of dwellings, with the traffic and noises and fumes emanating from the aforementioned highways tend to render the site unsuitable for residence use; that the gas station in block 11376, lots 33, 35 and 23 is a non-conforming use and further indicates that Linden Boulevard at this point is unsuitable for residence development; that the open sewage canal adjoining the site to the west in the bed of 79th Street definitely prohibits the premises from being used for dwellings or any other conforming use, due to the unsanitary conditions produced by said sewage canal; and

WHEREAS, the applicant states that the present owner has held title to the property since May 3, 1955, and that the assessed valuation of land is \$9,800; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7e for a term of twenty years to permit the premises to be occupied as a one story *restaurant* building substantially as proposed and as indicated on plans filed with this application marked "Received April 9, 1957," 5 sheets, and to permit the parking of patrons' cars as proposed and as indicated thereon *on condition* that the premises shall be levelled and shall be protected with a woven wire fence as proposed and with an entrance to Linden Boulevard and South Conduit Avenue and for further consideration after recommendations have been made by the Commissioner of Parks as to the fencing and the parking use of the premises.

* Correction—The word "residential" changed to "*restaurant*" in resolution, as indicated in italics.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 682-56-SM

Subject: Bestwall Gypsum Wallboard, Bestwall Insulating Gypsum Wallboard and Bestwall Wood Grain Gypsum Wallboard.

Bestwall Gypsum Company, Ardmore, Pennsylvania filed August 20, 1956 an application with the Board of Standards and Appeals for approval of the material known as Bestwall Gypsum Wallboard, Bestwall Insulating Gypsum Wallboard and Bestwall Wood Grain Gypsum Wallboard under the provisions of C26-191.0 and C26-242.0 Administrative Building Code.

Purpose

The material is to be used as an interior wall surfacing material.

Description

The gypsum wallboard is a board product having a gypsum core and paper surface and the thickness ranges from $\frac{1}{4}$ inch to $\frac{5}{8}$ inch and in width 2'-0" or 4'-0" and in length up to 16'-0". The edges are either square, tapered, beveled or round.

The insulating gypsum wallboard is a regular gypsum wallboard with aluminum foil laminated to the back side which serves as a vapor barrier and the thickness ranges from $\frac{3}{8}$ inch to $\frac{5}{8}$ inch and the board has square or tapered edges.

The wood grain gypsum wallboard is a regular gypsum wallboard with a sheet of decorated paper laminated to the face of the board and is available in one thickness only, $\frac{1}{2}$ inch and has square or beveled edges.

Inspection and Test

The material was tested in accordance with the requirements of C26-462.0 Administrative Building Code and meet the requirements of ASTM D.C. 37-42 and Federal Spec. S-W-51. The complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data led by the applicant, the Committee on Test recommends the approval of the material known as Bestwall Gypsum Wallboard, Bestwall Insulating Gypsum Wallboard and Bestwall Wood Grain Gypsum Wallboard for use in New York City under the provisions of C26-241 and C26-242.0 Administrative Building Code as an interior wallboard for use as partitions or ceilings wherein a fire resistive rating is not required and under C26-667.0 as a subdividing partition in buildings not exceeding 150'-0" in height and the use of the $\frac{1}{2}$ inch board as a one-hour fireproof partition under the provisions of C26-636.0 Administrative Building Code and further that all cartons in which the material is marketed shall be tagged, stamped or marked as follows:

"Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 682-56-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

* Correction: In the Report of Committee on Test, under the heading of *Description*, the thickness of the wallboard is corrected to read " $\frac{3}{8}$ inch" instead of " $\frac{5}{8}$ inch".

* CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on October 29, 1957, as they appeared in Bulletin No. 45, Vol. 42, hereby corrected to read as follows:

SUBJECT—Application for consideration—reopening for amendment of resolution as to design of building and fence on rear line—re Application (decision of the borough superintendent); previously granted on condition, under sections 7f, 7i and 7A of the zoning resolution, permitting in a retail use district, the erection and maintenance of a gasoline service station, lubricatorium, minor auto repairs, car washing, storage room, office and sales, parking and storage of motor vehicles with proposed show windows and signs within 75 ft. of the residence use district.

PREMISES AFFECTED—3902-3924 Avenue U, south side, from Ryder Street to Kimball Street, 2201-2211 Ryder Street and 2202-2212 Kimball Street, Block 8556, Lot 37, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, and Commissioner Keating 3

Negative: 0

Absent: Deputy Chief Connolly 1

THE RESOLUTION—

WHEREAS, the application was granted by the Board on May 22, 1956, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted by the Board on May 22, 1956, by adding thereto:

"that in view of statement by applicant that the rear wall would require the premises to be piled to support such wall and requests that the application be *amended* so as to permit a sapling fence; that in lieu of the wall on the rear line as hereinbefore required, the construction and maintenance of a 5 foot 6 inch split sapling fence with $1\frac{1}{2}$ inch, galvanized steel posts as now proposed and as shown on plans filed with this request for amendment marked 'Received September 25, 1957,' (one sheet) and plans marked 'Received October 25, 1957,' (2 sheets), may be permitted; that in all other respects the resolution above cited shall be complied with; that along the building line, in lieu of the wall heretofore required there may be a woven wire fence of the chain link type not less than 5 feet 6 inches in height with suitable terminating posts erected where shown and required." (N.B. 1290/55).

* Correction—In the resolution where reference is made to plans on file with this application, the following statement is added "plans marked Received September 25, 1957, (one sheet)."

NOTICE

APPEALS AS TO MULTIPLE DWELLINGS

The Legislature, under Chapter 333 of 1948, has clarified Section 60 of the Multiple Dwelling Law by describing the agency authorized to grant variances under this Section, so as clearly to mean in New York City—the Board of Standards and Appeals.

Chapter 508 of 1948 has also been adopted by the Legislature, amending the Multiple Dwelling Law to provide, under new Section 310, for a Board of Appeals. By description the Board of Appeals means in New York City—the Board of Standards and Appeals. Section 310 provides as follows as to appeals:

LAWS OF NEW YORK—By Authority Chapter 508 of 1948

§ 310. Board of appeals. 1. As used in this section "board" shall mean the agency of a city constituted as a board and authorized by law both to grant variances of the zoning resolution and to make rules supplemental to laws regulating construction, maintenance, use and area of buildings.

2. Where the compliance with the strict letter of this chapter causes any practical difficulties or any unnecessary hardships the board shall have the power, on satisfactory proof at a public hearing, provided the spirit and intent of this chapter are maintained and public health, safety and welfare preserved, and substantial justice done, to vary or modify any provision or requirement of this chapter, or any rule, regulation, supplementary regulation, ruling or order of the department with respect to the provisions of this chapter, as follows:

a. For multiple dwellings and buildings existing on July first, nineteen hundred forty-eight, provisions relating to:

- (1) Height and bulk;
- (2) Required open spaces;
- (3) Minimum dimensions of yards or courts; or
- (4) Means of egress.

b. For multiple dwellings and buildings erected or to be erected after July first, nineteen hundred forty-eight, and

such dwellings thereafter altered or to be altered, provisions relating to:

- (1) Required open spaces; or
- (2) Minimum dimensions of yards or courts.

Variations or modifications may be granted pursuant to this paragraph b only on condition that open areas for light and air are provided which are at least equivalent in area to those required by the applicable provisions of this chapter.

3. An application for such a variance or modification may be made by any person aggrieved or by the head of any public agency, within such time and under such procedure, conditions and rules as may be prescribed by the board. The board shall fix a reasonable time for the hearing of an application and shall require that due notice be given of the time and place of such hearing to the applicant and to the department. Any person or a duly authorized representative of any public agency may appear at any such hearing and be heard on any such application.

4. In every case the board shall state the reason or reasons for its decision. All decisions of the board shall be subject to review in the same manner as is provided by law for review of decisions of such board respecting variances of the zoning resolution.

5. A record of all decisions of the board, indexed according to the section or sections of this chapter affected thereby, shall be kept in the office of the board. Such record shall be open to public inspection at all times during business hours.

DEPARTMENT OF HOUSING AND BUILDINGS
of the City of New York

INTRADEPARTMENTAL MEMORANDUM

January 5, 1948.

SUBJECT: Interpretation of Subdivision (v), Section 1,
Article 1, Zoning Resolution.

This directive supersedes previous memorandums on the
same subject, dated April 17, November 14, and December
12, 1946, and becomes effective on January 5, 1948.

Subdivision (v) of Section 1 of Article 1 of the Zoning
Resolution reads as follows:

"A 'lot' is a parcel or plot of ground which is or may
be occupied by a building and accessory buildings in-
cluding the open spaces required by this resolution."

It is the interpretation of this department that a lot as
defined in the Zoning Resolution need not be limited in
area to a tax lot. A lot or plot may include one or more
tax lots, and, conversely, a tax lot may be divided into two
or more lots as defined in such resolution. *Each lot must
have frontage on a legal street* and must be of such total
area as to meet the requirements as to yards and courts and
the coverage area permitted in the area district.

When a lot is *not* conterminous with a tax lot, a diagram
of the lot must be filed with each application, showing the
dimensions, including the street frontage, and the dimen-
sions and the block and lot number or numbers of the tax
lot or lots involved, together with any or all other lots
proposed to be built upon within the same tax lot. Any
space or spaces not actually required to comply with the
area requirements for a lot shall be designated on the
diagram as excess yard space.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. IV on June 25, 1957 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on January 21, 1958 after due notice by publication in the Bulletin; laid over to February 18, 1958 for applicant to file dimensioned revised plans relating to curb cuts and for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and East 98th Street are in a business use, C area, class 1 height district; Union Street, Winthrop Street and Blake Avenue are in business and residence use, C area, class 1 height districts; and

WHEREAS, the decision of the Borough Superintendent, dated May 17, 1957 acting on N.B. Applic. 31-57, reads:

"1. Proposed building and premises, in a business zone, to be used for gas station, lubritorium, motor vehicle repair shop, parking and storage for more than 5 cars and sale of used cars is contrary to Art. II, PP. 4a, subsections 29 and 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 197 feet 4½ inches frontage by 96 feet 6¾ inches in depth, upon which there is located a building one story in height, 61.4 feet by 20 feet in size; that the premises until recently was occupied as a gas station, auto repair, car wash and parking of cars; that it is proposed to demolish the present building, and to erect a new building consisting of office, store room, service bays, lubritorium, auto repairs, car wash, toilets, ten 550 gallon gasoline tanks, one 550 gallon fuel oil tank, one 550 gallon waste oil tank and gas pumps; that necessary curb cuts will be constructed as shown on plans; that it is also proposed to use the premises for the parking and storage of more than five motor vehicles; that on the rear lot line it is proposed to erect a rustic wooden fence; that the building will be of face brick, stainless steel and modern design; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on February 4, 1930, as thereafter amended by resolutions adopted through December 14, 1947, by adding thereto:

"that under section 7i there may be repairing with hand tools only for adjustments, maintained solely within the accessory building; that in the event the owner desires to reconstruct the gasoline service station previously permitted and to remove the existing accessory building and reconstruct it in the location and of the type as indicated on plans filed with this application marked "Received May 21, 1957," 3 sheets, "December 5, 1957," 1 sheet and "February 7, 1958," 1 sheet, on condition that pumps shall be of a low approved type erected not nearer to East 98th Street than the distance shown on revised plan, marked "Received February 7, 1958"; that the number of gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that the balance of premises where not occupied by accessory building and pumps shall be paved with concrete or asphalt; that there shall be no cellar in the accessory building and in all other respects the building shall comply with the Building Code; that doors to toilet rooms shall be arranged so as not to be contiguous that the accessory building shall be faced with face brick on all sides; that at the intersection shall be erected a block of concrete, segmental in shape, not less than 1 inches in height, extending for 5 feet along each building line from the intersection; that curb cuts shall consist of two to Union Street, one 30 feet in width and on 25 feet in width and not over three curb cuts to 98th Street, omitting the second curb cut from the north and moving the first curb cut from the north a distance of approximately 10 feet; that the sidewalk and curbing abutting the site shall be constructed or repaired to the satisfaction of the Borough President; that in all other respects the requirements of the resolutions above cited shall be complied with, where not inconsistent with the terms of this amended resolution; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, 31st Street and Astoria Boulevard are in a business use, C area, class 1¼ height district; 30th Street is in business and residence use, C area, class 1¼ height districts; that at the time existing structure was erected it was located in a business use district; that there has been no change in use district since 1916; that the amendment of December 14, 1934 changed the 100 feet on the south side of Astoria Boulevard from a B area to a C area district and from 1¼ height to a one times height district; and

WHEREAS, the decision of the Borough Superintendent, dated September 3, 1957 acting on Alt. Applic. No. 1593-57, reads:

"1. Proposed change of use of existing gasoline service station, lubrication, auto laundry, office, sales, tire display, lavatory & 2 car private garage accessory use to gasoline service station, lubritorium, auto laundry, office, sales, motor vehicle repair shop, hand tools only and brake repair service in a business zone is contrary to Art. II Sec. 4 of Zoning Res. and action of Bd. of Standards under 532/32/B.Z.

2. Proposed extension in area of existing structure of gasoline station in business zone is contrary to Art. II Sec. 4 of Zoning Res. and action of Bd. of Standards under 532/32/B.Z.

3. Extension of existing curb cut is contrary to 532/32/B.Z."

and

WHEREAS, the applicant states that the premises consist of a plot, 89.18 feet frontage by 59.36 feet in depth, irregular; that it is proposed to demolish the brick wall on the south side, the pipe rail structure with the aluminum canopy and the two car metal garage, and to erect a one story masonry extension; that the two front elevations will have face brick to match the color of the present architectural terra cotta, the ceiling will be fire retarded and a new modern safety lift will be installed; and

WHEREAS, the applicant further states that the existing gas station was permitted under Sections 21 and 7a by the Board on March 4, 1933 and amended on December 12, 1933, May 3, 1938 and March 5, 1940; that Certificate of Occupancy No. 11438 was issued May 19, 1940 for gas station, office, auto laundry, lubritorium, sale of accessories and mezzanine for tires and accessories; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 14, 1933, as hereafter amended by resolutions adopted through November 19, 1940, by adding thereto:

"that in the event the present owner desires to make changes in the premises, as indicated on plans filed with

this application, marked 'Received August 28, 1957', 1 sheet, and 'September 26, 1957', 7 sheets, such changes may be permitted as to the building and uses proposed thereon, consisting of an addition to the existing building toward the south; that pumps may remain in their present location, provided they are changed when the sidewalk is reduced by the Borough President, so as to be not nearer than 15 feet to the street building line; that in all other respects where not inconsistent with this resolution, the resolutions above cited shall be complied with; that the requirements of all laws, resolutions and rules shall be complied with in all other respects; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

WHEREAS, a public hearing was held on this application on January 7, 1958 after due notice by publication in the Bulletin; laid over to January 28, 1958 for inspection and decision; hearing closed; then to February 18, 1958, for revised plans indicating means of prevention of damage to property and for decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Macombs Road, 174th Street and Brandt Place are in a residence use, B area, class 1¼ height district; Nelson Avenue is in residence and business use, B area, class 1¼ height districts; and

WHEREAS, the decision of the Borough Superintendent, dated February 1, 1957 acting on Alt. Applic. 1210-57, reads:

"1. In a Residence use district the proposed storage and parking for more than 5 motor vehicles is contrary to Sect. 3 of the Zoning Resolution and is therefore denied."

and

WHEREAS, the applicant states that the premises consist

of a plot, 50 foot frontage by 128.75 feet and 129.03 feet in depth, and unimproved that it is proposed to maintain a parking lot; that the proposed parking lot will be graded level with the sidewalk, with gravel on well-tamped earth, treated with a binder properly rolled; that a chain link wire fence 5 feet 6 inches high to be used where there are adjoining spaces; that curb cut will be as shown on drawing and sidewalk will be maintained as per rules and regulations of the Borough President's office; and

WHEREAS, the applicant contends that the buildings within the affected area of this property on Nelson Avenue are generally multiple dwellings which were erected without benefit of parking facilities within their respective buildings; that the existing adjoining structures on both sides of Nelson Avenue have no off-street parking facilities, as land coverage is to full street frontage; that block 2876, lot 171 is a vacant lot with a huge stone boulder covering the entire plot, rendering this area useless; that within the 500 foot radius from the center of the proposed parking lot, 75% of the structures are multiple dwellings with very little off-street parking facilities; that this area is congested with apartment house dwellers who find great difficulty in parking their motor vehicles; that it is an accepted fact that the parking and traffic situation in the entire city, and this area in particular, is acute, and this proposal will help to remedy this condition; that the proposed parking lot facilities will be offered to the residents of this area; and

WHEREAS, the applicant states that the present owner has held title to the property since September 15, 1956 and that the assessed valuation of land is \$11,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years to permit the premises to be occupied for the parking and storage of motor vehicles substantially as proposed and shown on plans filed with this application marked "Received February 19, 1957," two sheets, and revised plans marked "Received February 11, 1958," one sheet, *on condition* that all buildings and uses on the premises shall be removed and the premises shall be leveled substantially to the grade of Nelson Avenue and shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that there shall be erected on all lot lines where walls of adjoining buildings do not occur, but where courts or yards occur on the property adjacent, a woven wire fence of the chain link type not less than five feet six inches in height including a masonry base; that such fence shall be continued along the front line except for an opening not exceeding 14 feet in width which shall be fitted with a gate for entrance and exit with curb cut opposite of similar width; that during the term of this variance the premises shall be occupied for no other use; that proper bumpers shall be maintained as indicated to protect such fences and walls of adjacent building; that sidewalks and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that signs shall be restricted to one sign attached to the fence near the entrance advertising the parking and storage use and such other information as may be required by the Commissioner of Licenses; that such sign shall not exceed three feet six inches in size and shall not extend beyond the building line and shall not be illuminated; and that all permits shall be obtained and all work completed and a certificate of occupancy obtained within six months from the date of the resolution.

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a residence use, B area, class 1½ height district; 74th Street and 75th Street are in residence and retail use, B area, class 1½ height districts; Second Avenue is in a retail use, B area, class 1½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated May 10, 1957 acting on amendment to Alt. Applic. 57-57, reads:

"2. Extension of existing business use in a residential use district, contrary to Sec. 6, Zoning Resolution and Sec. 3, Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 24 feet 1½ inches frontage by 102 feet 2 inches in depth, occupied by a building 24 feet 1½ inches wide by 90 feet 2½ inches deep at basement level and 24 feet 1½ inches by 60 feet 2½ inches deep on the first to fourth floors inclusive, and is basement and four stories, or 55 feet high; that this building was erected in 1873 as a tenement house under N.B. Applic. 788-1873; that under Alt. Applic. 2748-1905 and Alt. Applic. 3139-1905, the basement and first floor were changed to business use and new store fronts were installed; that under Alt. Applic. 924-1908 partitions were removed in basement and new post and girder construction installed to strengthen the first floor for business use; that under Alt. Applic. 1769-49 the basement store was altered to light manufacturing, with not more than

five persons employed in manufacturing; that Alt. Applic. 331-1951 obtained approval of the basement extension at the rear, which is 24 feet 1½ inches wide by 30 feet deep; that it is proposed to construct an extension at the rear of first floor 24 feet 1½ inches wide by 26 feet deep and 10 feet high on top of the present basement extension; that the new extension roof will be of fireproof construction; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, this matter was laid over for applicant to obtain a new decision of the Building Department, which has been obtained, but still does not pass on the question as to an Old Law tenement, as this is, whether the extension is permitted on the rear as these plans show; further discussion with the Examiner of the Building Department brought out the answer that the requirements of Section 7 of the Multiple Dwelling Law, which relates to Old Law Tenements, does not permit any such extension but Section 6, which has to do with converted dwellings does permit the extension and they have not raised the question as to the extension because they say that by parallel reasoning if it is in Section 6 it ought to be in Section 7; however, the Board will permit this extension under its general powers under the Charter which states that the Board should make the decisions which should be made in the premise and in the opinion of the Board the application should be granted; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision a of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7a to permit the present extension of the building at the basement level to be extended in height by one story substantially to the level of the ceiling of the first story as indicated on plans filed with this application marked "Received June 7, 1957," 7 sheets, *on condition* that such extension shall not be increased beyond what is shown on such plans and shall comply in all other respects with the requirements of the Multiple Dwelling Law and the Building Code; that such extension shall be used only for office purposes as proposed in connection with the first floor of the main building; that a portion of the roof, for a distance of ten feet out from the main building, shall be made fireproof for protection to the fire escapes and the means of exit from the roof shall be as proposed by means of connecting balconies to the adjoining building; and that all permits shall be obtained and all work completed and a certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

adopted by the Board, June 24, 1947 and July 22, 1947 under Alt. No. 557/47-A, Volume I, and #524 Fulton Street, a 3-story, class 3 building, 20.5 feet front by 75 feet in area, used and occupied as follows: cellar—ordinary use and storage; 1st floor—store; 2nd floor—tea room; 3rd floor—office; 4th floor—kitchen and locker room (entire building now vacant due to fire) as permitted by Certificate of Occupancy #46435 issued September 10, 1927, against Alt. Permit #9423/26; and

WHEREAS, the applicant states that it is proposed to combine the buildings so that the combined building will be 65 feet front by 138.1 feet irregular in depth, of class 3 construction, and used and occupied as follows: Cellar—retail sales and service, 180 persons; 1st floor—retail sales and display and offices, 322 persons; 2nd floor—offices, sales and work room, 311 persons; 4th floor—office, storage and employees' lounge, 73 persons; and

WHEREAS, the applicant states that the decision of the Borough Superintendent, dated December 12, 1957, on Alt. App. 772/41 and B.N. App. 3370/57, was raised due to the openings now proposed to be created in the fire wall between the 2 buildings; and

WHEREAS, the applicant states that the Board first considered these premises on June 24, 1947 and subsequently opened the application to consider the addition of the joining building so as to provide additional egress facilities, and amendment of resolution, July 22, 1947; that however, the owner could not obtain title or lease to the joining building and therefore proceeded in accordance with the resolution adopted by the Board June 24, 1947; that it is now proposed to comply substantially with the amended resolution adopted July 22, 1947, substantially as shown on plans filed with the Board, marked received July 19, 1947, under Volume I of this appeal; and

WHEREAS, the applicant contends as to the objection of the Borough Superintendent, to the reopenings proposed between the 2 buildings; that these openings were previously considered by the Board, and were recommended by the Board, so as to provide additional egress facilities for the main building; that the main building located on 2 street frontages and is occupied with slight modification in accordance with the Board's resolution; that it was originally considered by the Board the escalator was to be located on the east side of the building; and whereas it was actually located to the south side and opening stairs to the sales area in the cellar was relocated from the center of the 1st floor to the east side, and the elevator was placed where the location was originally indicated; and

WHEREAS, the applicant contends that the proposed constructive use of these 2 buildings will benefit the existing building by the additional exit facilities; that the apartment store has developed in the past few years so that additional sales area is urgently needed; that it would be a severe hardship to require the demolition and rebuilding of these buildings in order to comply with the Administrative Code in all its respects; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the Borough Superintendent, dated December 12, 1957, acting on Alt. App. 772/41 and B.N. App. 3370/57, Objection 1, be and it hereby is *modified* so that the appeal be and it hereby is *granted*, to permit the added area of the building, as shown on plans filed with the appeal, marked "Received December 17, 1957," 14 sheets, *on condition* that the openings in the walls between the existing building and this proposed additional building shall be as shown on such plans, making a fireproof connection by stairs or ramp to each floor, as may be necessary to equalize the floor levels; that in addition there shall be an opening from the top story of the additional building to the roof of main building with stairs for exit therefrom; that it may be necessary to equalize the height; and that the resolutions previously adopted by the Board under Vol. I and Vol. II shall be complied with in all respects where inconsistent with the terms of this resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 17, 1956 after due notice by publication in the Bulletin; laid over to May 15, 1956, for inspection and decision; hearing closed; applicant to file additional plan showing nearest entrance to hospital and nearest entrance to existing gasoline station; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, 7th Avenue and 90th Street is in a residence use, C area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent, dated May 5, 1955 acting on N.B. Applic. 1293-54, reads:

- "1. Proposed building and premises, in a Residence zone to be used for Gasoline service station, office, auto repair shop, lubricatorium, auto laundry and parking day and night for more than five (5) motor vehicles is contrary to Article II, PP. 3 of the Zoning Resolution.
2. Provide rear yard as per Article IV, PP. 17 of the Zoning Resolution."

WHEREAS, the applicant states that the premises consist of plot, 91 ft. 8 $\frac{1}{2}$ in. frontage by 62 ft. 2 $\frac{1}{2}$ in. and 87 ft. 4 in. depth, on which is located a gasoline service station and office of class 4 and 5 construction, is in a run down condition and is inadequate to serve its patrons; that it is proposed to demolish the existing buildings and erect a modern class 3 construction building to house office, auto laundry, auto repair shop, lubricatorium and day and night parking of more than 5 motor vehicles; that the existing gas station is now being operated under various fire department permits issued since 1922; that no certificate of occupancy was ever issued against these premises; that the use district zone was changed from business to a residence use by an amendment dated October 15, 1954; that it is also proposed to permit existing six 550 gallon tanks to remain and to install 4 additional 550 gallon tanks; that the existing island pumps will be moved and all islands will be placed 15 ft. from building line; that curb cuts will be located as shown on plans; and

WHEREAS, the applicant contends that the present lessees have operated this gas station for about 20 years and have conducted this business up to date. That the existing station is inadequate and in order to survive has to remodel its facilities and services to its patrons; that the proposed class 3 building would provide this and will be a vast improvement for this neighborhood; that existing premises already used as a gas station, office and comfort station; that all old signs and stanchions will be removed and new signs of the latest design will be erected as permitted by the Board; that curb cuts are existing and new ones will be added as permitted; that all broken sidewalks, unfinished sidewalks and grass plots will be removed and entire sidewalk will be concreted and cemented full width and depth; that a grant herein will not adversely affect the neighborhood, since this is an established use; and

WHEREAS, the applicant states that the present owner has held title to the property since September 29, 1921; that the assessed valuation of land is \$7,800 and of the building \$4,000 making a total of \$12,800; that the building was erected in 1922; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant changed the basis of his application from Section 21 to Section 7a, 7c and 7e; and

WHEREAS, additional curb cuts or change in curb cuts as proposed would be contrary to section 21A; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant as to use under Section 7, Subdivision a, c, and e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Sections 7a, c and e to permit the reconstruction and rearrangement of the lawfully existing gasoline service station substantially as proposed and as indicated on plans filed with this application marked "Received May 6, 1955" (4 sheets), "April 10, 1956" (one sheet) and "May 10, 1956" (one sheet) *on condition* that all buildings and uses not proposed to be retained shall be removed and the premises levelled substantially to the grade of 7th Avenue; that the premises shall be constructed and arranged as proposed on such plans except that there shall be no change in the existing curb cuts, which shall not be moved or enlarged and shall be subject to lawful permits therefor; that the accessory building shall be of the design and arrangement as proposed on such plans and shall be faced with face brick; that there shall be no cellar under such building; that pumps shall be of a low approved type, erected not nearer than 15 feet to the street building line of 7th Avenue; that the gasoline storage tanks shall not exceed the existing six tanks and four additional tanks; that the existing tanks shall be tested by the Fire Commissioner to determine suitability for reuse; that on the rear lot line continuing the rear wall of the accessory building and on two side lot lines there shall be erected a masonry wall not less than 5 ft. 6 in. in height; that such wall may be reduced to a height of not less than 4 ft. 6 in. within 10 ft. of the building line; that there shall be no windows or other openings in the rear wall of the accessory building; that sidewalks and curbing in front of the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that the balance of the premises where not occupied by the accessory building and pumps shall be paved with concrete or asphaltic pavement; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection within the building line, toward the south, of a post standard for supporting a sign which may be illuminated advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than 4 ft.; that under Section 7i there may be repairing of motor vehicles with hand tools only for adjustment maintained solely within the accessory building, for a term of ten (10) years; *that under Section 7e for a term of five years there may also be parking and storage of motor vehicles as an accessory use without limit as to hours of the day provided cars of the pleasure type only are so parked and in spaces where the servicing of the station will not be interfered with*; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits shall be obtained, including a Certificate of Occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

* Correction—The word "charge" corrected to "change" in line 14 of the last paragraph of the resolution; the section relating to the repairing of motor vehicles corrected to read "7i" instead of "7e" in the last paragraph of the resolution; the phrase relating to parking of cars, under Section 7e, inserted in italics before "that such portable fire-fighting appliances . . ." at the end of the last paragraph of the resolution.

NOTICE

APPEALS AS TO MULTIPLE DWELLINGS

The Legislature, under Chapter 333 of 1948, has clarified Section 60 of the Multiple Dwelling Law by describing the agency authorized to grant variances under this Section, so as clearly to mean in New York City—the Board of Standards and Appeals.

Chapter 508 of 1948 has also been adopted by the Legislature, amending the Multiple Dwelling Law to provide, under new Section 310, for a Board of Appeals. By description the Board of Appeals means in New York City—the Board of Standards and Appeals. Section 310 provides as follows as to appeals:

LAWS OF NEW YORK—By Authority

Chapter 508 of 1948

§ 310. Board of appeals. 1. As used in this section "board" shall mean the agency of a city constituted as a board and authorized by law both to grant variances of the zoning resolution and to make rules supplemental to laws regulating construction, maintenance, use and area of buildings.

2. Where the compliance with the strict letter of this chapter causes any practical difficulties or any unnecessary hardships the board shall have the power, on satisfactory proof at a public hearing, provided the spirit and intent of this chapter are maintained and public health, safety and welfare preserved, and substantial justice done, to vary or modify any provision or requirement of this chapter, or any rule, regulation, supplementary regulation, ruling or order of the department with respect to the provisions of this chapter, as follows:

a. For multiple dwellings and buildings existing on July first, nineteen hundred forty-eight, provisions relating to:

- (1) Height and bulk;
- (2) Required open spaces;
- (3) Minimum dimensions of yards or courts; or
- (4) Means of egress.

b. For multiple dwellings and buildings erected or to be erected after July first, nineteen hundred forty-eight, and

such dwellings thereafter altered or to be altered, provisions relating to:

- (1) Required open spaces; or
- (2) Minimum dimensions of yards or courts.

Variations or modifications may be granted pursuant to this paragraph b only on condition that open areas for light and air are provided which are at least equivalent in area to those required by the applicable provisions of this chapter.

3. An application for such a variance or modification may be made by any person aggrieved or by the head of any public agency, within such time and under such procedure conditions and rules as may be prescribed by the board. The board shall fix a reasonable time for the hearing of an application and shall require that due notice be given of the time and place of such hearing to the applicant and to the department. Any person or a duly authorized representative of any public agency may appear at any such hearing and be heard on any such application.

4. In every case the board shall state the reason or reasons for its decision. All decisions of the board shall be subject to review in the same manner as is provided by law for review of decisions of such board respecting variances of the zoning resolution.

5. A record of all decisions of the board, indexed according to the section or sections of this chapter affected thereby, shall be kept in the office of the board. Such record shall be open to public inspection at all times during business hours.

PETITION AND CERTIORARI ORDER SERVED ON THE BOARD OF STANDARDS AND APPEALS

On February 21, 1958 Copy of Order and Petition of Certiorari was served on the Board by Jacob S. Schulman, attorney for Edward L. Tuohy, et al., objecting property owners, seeking a review of the Board's determination on January 21, 1958, granting a variance under Sections 7f, 7i, 7h and 7A of the Zoning Resolution, to permit in a retail use district, the erection and maintenance of a gasoline service station, lubricatorium, minor auto repairs, car wash, storage, office and sales, parking and storage of motor vehicles, with show windows within 75 feet of a residence use district; Cal. No. 342-54-BZ, Vol. II; Premises 76-09 to 76-19 (76-15 official) Main Street and 144-01 to 144-09 76th Road, northeast corner, Flushing, Borough of Queens.

NOTICE

Effective September 1, 1957, the subscription price of the Bulletin is \$15.00 per year, payable in advance and single copies, twenty-five (25) cents at the office of the Board and thirty (30) cents by mail.

HOURS OF CONSULTATION

10 A.M. to 1 P.M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, Chairman.

WHEREAS, the district maps accompanying the zoning resolution show that the site and 78th Street are in retail and residence use, C area, class 1¼ height districts; 77th Street is in retail and residence use, E area, class 1¼ height district; Third Avenue is in a retail use, C area, class 1¼ height district; that there has been no change in the height or area district designations affecting these premises since July 25, 1916; that as of July 25, 1916 the portion of the premises extending 100 feet east from Third Avenue was zoned as a business use district and the remaining portion was zoned as a residence use district; that effective October 15, 1954, the business use portion was rezoned as a retail use district; that there is no petition pending before the City Planning Commission for any change in these designations; and

MINUTES

WHEREAS, the decision of the Borough Superintendent, dated August 6, 1957 acting on Alt. Applic. 2134-57, reads:

"1. Extending bldg. for business use in a partially residence & partially retail use district is contrary to Art. II Sect. 3 of the Zone Resolution.

"2. Area of new extension exceeds permissible area under sect. 13 of Zone Resolution.

"3. Height of bldg. will exceed permissible height under sect. 8 par. 'e', Art. III of Zone Resolution."

WHEREAS, the applicant states that the premises consist of plot, 109.33 feet frontage by 160 feet in depth, upon which there is an existing three story building; that it has a frontage on Third Avenue of 109.33 feet and a depth of 149.66 feet; that the building is of fire resistive construction with steel framework and reinforced concrete floors and roof; that the exterior masonry walls are faced with red brick and the trim is limestone; that the proposed addition will be architecturally and structurally in keeping with the existing building; that these premises are not subject to any restrictive covenant; that it is proposed to construct a fourth story addition to its existing Third Avenue Central Telephone Exchange Building, which is located partly in a residence use district and partly in a retail use district; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the building already occupies at curb level, the proposed area of coverage; and

WHEREAS, the Board found that this was a proper case to permit additional use under Section 7d and that the applicant had submitted sufficient proof of practical difficulty to justify favorable action as to height and area under Section 21.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on May 31, 1922 by doing thereto:

"that in the event the owner desires to construct a fourth story over the entire building as hereinbefore permitted as now proposed and as indicated on plans filed with this application marked 'Received August 26, 1957,' 2 sheets, 'December 18, 1957,' 11 sheets, and 'December 24, 1957,' 10 sheets, such extension may be permitted under Sections 7d and 21, on condition that the building in all other respects shall comply with the requirements of the zoning resolution and the Building Code; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on March 6, 1956 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on February 25, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Light Street are in a residence use, A area, class 1½ height district; Rombouts Avenue and Merritt Avenue are in residence and manufacturing use, A area, class 1½ height districts; West 233rd Street is in a manufacturing use, A area, class 1½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated February 9, 1956 acting on Alt. Applic. 124-56, reads:

"1. Proposed extension of factory use in a residence use district is contrary to Art. II Sect. 3 of the Z. R. and B. of S. & A. Cal. #724-50-BZ."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 feet frontage by 100 feet in depth, on which is located a building 50 feet by 100 feet, west wing, presently used as a factory, and a brick enclosed yard 50 feet by 100 feet, east wing, presently used as a yard for storage of contractors' equipment and trucks under Certificate of Occupancy No. 14715; that it is proposed to roof over the brick walled yard, for use as manufacturing; and

WHEREAS, the applicant further states that in the fall of 1948, while the zone was unrestricted, the owner erected a 50 foot by 100 foot garage on the west portion and a 50 foot by 100 foot brick wall enclosed yard for parking and storage of his trucks and construction equipment on the east portion, with a view in the future of enclosing this portion with a roof; that Certificate of Occupancy No. 6503-49 was obtained; that however, in February of 1949 the zoning was changed to residence and the property on the other side of the street to manufacturing; that on December 19, 1950 acting on Cal. No. 724-50-BZ, Vol. I, the Board granted a variance to permit the roofing over of the east portion for a garage; that this never was done as the owner bought more trucks and needed a much larger garage; that an application was made in November 1951 under Vol. II to permit the change of the garage as a factory and the roofing over of the yard also to be used for a factory; that an amended variance was granted April 19, 1952; that the west wing was then changed, but the new tenant desired to use the yard without a roof, so the east wing never was roofed over; that the owner and present tenant now definitely desire to roof over the east portion; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on April 29, 1952, as thereafter amended by resolutions adopted through March 23, 1954, by adding thereto:

"that in the event the owner now desires to complete the structure by roofing over the lot using the brick fence walls as proposed and indicated on plans filed with this application, marked 'Received February 14, 1956', 1 sheet and 'October 30, 1957' 3 sheets, such completion may be made and there may also be an opening to the adjoining building under the same ownership to the west, which opening shall be fitted with an approved fire door complying with the requirements of the Building Code therefor; that such fire door shall be in the central bay midway between the front and rear; that such completion of the building shall comply in all respects with the requirements of the Building Code; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution."

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 25, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Grand Central Parkway are in a residence use, G-1 area, class ½ height district; Stewart Road and Hartland Avenue are in a residence use, class ½ and class 1 height district, G-1 area; that this property was rezoned in 1934; that prior to July 25, 1916 it was a D area, on June 1, 1934 changed to F area and on February 7, 1949 changed to G-1 area; and

WHEREAS, the decision of the Borough Superintendent, dated February 8, 1956 acting on Alt. Applic. 2522-54, reads:

"1. In a G-1 district the rear of the building must not be nearer than 20 ft. from the lot line, Sec. 16-c."

WHEREAS, the applicant states that the premises consist of a plot, 67 feet frontage by 75.94 feet in depth, presently occupied by a one family dwelling with a built-in garage, 52 feet front by 39 feet 1 inch in depth, erected in 1949 under N.B. Applic. No. 7560-49; that the owner has constructed an extension to the rear of an existing one family dwelling without a permit on previously constructed paved area; and

WHEREAS, the applicant states that Alt. Applic. No. 2522-54 was filed to secure the approval of an extension; that the contractor ordered the drawings, but in the meantime he started the work before an approval could be obtained, and this extension was put in violation by the inspector; and

WHEREAS, the applicant further states that the extension is in the nature of an enclosed terrace with jalousie windows so that the terrace can be used as a dinette and porch; that the extension is set back more than the original dwelling from the Service Road, and as it faces the garages of the dwelling of the adjoining property to the rear and as there is a generous amount of space between this and the other adjoining buildings; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7c to to permit the extension to the residential building in the form of an enclosed porch as indicated on plans filed with this application marked "Received February 14, 1956", 7 sheets, *on condition* that the requirements of the Building Code and the Zoning Resolution shall be complied with in all other respects except as to this portion of the rear yard; and that all permits shall be obtained and all work completed and a new certificate of occupancy obtained within six months from the date of this resolution.

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 29-52-SA.

Subject: Amendment of resolution for additional models—Model G25, G50, G75, G105, G135, G165, G225 and G310.

Modine Manufacturing Company Racine, Wisconsin requested by letter dated August 6, 1956 that the resolution adopted June 3, 1952 under Cal. No. 29-52-SA be amended so as to include additional models of Modine Gas-fired Unit Heaters. The case was reopened by a vote of the Board October 2, 1956.

Purpose

Flue connected gas-fired unit heaters of the suspended type.

Description

The new model heaters are basically the same as the models previously approved under Cal. No. 29-52-SA on June 3, 1956 and differ only in that the secondary air openings are now in the bottom of the unit rather than in the sides, fan motor speed has been reduced from 1550 RPM to 1050 RPM and a new high temperature limit control has been installed.

The ratings of the new models are as follows:

MODEL	INPUT BTU/HOUR
G25	25,000
G50	50,000
G75	75,000
G105	105,000
G135	135,000
G165	165,000
G225	225,000
G310	310,000

Recommendation

The Committee on Test recommends that the resolution adopted June 3, 1952 under Cal. No. 29-52-SA be amended to include the new models Modine Gas-fired Unit Heaters, G25, G50, G75, G105, G135, G165, G225 and G310 on condition that the requirements of the resolution adopted June 3, 1952 under Cal. No. 29-52-SA are complied with.

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 555-57-SA

Subject: Short Bake Beer Can Oven, Gas-fired; for drying inside lacquer finish on beer can body.

J. O. Ross Engineering Corporation, New York, filed June 28, 1957 an application with the Board of Standards and Appeals for approval of their Short Bake Beer Can Oven, Gas-fired, for use in New York City under the provisions of the Rules of the Board relative to Spraying and Drying of Lacquers and C26-191.0 Administrative Building Code.

Purpose

Drying ovens of recirculating type for drying the inside lacquer finish on beer can bodies.

Description

The oven is approximately 40 feet long, 6 feet 3 inches wide and 4 feet 6 inches high and is formed by 4 inch thick rockwool and glass wool filled panels. The panels are made up with 20 gauge black steel sheet. The oven enclosure consists of four side walls, a roof and floor. The floor panels are laid on a 6 inch steel channel frame placed on the building floor. Structural steel members are used to form the framework for supporting the other panels. The oven is provided with eight hinged doors with explosion type latches installed in the side walls which are free to open with internal pressure.

Two separate heating systems employing the same burner equipment are furnished to supply the necessary heat for each of the two hot zones which make up the oven. In each case a gas-fired type 62 x 6 Flynn Line Burner is located in an insulated metal enclosure separate and external to the oven. The burner equipment including the proportional gas mixer is made by the Flynn Burner Corporation.

The burner flame will not exceed 10 inches in length and projects in the same direction as the air travels. The inner sheet of the burner enclosure is made of 1/8 inch steel plate.

The necessary air for combustion of the gas is supplied to both burners by a single Bryant 6194-FF-S Air Blower. Each burner develops 2,000,000 BTU per hour.

Each burner is provided with a flame rod assembly and pilot gas line solenoid valves and a Maxon Premix main reset type shut-off valve. Other equipment supplied consists of an automatic oven temperature control, a manually reset high temperature control to guard against excessive temperature, pressure switch installed in the gas line to protect against low pressure or failure of gas supply, protection against fan failure, a five minute purge time to prevent lighting the burners until exhaust and circulating fans have purged the oven.

The air handling equipment includes three circulating and supply fans and an oven exhaust fan. From the supply fans air is conveyed to the oven air headers located along the underside of the conveyor and is discharged uniformly upward to the return chamber where a portion of the air is exhausted to outdoors by means of the oven exhaust fan and duct. The remaining air returns to the heater chamber is mixed with fresh air and is then returned to the oven.

The beer cans are carried on a woven wire conveyor.

MINUTES

Oven temperature is maintained between 250°F and 400°F. Oven ventilation is proportioned on the basis of 10,000 cubic feet of 70°F air to each gallon of solvent evaporated.

Inspection and Test

A typical oven was inspected at 297 Getty Avenue, Paterson, New Jersey by Asst. Engr. J. A. Darts and G. F. Sklenarik, Committee on Test.

Ovens of this design have been approved, after erection, by the Factory Mutuals.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Ross Short Bake Beer Can Oven, Gas-fired, for use in New York City when installed in accordance with this report, the requirements of the Rules of the Board relative to Spraying and Drying of Lacquers, the requirements of Article 12, Administrative Building Code and of the Electrical Code of the City of New York and further provided that each drying oven shall bear a label, permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 555-57-SA."

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Cal. No. 650-57-SA.

Subject: Utility Gas-fired Suspended Unit Heaters, Models 25-UF, 50-UF, 75-UF, 100-UF, 125-UF, 200-UF, 75-UB, 100-UB, 125-UB and 150-UB.

Vanderwater Associates, Inc., for Utility Appliance Corp., California, filed August 5, 1957 an application with the Board of Standards and Appeals for approval of the appliance known as Utility Gas-fired Suspended Unit Heaters, Models 25-UF, 50-UF, 75-UF, 100-UF, 125-UF, 200-UF, 75-UB, 100-UB, 125-UB, and 150-UB under the provisions of Article 12, Chapter 26 Administrative Building Code.

Purpose

The appliance is a gas-fired suspended heater.

Description

The requested models are similar to the models approved by the Board under Cal. No. 249-51-SA for the Utility Appliance Corp.

The units consist of the following:

These heaters are designed primarily for non-residential space heating and under a normal installation are suspended from the ceiling of the room being heated.

The units consist basically of a (1) cabinet containing the heat exchanger, burners and draft diverter, (2) a propeller fan or blower with a suitable motor, mounted at the rear of the unit for the purpose of forcing air across the heat exchanger surfaces, (3) controls consisting of a manual shut-off valve, pilot adjusting valve, automatic pilot to shut-off the main supply of gas if no pilot flame is burning, a pressure regulator to control the gas pressure at a predetermined setting, an automatic main control valve to provide means for turning the gas on or off by remote means, such as a thermostat or switch, a limit switch to shut-off the gas in the event of overheating, a fan switch to delay action of the blower until heated air is in the unit and to delay shut-off of the fan or blower until all heat has been dissipated and a summer switch to turn the fan or blower on when no heat is being used, (4) a set of adjustable air deflecting vanes at the air discharge end of the unit so that the direction of air delivery can be controlled as desired, (5) heat exchanger surfaces are ceramic coated to insure long life by guarding against rusting or burning out, (6) burners are drilled port cast iron with adjustable primary air shutters.

Inspection and Test

The appliance was examined by Asst. Engr. J. A. Darts Committee on Test. The appliances have been approved by the American Gas Association under Certificates P-4-1D3.001, P-4-1D4.101, P-4102.001, P-4-1C.001, P-4-1B.001, P-4-1B4.001, P-4-2A1.001, P-4-2B.001, P-4-2C.001, P-4-1E.001, P-4-1D.001, P-10-1A.001, P-4-3A1.001 and P-4-1E4.001.

Recommendation

On the basis of the examination and the data filed by the applicant, the Committee on Test recommends the approval of the Utility Gas-fired Suspended Heaters, Models 25-UF, 50-UF, 75-UF, 100-UF, 125-UF, 200-UF, 225-UF, 75-UB, 100-UB, 125-UB and 150-UB for use in New York City when constructed as herein described and installed in accordance with the requirements of Article 12, Chapter 26 Administrative Building Code.

The Committee further recommends that these units may be installed in garages when they are provided with a flame screen of 40/40 mesh so installed as to enclose the burner flame and when the units are so installed that the bottom of the heater is at least 8'-0" above the floor level and further that the appliance bear a label, permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 650-57-SA."

WHEREAS, the decision of the Borough Superintendent, dated December 23, 1957, on amendment to Alt. Applic. 100/56 reads:

"1. Application indicates a change of use from Lodge Rooms and Dance Hall to theatres and Lodge Rooms and must therefore be referred back to the Board of Standards and Appeals (Cal. #427-47-A)."

and

WHEREAS, the applicant states that the building is 3 stories 35 feet in height, 70 feet 4 inches by 59 feet 2 inches and 77 feet 7 inches in area, of class 3 construction, erected 1913, located in a business use B area, class 1½ height district, and used and occupied since 1948 as follows: Cellar—storage; 1st floor—stores, 25 persons; 2nd floor—Lodge Rooms and Dance Hall, 200 persons; 3rd floor—Lodge Room and Dance Hall, 200 persons and now proposed to be used and occupied as follows: Cellar—storage, 1st floor—stores, 25 persons; 2nd floor—Lodge Rooms, 1 theatre and dressing room, 175 persons; 3rd floor—2 theatres and dressing room, 175 persons; that the building is provided with one interior 3 foot 6 inch wide steel stairs enclosed in fire retarded partitions equipped with kalamein self-closing doors and leading to roof bulkhead direct to street; that in addition there are two 45° fire escapes leading to a 10 foot yard which leads direct to street; and

WHEREAS, the applicant states that it is proposed to reduce the occupancy of each floor from 200 persons to 175 persons, making a total reduction of 50 persons throughout the building; and

WHEREAS, the applicant contends that at the time the Board considers Calendar Number 427-47-A, Volume III, when a theatre or concert license was requested the application was withdrawn and it is requested that the Board consider the new facts as to the entire 2nd and 3rd floors which are now vacant; and

WHEREAS, the applicant contends since the withdrawal of Calendar Number 427-47-A, Volume III, the lessee has tried to rent these floors but to no avail; that the only demand at the present time is by these small playhouses which are ready to rent the premises if permission can be obtained for such use; that at the present time dancing is permitted on both floors with an occupancy of 200 persons per floor; but this type of assembly in this neighborhood is unprofitable; and

WHEREAS, on July 15, 1947 under Calendar 427-47-A, Volume I, the Board modified Objections 1, 2 and 3 issued by the Borough Superintendent on Alt. Applic. 158/46, so as to permit the following use and occupancy; cellar—storage and boiler room, no persons; 1st floor—stores, 15 persons; 2nd floor—meeting rooms, 200 persons; 3rd floor—meeting rooms, 200 persons; and on February 17, 1953 the Board modified Objections 2, 3 and 4 issued by the Borough Superintendent on Alt. Applic. 1472/52 to permit the following use and occupancy; cellar—same; 1st floor—same; 2nd floor—Lodge Rooms and Union Offices, 200 persons; 3rd floor—Lodge Rooms and Dance Hall, 200 persons; that on condition that the extension fire escape balcony be constructed on the East 1st Street side; that all other means of egress be maintained; that the exits from the rear yard at the street be arranged so that the steel door is readily openable from the inside for egress; and

WHEREAS, this appeal was reopened June 18, 1957, to consider a change in use and occupancy on the 2nd and 3rd floors to Lodge Rooms, offices, theatres and dressing rooms, 200 persons on 2nd floor and 2 theatres and 2 dressing rooms, 200 persons on third floor; that this appeal was withdrawn under Calendar Number 427-47-A, Volume III, after inspection by the Committee of the Board and public hearing; and

WHEREAS, this appeal was reopened as 427-47-A, Volume IV, on January 21, 1958, to consider a new decision of the Borough Superintendent, dated December 23, 1957.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 100/56, Objection No. One be and it hereby is affirmed and that the application be and it hereby is denied.

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated July 11, 1956, on Amd. to Alt. App. 44/49 reads:

"A14. Doctors offices and business uses as noted on specification sheets are necessary to Zoning Res. Art II, Sec. 3 in a Res. Dist."

and

WHEREAS, the applicant states the building is fourteen stories and mezzanine, 140 feet in height, 50 feet by 95 feet in depth at street level, 50 feet front by 88 feet in depth at typical floor level, of fireproof construction, erected 1910 on a lot 50 feet front by 100 feet 5 inches in depth, in a residence use, B area, Class 2 height district, and used and occupied since 1912 as follows: cellar—general storage and boiler room, no persons; 1st floor—lobby, 4 apartments, each with professional accessory use, 10 persons; 2nd to 10th floors—4 apartments each with professional accessory use 10 persons per floor; 11th floor—4 apartments with professional accessory use, (2 front apartments, duplex), 10 persons; 12th floor—2 apartments with professional accessory use, 10 persons; 13th floor—4 apartments with professional accessory use, 10 persons, (2 front apartments duplex); 14th floor—2 apartments with professional accessory use, 10 persons; and that no change in use or occupancy is now proposed; and

WHEREAS, a violation was issued under No. 212-51, an summons served returnable in Municipal Term, Magistrate Court, at which time the matter was adjourned to permit filing of this appeal with the Board; that the building is provided with an approved standpipe system, a one-source sprinkler system, one 3 foot wide interior unenclosed stairs and one fire escape located at the rear of the building; and

WHEREAS, the applicant contends that the Department of Buildings claims that the premises violate Section, subdivision 6(b) and subdivision 9(e) of the Zoning Resolution; that it is occupied above the first story for professional occupancy (doctors and dentists) and business purposes contrary to the Zoning Resolution which prohibits such use in a residence use district except as an accessory to residence; and

WHEREAS, the applicant contends that the occupancy is in violation of the Zoning Resolution for the reason that each unit in the building is occupied for residential use; that these units in which the occupant practices a profession, the practice thereof is consistent with the Zoning Resolution that the professional use under the Zoning Resolution is not limited or confined to doctors and dentists but embraces the practice of any recognized profession; that the occupancy of the units for residential use for the practice of the c

applicant's profession as an accessory use constitutes compliance with the Zoning Resolution despite the fact that the professional use is not limited to the practice of medicine or dentistry but embraces any recognized profession; that the occupancy of the unit for residential use and the practice of any recognized profession as an accessory to such use, fully complies with the Zoning Resolution; that every unit in the building is occupied for residential use, and those in which the occupant practices his profession as an accessory to such use does not constitute a violation of the Zoning Resolution;

WHEREAS, the applicant contends that the regulation in question contained in the Zoning Resolution provides in substance that in a residence use district no building shall be erected other than one designed exclusively for specified uses and then provides: "9. In a residence district no building premises shall be used for any use other than a use above specified * * * and for the accessory uses customarily incident thereto * * * such accessory uses may include, inter alia, * * * Subdivision (e) the practice of a profession within the premises in which the practitioner resides."; and WHEREAS, the applicant contends that the same question arose in the Matter of Holtsberg v Butler and Great Park Corporation in the Supreme Court, New York County. A decision published in the New York Law Journal June 22, 1953 in which Mr. Justice Aurelio held that the tenant was judged to be in accordance with the Zoning Resolution under the term accessory use, although excluding a business, included the practice of a profession, and the practice of a profession was defined in the Matter of Geifert v Mealey, 3 N. Y. 583, and in Bassett's book on Zoning at Page 100 and Page 82, and similar views are concurred in by Mr. Ulkoff in his, "The Law of Zoning and Planning" at Page 1; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which found from the testimony in the hall of the building that there is a miscellaneous occupancy, the greater part of which is for business and with some doctors and dentists.

Resolved, that the decision of the Borough Superintendent, acting on Amendment to Alt. App. 44/49, Objection No. A 14, and it hereby is affirmed and that the appeal be and it is denied.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application May 21, 1957 after due notice by publication in the Bulletin; laid over to June 11, 1957, for inspection and decision; hearing closed; then to June 18, 1957, for inspection and decision; then laid over from June 18, 1957, for further consideration and decision; date to be set; then set November 6, 1957; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Southern boulevard, Intervale avenue, Wilkins avenue and Freeman street are in a business B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated November 14, 1956 acting on N.B. Applic. 1248-56, is:

"1. Proposed gasoline & oil selling station, office, sales room, lubritorium, car washing, minor repairs, parking & storage of more than 5 motor vehicles in a Business use district is contrary to Art. II Sect. 4(a) 15 & 29 & 46 of the Zoning Resolution and is therefore denied."

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 100.26 ft. in depth, irregular, presently being used for the parking and storage of motor vehicles, and a frame one story 10 ft. by 10 ft. office installed under Alt. Applic. 1048-52, and for which certificate of occupancy No. 14075 was issued April 28, 1954; that it is proposed to remove this use and to erect, for a period of ten years, a modern gasoline service station consisting of twelve 550 gallon gasoline storage tanks, and three dispensing pumps; that the proposed accessory building will be one story in height of class 3 construction, having a frontage of 100 ft., a depth of 28 ft., and will contain the constructive uses of office and sales, lubritorium, minor auto repairs, car washing; that the rear portion of the site will be used for the parking and storage of motor vehicles; and

WHEREAS, the applicant contends that the proposed building will be highly modern in design and will improve the

appearance of the community; that the gasoline pumps will be set 15 ft. back of the building line and the curb cuts will be limited to two 30 ft. wide curb cuts, thereby insuring ample pedestrian safety; that the parking and storage of motor vehicles on the site will help alleviate a serious parking problem in this area; that the entire area is in a business zone with sufficient stores for public requirements at this time; that there are no other gas stations in the affected area at this time and the proposal is as much a required service as any present local retail store; that the entire area is built up with dwellings, stores and apartment houses, thereby creating a need for the proposal; that Intervale avenue is a highly traversed auto lane leading across the Bronx, creating an additional need for the proposal at this time; that the land is high in value and inasmuch as additional stores would not be financially feasible at this time, it is mandatory that the owner develop the site as proposed so that he may receive an equitable return on his investment and continue to pay real estate taxes; that the proposed gas station will present a far better picture to the affected area than the present use of parking and storage that it proposes to replace; and

WHEREAS, the applicant states that the present owner has held title to the property since February 3, 1956; that the assessed valuation of land is \$25,000 and of the building \$500 making a total of \$25,500; that the building was erected in 1952; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f, h and i of the Zoning Resolution.

NOTICE

APPEALS AS TO MULTIPLE DWELLINGS

The Legislature, under Chapter 333 of 1948, has clarified Section 60 of the Multiple Dwelling Law by describing agency authorized to grant variances under this Section, so as clearly to mean in New York City—the Board of Standards and Appeals.

Chapter 508 of 1948 has also been adopted by the Legislature, amending the Multiple Dwelling Law to provide under new Section 310, for a Board of Appeals. By description the Board of Appeals means in New York City—the Board of Standards and Appeals. Section 310 provides as follows as to appeals:

LAWS OF NEW YORK—By Authority Chapter 508 of 1948

§ 310. Board of appeals. 1. As used in this section "board" shall mean the agency of a city constituted as a board and authorized by law both to grant variances of the zoning resolution and to make rules supplemental to laws regulating construction, maintenance, use and area of buildings.

2. Where the compliance with the strict letter of this chapter causes any practical difficulties or any unnecessary hardships the board shall have the power, on satisfactory proof at a public hearing, provided the spirit and intent of this chapter are maintained and public health, safety and welfare preserved, and substantial justice done, to vary or modify any provision or requirement of this chapter, or any rule, regulation, supplementary regulation, ruling or order of the department with respect to the provisions of this chapter, as follows:

a. For multiple dwellings and buildings existing on July first, nineteen hundred forty-eight, provisions relating to:

- (1) Height and bulk;
- (2) Required open spaces;
- (3) Minimum dimensions of yards or courts; or
- (4) Means of egress.

b. For multiple dwellings and buildings erected or to be erected after July first, nineteen hundred forty-eight, and

such dwellings thereafter altered or to be altered, provisions relating to:

- (1) Required open spaces; or
- (2) Minimum dimensions of yards or courts.

Variations or modifications may be granted pursuant to paragraph b only on condition that open areas for light and air are provided which are at least equivalent in area to those required by the applicable provisions of this chapter.

3. An application for such a variance or modification shall be made by any person aggrieved or by the head of the public agency, within such time and under such procedural conditions and rules as may be prescribed by the board. The board shall fix a reasonable time for the hearing of the application and shall require that due notice be given of the time and place of such hearing to the applicant and to the department. Any person or a duly authorized representative of any public agency may appear at any such hearing and be heard on any such application.

4. In every case the board shall state the reason or reasons for its decision. All decisions of the board shall be subject to review in the same manner as is provided by law for review of decisions of such board respecting variances of the zoning resolution.

5. A record of all decisions of the board, indexed according to the section or sections of this chapter affected thereby, shall be kept in the office of the board. Such record shall be open to public inspection at all times during business hours.

PETITION AND CERTIORARI ORDER SERVED ON THE BOARD OF STANDARDS AND APPEALS.

On March 4, 1958, Copy of Petition and Order of Certiorari was
served on the Board by Max Tirschwell, attorney for petitioners,
Charles H. Platt, et al., objecting property owners, seeing a review
of the Board's determination on January 28, 1958, granting a variance,
under Section 21 of the Zoning Resolution, to permit in a G-1 area
district, the conversion of a present one-family dwelling to a two-
family dwelling, Calendar Number 329-57-BZ; Premises 1161 East 21st
Street, east side, 240 feet south of Avenue J, Borough of Brooklyn.

COURT DECISION.

Matter of Maurice H. Ribolow vs. Harris H. Murdock, et al:—On
April 24, 1957, the Board granted a variance under Section 7, sub-
division f, of the Zoning Resolution, to permit in a business and resi-
dence use district the premises to be occupied as a gasoline service
station and accessory uses; Cal. No. 734-56-BZ; Premises 1010-1034
McDonald Avenue, 35-40 (official) Lawrence Avenue, and 15-21 Park-
ville Avenue, Borough of Brooklyn.

At Supreme Court, Kings County, Special Term, Mr. Justice Baker
sustained the Board's determination in the following decision, as it
appeared in the New York Law Journal of March 3, 1958, page 11:—

"Motion by respondents to vacate an order of certiorari and to
affirm the determination of the Board of Standards and Appeals.
The respondent board granted a variation for the erection and
maintenance of a gasoline station, etc., upon certain conditions set
forth in the resolution approving the application, for a term of
fifteen years. Petitioner contends that the objectants were not ac-
corded a full and impartial hearing, that the Board of Standards
and Appeals has not used any ascertainable standards, and that the
determination is arbitrary and capricious. It appears from the
record that the Board acted within its discretionary powers under
section 7(f) and (i) of the Zoning Resolution and imposed con-
ditions for the granting of the application. Petitioner has failed to
show that the determination of respondents is arbitrary or capri-
cious. The determination of respondents is affirmed, the order of
certiorari vacated, and the petition dismissed. Settle order on
notice.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection
with which court proceedings are pending or in progress,
unless exception is granted by the chairman, nor accepted
which is not filed within thirty days from the date of the
action of the Administrative Official.

Any communication purporting to be an appeal or appli-
cation shall be regarded as a mere notice of intention to seek
relief until it is filed on the form required by the rules of
this board.

Upon receipt of any such communication the writer will
be supplied with the official forms for presenting his appeal
or application.

At the time of filing an appeal or application, the appel-
lant or applicant shall forward a signed notice of appeal
addressed to the administrative official either borough super-
intendent of buildings or fire commissioner and file with
this board a duplicate of said notice.

Appellants and applicants are advised that their plans must
indicate the points of the compass so as to establish the true
location and position of the property, the subject of the
appeal or application.

Appeals and applications will be simplified and disposition
of same expedited by conforming to these directions.

HARRIS H. MURDOCK, Chairman.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on
February 26, 1957 subject to regular procedure; and

WHEREAS, a public hearing was held on this application
on February 25, 1958 after due notice by publication in the
Bulletin; laid over to March 4, 1958, for consideration and
decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning
Resolution show that the site, West 35th Street and Fifth
Avenue are in a restricted retail use, B area, class 2 height
district; West 36th Street is in a retail and restricted retail
use, B area, class 2 height districts; that in 1957, the build-
ing located at No. 19 West 35th Street, the premises in-
volved in this application, was demolished, and in connec-
tion with this application for a variance a letter was sent
to the City Planning Commission requesting information
concerning the zoning; that on February 6, 1957 the City
Planning Commission wrote that the present restricted re-
tail district became effective on June 25, 1937; and

WHEREAS, the decision of the Borough Superintendent,
dated November 27, 1956 acting on Alt. Applic. 1618-56,
reads:

"1. Extension of existing parking lot 20' west on
West 35 St. into a Restricted Retail use district for the

MINUTES

storage and parking of motor vehicles is not permitted. Article II, Sections 4B(i) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 190 feet and 50 feet frontage by 98 feet and 197.6 feet in depth, irregular; and

WHEREAS, the applicant states that the existing parking lot, to which it is proposed that there be added the additional parcels known as 9 and 19 West 35th Street, was the subject of an appeal to the Board under Cal. No. 100-38-BZ, Vol. I; that the Board, on September 27, 1938 issued a resolution authorizing the use of said premises for parking, describing said premises to be in a retail zone district; that the resolution was extended by the Board for periods of two years in 1942, 1944 and in 1946, the last expiring in 1948; that on December 8, 1948 the Building Department issued a permanent Certificate of Occupancy for said parking lot premises known by the street numbers 9-17 West 35th Street and 12-14 West 36th Street; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on September 24, 1946, by adding thereto:

"that in view of the change in the zoning, the premises as extended and now shown on plans filed with this application, marked 'Received December 27, 1956', 2 sheets, may be occupied for the parking and storage use as previously permitted and now permitted for a term of five years under this resolution, *on condition* that the premises shall be leveled substantially to the grade of the abutting streets, surfaced with clean gravel or steam cinders, treated with a binder and properly rolled; that fences shall be maintained on all lot lines where walls of adjoining buildings do not occur, that such fences shall be of a woven wire chain link type on a masonry base to a total height of not less than 5 feet, 6 inches; that entrances shall be as proposed and now existing to West 35th Street, one 55 feet in width and one 22 feet in width, and one curb cut 27 feet in width to West 36th Street, as shown on such plans; that during the term of this variance the premises shall be occupied for no other use and no building shall be erected thereon except there may be a shelter and office for the attendant, not exceeding 100 square feet in area or one story in height, located where shown; that the sidewalk and curbing abutting the site shall be constructed or repaired to the satisfaction of the Borough President; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that there shall be bumpers maintained for protection of the fences and walls of adjoining buildings; that signs shall be restricted to one at each entrance, advertising the parking and storage use, the rates charged and such other information as the Commissioner of Licenses may require; that such signs shall not exceed four square feet in area, shall not be illuminated or extend beyond the building line; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall require; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

Affirmative: 0
Negative: Chairman Murdock, Vice Chairman Keating, Commissioner Kleinert, Commissioner Foley and Commissioner Sleeper 5

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on November 6, 1957 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on January 28, 1958 after due notice by publication in the Bulletin; laid over to March 4, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, West 34th Street, Ninth Avenue and West 33rd Street are in a retail use, B area, class 1½ height district; that as of January 25, 1916 the premises were in an unrestricted use district and received the present use designation as of November 13, 1936; and

WHEREAS, the decision of the Borough Superintendent, dated October 7, 1957 acting on amendment to Alt. Applic. 75-57, reads:

"1. Proposed two story, cellar and roof, non storage garage (of 51,348 square feet floor area) for over five and less than 150 motor vehicles, including trucks; offices, toilets and locker rooms; located in Retail use District, is contrary to Section 4A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 80 feet frontage by 197 feet 6 inches in depth, irregular, presently being used for parking and storage of more than five motor vehicles; that this use was established under Alt. Applic. 2215-48 and Cal. No. 48-49-A; that Certificate of Occupancy No. 35582 was issued for said use; that records further show that the same use was extended to its present size under Alt. Applic. 1349-56, for which no Certificate of Occupancy has as yet been issued; that it is proposed to obtain a variance for a temporary period of twenty-five years in order to erect a two story garage for more than five cars and less than one hundred fifty cars, of class one construction, having a frontage of 80 feet on West 34th Street, 50 feet on West 33rd Street and 197 feet 6 inches on the easterly lot line and 197 feet 6 inches on the westerly lot line; and

WHEREAS, the applicant contends that there are many apartment houses, hotels, large office buildings, etc., in this area that are without garage or parking facilities, so that the development of this site with a parking garage will do much to alleviate the parking situation in this area; that the land is high in assessed value and it is mandatory that this site be developed in the only feasible manner as proposed; that the change of zone from an unrestricted use district to retail use district has limited the use of the site to a retail use and since there is no economic demand for erection of retail stores on this site, the proposal is entirely within keeping at this point; that the unrestricted use district directly across West 33rd Street has further reduced the use of this site for retail purposes; and

WHEREAS, the applicant states that the present owner has held title to the property since March 17, 1945 and September 26, 1956; that the assessed valuation of land is \$160,000 and of the building \$18,000 making a total of \$178,000; that the building was erected in 1949; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

MINUTES

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the decision of the Borough Superintendent, acting on amendment to Alt. App. 75/57, Objection No. 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 4, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Hering Avenue, Pelham Parkway, Lydig Avenue and Yates Avenue are in a residence use, E-1 area, class 1½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated June 20, 1957 acting on amendment to Alt. Applic. 792-52, reads:

"Al. The proposed conversion of the existing two family, brick, 3 story & cellar dwelling to a three (3) family multiple dwelling located in an E-1 area district is contrary to Sec. 15-A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 feet frontage by 100 feet in depth, occupied by a two family dwelling; that the dwelling is of masonry, class 3 construction, three stories and cellar, and presently used illegally as a three family dwelling; that such use was in effect since the time of purchase of the dwelling in June, 1951; that a multiple dwelling violation was subsequently issued against these premises on February 8, 1952 for an illegal conversion; that because of the pending violation, the owner commissioned him to file plans; that plans were filed and approved December 18, 1952 to legalize the converted dwelling; that however, because of the owner's financial difficulties, the work required by the approved plans was never started; that on January 13, 1954, work was commenced on the installation of the fire escape; that an application for a fire escape was filed for, the permit issued for same and the work was legally finished on March 9, 1954; that from the time the plans were approved in December 1952 to the time the fire escape was legally installed, a change in zone of the area of these premises was made from a C area to an E-1 area; that this became effective December 14, 1953; that because of this change in zone, a letter of revocation from the Building Department, dated February 24, 1954 was received by the owner, rejecting the approved plans of record; and

WHEREAS, the applicant contends that the owner was the recipient of an unjust action of the Building Department; that the owner made a sincere effort to legalize the premises; and

WHEREAS, these premises were inspected in the area where three other similar buildings are located at 1942, 1946 and 1950 Hering Avenue where relief similar to that here sought was granted; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 21, to permit the conversion of the existing two-family house to a three-family multiple dwelling, as proposed and indicated on plans filed with this application, marked "Received July 17, 1957", 3 sheets, and one plan marked "Received March 4, 1958", and to restore the approval of the Department of Buildings, as rendered on December 18, 1952, on condition that all work required to have this building comply fully with the requirements of the Multiple Dwelling Law and all other laws and rules will be complied with and completed within one year from the date of this resolution.

WHEREAS, a public hearing was held on this application on January 28, 1958 after due notice by publication in the Bulletin; laid over to March 4, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, West 27th Street and West 28th Street are in residence and retail use, B area, class 1½ height districts; 8th Avenue is in a retail use, B area, class 1½ height district; that at the present time no zoning amendment is pending; that however, the zone has changed since July 25, 1916, when this property was originally zoned as business and unrestricted; that in 1927 the zone was changed to retail and unrestricted and in 1937 the zone was again changed to the present retail and residential district; and

WHEREAS, the decision of the Borough Superintendent, dated May 24, 1957 acting on Alt. Applic. 586-57, reads:

"1. Parking lot partly in a Retail and partly in a Residence district is contrary to Article II, Section 3 of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 62 feet frontage by 74 feet ¾ inch in depth, vacant; that it is proposed to extend the use of this parking lot into the adjacent vacant land which is in the same ownership, and located in the residential district; and

WHEREAS, the applicant states that the present parking lot now consists of an irregular plot 38 feet by 74 feet ¾ inch,

for which Certificate of Occupancy No. 47198 was issued for a parking lot for the parking of more than five motor vehicles; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7h, for a term of five years, to permit the premises to be occupied for the parking and storage of motor vehicles, as an extension of the existing adjacent parking lot now located in a retail district, as shown on plans filed with this application, marked "Received July 22, 1957", 3 sheets, *on condition* that the premises shall be leveled substantially to the grade of West 27th Street, surfaced with clean gravel or steam binders, treated with a binder and properly rolled; that there shall be erected on all building lines where walls of adjoining buildings do not occur, a woven wire fence of the chain link type, not less than 5 feet 6 inches in height and protected by proper bumpers, as shown on such plans; that such fence shall be continued along the street building line with an opening not exceeding 12 feet in width, fitted with gates which shall be kept closed when the parking lot is not in operation; that opposite such opening there may be a curb cut of similar width; that during the term of this variance the premises shall be occupied for no other use and no building shall be erected thereon; that all sidewalks and curbing abutting the site shall be constructed or repaired to the satisfaction of the Borough President; that a sign, advertising the parking and storage use, and the rates charged and such other information as may be required by the Commissioner of Licenses may be attached to the fence near the gate, such sign not to exceed 4 square feet in area, not illuminated and not extending beyond the building line; that such portable fire-fighting appliance shall be maintained as the Fire Commissioner shall direct; and that all permits, including a certificate of occupancy shall be obtained and all work completed within six months from the date of this resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 4, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a residence use, E area, class 1 height district; 127th Street and 128th Street are in residence and retail use, D and E area, class 1 and class ½ height districts; Liberty Avenue is in a retail use, D area, class 1 height district; that as of July 25, 1916 the property

was zoned as one times height district and a D area district; that the present height and area designations became effective on June 30, 1947; that the use designation has not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the decision of the Borough Superintendent, dated July 22, 1957 acting on N.B. Applic. No. 2585-56, reads:

"1. Survey filed shows the new one story, basement and attic, one family dwelling, located in an "E" area district, set back 10 feet 0 inches from the existing building line instead of being set back 10 feet 0 inches from the building line of mapped street and is contrary to Article IV Section 15 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 30 feet frontage by 100 feet in depth, presently improved with a one family frame dwelling erected under N.B. Applic. 2585-56; that due to the proposed five foot street widening of the east side of 127th Street, which has now been proposed for the past 44 years, there was a misunderstanding as to the setback of this building from the 127th Street building line; that the result was that in honest error, the building was set back ten feet from the existing line instead of the proposed building line of 127th Street; that this condition does not in any way adversely affect adjoining property owners nor the surrounding area in general; that practically all the buildings in the affected area were erected prior to the area district change of D area to E area on June 30, 1947; and

WHEREAS, the applicant contends that the legal status of 127th Street at the present time is as follows: that the information is based on a letter from the office of the President of the Borough of Queens, dated June 25, 1957; that the street is indicated at a width of 60 feet on Section 122 of the Final Maps of the Borough of Queens, adopted by the Board of Estimate and Apportionment on December 4, 1913; that the old road, about 50 feet wide, is dedicated to the use of the public according to an opinion of the Corporation Counsel dated October 9, 1920; that there is a proposed widening of about five feet on the easterly and westerly sides of the dedicated area which is in private ownership and there are no proceedings now pending to acquire title to the proposed widening; and

WHEREAS, the applicant states that the present owner has held title to the property since April 21, 1956 and that the assessed valuation of land is \$1,625; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 21 to permit the front yard of the width as proposed and as indicated on plans filed with this application marked "Received July 23, 1957", 3 sheets, based on the distance from the existing street line; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 447-56-SM.

Subject: Brunswick Horn Folding Gymnasium Seats.

Brunswick-Balke-Collendar Co., Chicago, Illinois, filed June 12, 1956, an application with the Board of Standards and Appeals for approval of the Brunswick Horn Folding Gymnasium Seats under the provisions of C26-191.0 Administrative Building Code.

Purpose

A folding bleacher for indoor seating.

Description

The device is a type of bleacher intended to be used primarily for indoor spectator seating and may be telescoped or folded against the wall when not in use. Standard sections are 8 feet and 16 feet but other size sections may be used by adding 1 foot increments to the standard sections. The section consists of seats, foot boards, skirt boards resting on steel supports and having a maximum height of thirty rows or 23 feet 3 inches for a 9 inch rise or 29 feet 3½ inches for a 11½ inch rise.

Each section operates on the folding principle and all rows fold and are so designed that there is what is known as "row locks" which are designed to mechanically and automatically lock the units in an extended position without the use of floor plates or shoes and shall not require the weight of the spectators to lock the floor level and a level of 1 foot 6 inches below each individual seat to prevent accidental folding of units.

Each unit is equipped with a key lock, keyed alike to prevent unauthorized operation. The key lock, when open, permits the raising of the front kick board and releasing of row stop to start the folding action.

The bleachers are supported by tubular columns 1-7/8 inch O.D. by 13 gauge (.095 inches) wall thickness and the brace and connecting link arms are ¼ inch by 1 inch steel flats. Each column is fitted at the base, with a heavy duty rubber wheel 3 inches by 1-7/8 inches.

The seats, foot boards and skirt boards are 1½ inch Douglas Fir.

Inspection and Test

Details of construction were examined by Assistant Engineer J. A. Darts, Committee on Test.

MINUTES

The applicant has also furnished a test report. Results showed that the seat board successfully carried 163 pounds/linear feet and the floor board 186 pounds/linear feet. While this load was still applied, a horizontal swaying load of 24 pounds/linear feet of seat board was also applied with the vertical load still in place, an overturning load of 10 pounds/linear feet of seat board was applied in a direction perpendicular to the length of the seats.

Additional tests consisted of a cadenced impact test of 200,000 cycles; opening and closing of the stand 2,000 times; settling test on the floor board.

The complete report is on file with and is part of the record.

Recommendation

On the basis of the examination and the data filed by the applicant, the Committee on Test recommends the approval of the Brunswick Horn Folding Gymnasium Seats for use in New York City on condition that the device be constructed in accordance with this report and installed in accordance with the requirements of the pertinent section of Chapter 26 Administrative Building Code, provided that the height of the bleacher shall be limited to six tiers, that the bleachers shall be adequately anchored to the wall, irrespective to the number of tiers; that no seat occupant shall pass more than seven seats without the intervention of an aisle; that the aisle shall be a minimum width of 2 inches 6 feet; that the aisles shall be provided with steps adequately secured when the bleachers are in use, to the main floor and further that the bleacher bears a label permanently affixed reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 47-56-SM."

Re: Cal. No. 505-56-SM.

Subject: Metal Acoustical Tile.

Acoustics Mfg. Corp., Detroit, Michigan, filed June 29, 1956, an application with the Board of Standards and Appeals for approval of the material known as Metal Acoustical Tile under the provisions of C26-88.0 and C26-191.0 Administrative Building Code.

Purpose

The material is to be used as an incombustible acoustical tile.

Description

The acoustical metal panels are manufactured of 26 gauge cold rolled steel with an enamel finish. The pans are made

in four sizes, 12 inches by 24 inches, 12 inches by 36 inches, 12 inches by 48 inches and 18 inches by 36 inches and the larger panels are scored to simulate 12 inch by 12 inch tiles.

The pans are used in conjunction with an approved suspension system.

Inspection and Test

Details of construction were examined by Asst. Engr. J. A. Darts, Committee on Test and the material was found to be incombustible.

Recommendation

On the basis of the examination and the data filed by the applicant, the Committee on Test recommends the approval of the material known as A-M Metal Acoustical Tile for voluntary use in New York City as an incombustible metal tile as having met the requirements of C26-88.0 on condition that the pans be installed on approved suspension system, installed in accordance with their respective approvals and further that if an acoustical blanket is used in conjunction with the pan system, the blanket shall be an approved incombustible acoustical blanket, and that all cartons in which the material is marketed shall be tagged, stamped or labeled "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 505-56-SM."

Purpose

The material is to be used for interior plaster construction.

Description

The gypsum plaster is either fibered, unfibered or extra fibered. The fibers are normally glass fibers but the gypsum may be furnished with sisal fibers.

Bestwall Common Gauging is a high purity gypsum plaster and is used as a gauging with lime for finish coat work.

Bestwall Satin Spar Gauging is similar to the above except it is white.

Bestwall Keenes Cement is a dead burned gypsum plaster used for finish coat work with lime when great hardness is required.

Bestwall Wood Fiber Plaster is a gypsum plaster containing a small percentage of wood fibers. It may be used neat with water only or with one part of sand for plaster.

Bestwall Sunflower Molding Plaster is a high purity gypsum used with water only for ornamentation work only.

Bestwall Concrete Bond Plaster is to be used for plastering directly over cast in place concrete.

Inspection and Test

Samples of the material were tested in accordance with the requirements of the ASTM for the specific material and successfully met the requirements.

RE: Calendar Number 686-56-SM.

Subject: Bestwall Gypsum Lath.

Bestwall Gypsum Co., Ardmore, Pa., filed August 20, 1956 an application with the Board of Standards and Appeals for approval of the material known as Bestwall Gypsum Lath under the provisions of C26-191.0 and C-26-462.0 Administrative Building Code.

Purpose

The material is to be used as a gypsum plaster base.

Description

Bestwall Gypsum Lath is a plaster base material having a core of gypsum and a paper surface. The most common size is ⅜ inch by 16 inch by 4 feet with rounded edges. The lath may be plain, perforated with ¾ inch diameter holes on 4 inches on center, parallel to the edges and also at right angles, or insulating, with a sheet of aluminum foil on the back side. The lath may be also ½ inch by 16 inches by 4 feet or may be what is known as long length being ⅝ inch by 16 inch or 24 inch wide by 12 feet long with rounded edges or ½ inch by 16 inch or 24 inch wide by 12 feet long with rounded edges or with tongue and groove "V" edges.

MINUTES

Inspection and Test

Samples of the lath were tested in accordance with the requirements of C26-462.0 Administrative Building Code and successfully met the requirements of ASTM C 37-42.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Bestwall Gypsum Lath, as herein described, for use in New York City under the provisions of C26-462.0 Administrative Building Code. The Committee further recommends that this lath may also be used with metal framing and further that the lath shall be marked, stamped or labeled "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 686-56-SM".

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 22-57-SM.

Subject: Bestwall Perlite Plaster Aggregate.

Bestwall Gypsum Company, Ardmore, Pennsylvania, filed December 28, 1956 an application with the Board of Standards and Appeals for approval of the material known as Bestwall Perlite Plaster Aggregate under the provisions of C26-312.0h, C26-463.0, C26-464.02 and 3, and C26-468.2 Administrative Building Code.

Purpose

The material is to be used in lieu of sand in gypsum plaster.

Description

Perlite as defined under C26-133.0 Administrative Building Code is an acid igneous glassy rock of the composition of sodium, expanded by heating and divided into small spherical bodies by the tension developed by its contraction on cooling.

The crude ore is crushed and screened and shipped to the company's expanders. The ore is again graded and dropped to the expansion chamber. The ore is then heated to approximately 2,000°F, at which temperature the grains acquire an incandescent glow and expand in size. The product is then bagged in 3 or 4 cubic foot bags and weighs about 10 pounds per cubic foot.

Inspection and Test

The processing of the applicant in New York City was inspected by Assistant Engineer J. A. Darts, Committee on Test. Representative samples were identified and marked. The identified samples were tested in accordance with the requirements of C26-466.2 Administrative Building Code and met the requirements. The complete report is on file with the Board of Standards and Appeals and is part of the record.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of Bestwall Perlite Plaster Aggregate for use in New York City under the provisions of C26-463.0 and C26-464.0 and 3 Administrative Building Code as having met the requirements of C26-312.0h and C26-466 Administrative Building Code on condition that each bag of Bestwall Perlite Plaster Aggregate shall be marked or labeled as follows: "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 22-57-SM."

Re: Calendar Number 82-57-SA.

Subject: Carrier Air Conditioning Units, Models 38D2A, 38D4A, 38D6A, 38F2, 38F4, 38F6.

Thermodyne Corporation for Carrier Corporation, Syracuse, New York, owner-manufacturer, filed January 10, 1957 an application with the Board of Standards and Appeals for approval of the Carrier Air Conditioning Units Models 38D2A, 38D4A, 38D6A, 38F2, 38F4, 38F6 for use in New York City under the provisions of C26-191.0 and C19-96.0 Administrative Code.

Purpose

Complete air cooling systems for residential and commercial use.

Description

The Carrier Air Conditioning Units, 38D series, are air cooled condensing units with evaporator coils that may be installed either in a furnace duct system utilizing the furnace fan for air circulation or in any duct system with a separate blower fan installed in the evaporator coil housing. Piping connections between the evaporator coil and the condensing unit are made in the field.

The condensing units consist of a spring mounted serviceable hermetic compressor with automatically reversible oil pump, a fan cooled condensing coil of finned type and a liquid receiver. The expansion valve is made a part of the evaporator coil assembly.

Pressure relief is afforded by means of soldered connections at the condenser coil.

Bonderized and enameled casings are provided for the condensing units and evaporator sections; the condensing units are also weatherized so that they may be installed outdoors.

The Model 38D2A employs a 3 H.P. compressor motor and a 10½ pound charge of Carrene 7 refrigerant.

MINUTES

The Model 38D4A employs a 5 H.P. compressor motor and a 20 pound charge of F-12 refrigerant.

The Model 38D6A employs a 5 H.P. compressor motor and an 18 pound charge of Carrene 7 refrigerant.

The corresponding evaporator coils used with the above condensing units are designated as 38D2, 38D4 and 38D6 for installations without an evaporator fan and as 38F2, 38F4 and 38F6 when an evaporator fan is used.

Inspection and Test

A typical 38D condensing unit and evaporator coil was inspected at 45-15 Vernon Boulevard, Long Island City, by Asst. Engr. G. F. Sklenarik, Committee on Test.

The 38D units have been tested and approved by the Underwriters' Laboratories under file SA690.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant, the Committee on Test recommends the approval of the Carrier Air Conditioning Units Models 38D2A, 38D4A and 38D6A, also Evaporator Coils 38F2, 38F4 and 38F6 for use in New York City when installed in accordance with the provisions of Article 18 Chapter 19 Administrative Code and the Electrical Code of the City of New York and provided that each unit shall bear a label, permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 82-57-SA".

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 89-57-SA.

Subject: Armstrong Climate Conditioners, Gas Fired, Models 101, 102, 901, G2, 5, 6, 7, 8, 65,000 to 450,000.

Gas Equipment Corporation for Armstrong Furnace Company, Columbus, Ohio, owner-manufacturer, filed January 29, 1957 an application with the Board of Standards and Appeals for approval of the Armstrong Climate Conditioners Gas Fired Models 101, 102, 901, G2, 5, 6, 7, 8, 65,000 to 450,000 for use in New York City under the provisions of Article 12 Administrative Building Code.

Purpose

Gas fired hot air furnaces for domestic, commercial and industrial use.

Description

The Armstrong Climate Conditioners are a group of gas fired warm air burners. The component parts consist of a single port gas burner; a steel heat exchanger with body and radiator welded into a gas tight unit; a belt driven fan—two fans on the larger units—for air circulation, fibreglas filters and operating and safety controls, all assembled into a steel cabinet that is finished in a baked enamel. In addition, an induced draft blower is installed in the G-350 and G-450 models.

The designations G-2 in the model number indicates a floor type furnace with gravity air flow so that blower fans are not used on these models. The G-5 indicates a floor type unit with forced flow of heated air from the top. The G-6 indicates same type of unit but of "high-boy" design. The L-7 indicates a floor type unit with forced counterflow of heated air. The G-8 indicates a horizontal suspended type unit or one that may be installed in a suitable space.

All units are designed for flue connection and their Btu output per hour is as follows:

Model No.	Btu
101-G2- 85	63,750
G2-105	78,750
G2-135	101,250

G8-350	
901-G6-450	450,000
G7-450	
G8-450	

The above models are primarily designed for use with duct systems but may be equipped with discharge heads provided with directional vanes for distributing the heated air over an area.

Inspection and Test

All details of construction were examined by Assistant Engineer G. F. Sklenarik, Committee on Test.

The G6-350 and G6-450 models have been tested and approved by the Underwriters' Laboratories file MP 2367.

The other models have been tested and approved by the American Gas Association.

Recommendation

On the basis of the inspection and the data submitted by the applicant, the Committee on Test recommends the approval of the Armstrong Climate Conditioners, Gas Fired Models 101, 102, 901, G2, 5, 6, 7 and 8, 65,000 to 450,000 for use in New York City when installed in accordance with this report and the requirements of Article 12 Administrative Building Code and provided that each unit shall bear label, permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 89-57-SA".

Purpose

The material is to be used as a bulletin board.

Description

The face of the textboard is a textured weave Kalistron approved by the Board under Calendar Number 625-47-SM) clear vinyl to the underside of which is applied colored pigment and flocking. The backing is a treated Celotex. The overall thickness of the board is 9/16 inches.

Inspection and Test

The material was inspected by Asst. Engr. J. A. Darts, Committee on Tests, and tested for combustibility and was found suitable for bulletin boards in school classrooms.

Recommendation

On the basis of the inspection and data filed by the applicant, the Committee on Test recommends the approval of Armstrong's Accopac; also known as Weldwood Tackboard for voluntary use in school classrooms, under the provisions of C26-191.0; provided that this material shall be attached directly to walls of fireproof materials and within a framing of metal or other incombustible material and that it shall not exceed a total of 250 square feet per classroom; that class rooms herein referred to shall be rooms in schools or other institutions giving academic instruction; and that the material delivered to a school for such use shall be tagged or stamped: "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 196-57-SM".

Oil Burner Models ET-1, ET-2 and ET-3 under the provisions of the Oil Burner Rules of the Board.

Purpose

The appliance is an oil burner for domestic and for commercial installation.

Description

The appliance is a mechanical draft gun-type pressure conversion atomized oil burner consisting of a blower housing, electric motor, fan, ignition transformer, fuel pump and nozzle assembly. The pump is part of an integral fuel unit which consists of a pump, strainer, pressure regulating valve and an oil by-pass valve. The blower housing is either cast iron or aluminum and is so machined that the pump and motor are in alignment.

The model ET-1 has a firing range of from 0.75 to 1.80 G.P.H., the Model ET-2—from 1.00 to 2.00 G.P.H. and the ET-3 from 1.30 to 2.75 G.P.H.

Inspection and Test

Details of construction were examined by Assistant Engineer J. A. Darts, Committee on Test. The burners have been approved by the Underwriters Laboratory under MP 1529.

Recommendation

On the basis of the examination and the data filed by the applicant the Committee on Test recommends the approval of the E.F.M. Subject: Burgess-Manning Ceiling.

Jacobson & Co., Inc., New York, for Burgess-Manning Co., Architectural Products Division, Chicago, Illinois, filed July 3, 1957 an application with the Board of Standards and Appeals for approval of the material known as Burgess-Manning Ceiling under the provisions of C26-461.0 Administrative Building Code.

Purpose

The material is an incombustible acoustical ceiling, also used for radiant heating and cooling.

Description

The ceiling consists of a standard channel suspension system installed in accordance with the requirements of C26-461.0 Administrative Building Code to which is attached a water circulating coil, consisting of 1½ inch galvanized header pipe and ½ inch I.P.S. standard schedule 40 pipe, by means of 12 gauge spring clip. This assembly supports the incombustible acoustical blanket and the aluminum ceiling panels are in turn snapped on to the ½ inch pipe by means of the panel spring clip. The weight of the assembly, including the pipes, filled with water, is 1.78 pounds/square foot.

Inspection and Test

Details of construction were checked by Asst. Engr. J. A. Darts, Committee on Test, at 227 East 44th Street, New York City, and it was noted that the clips were of sufficient strength to carry the assembly.

Recommendation

On the basis of the inspection and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Burgess Manning Ceiling for use in New York City as an incombustible acoustical ceiling on condition that the acoustical pad be of incombustible material, that the ceiling be hung from a standard suspension system installed in accordance with the requirements of C26-461.0 Administrative Building Code and when the system is used for cooling that the area to be cooled shall be properly dehumidified and further that all plans showing the proposed use of this system filed with the Department of Buildings shall be marked or labeled "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 577-57-SM".

Re: Calendar Number 951-57-SA.

Subject: Ducane Oil Fired Forced Warm Air Furnace, Models HS-84, CS-95, CS-110, S-140, S-180, S-250, C-84, HB-95, HB-110, LB-95, LB-110, LB-150 and LB-180.

Ducane Heating Corporation, Hawthorne, New Jersey, filed November 6, 1957 an application with the Board of Standards and Appeals for approval of the Ducane Oil Fired Forced Warm Air Furnace Models HS-84, CS-95, CS-110, S-140, S-180, S-250, C-84, HB-95, HB-110, LB-95, LB-110, LB-150 and LB-180 under the provisions of the Oil Burner Rules of the Board and also to permit such furnaces to be marketed by Oneida Heater Company, Overhead Heaters Inc., Peerless Corporation, Petroleum Heat and Power Company, The Lincoln Furnace Corporation, Quiet Automatic Burner Corporation, Scaife Company, Sales Eastern Corporation, A. O. Smith Corporation, John Wood Company, Waltham Heating Company, Weatherall Engineers, Inc., American-Standard, Bard Manufacturing Company, Carrier Corporation, Columbia Boiler Company, Floral City Heater Company, General Machine Corporation, Hess Manufacturing Company, Iron Fireman Manufacturing Company, Ingersoll Conditioned Air Division, Metromatic Oil Burner Company, Metzger Machine Company, National-U. S. Radiator Corporation and York-Shipley Corp.

Purpose

Oil fired warm air heating furnaces.

Description

The Ducane heating furnaces are designed for use in residential and commercial occupancies either as floor mounted or as suspended units.

The component parts of the furnace are a stainless steel combustion chamber with a 12 gauge hot rolled steel heat exchanger installed in a 20 gauge steel cabinet along with air filters and blower fan with electric drive motor. The 20 gauge cabinet is insulated with asbestos and is finished with baked enamel. Provisions are made for flange connecting an approved type oil burner into the combustion chamber.

The safety controls to be used are a stack switch for shut down in case of flame failure and a fan and limit control to guard against excessive air temperature.

The letters HB in the model designation indicate a floor mounted "Hi-Boy" unit and the letters LB the "Lo-Boy" unit. The letter C indicates a floor mounted counter flow unit, the letter S a suspended unit. The letters CS indicate unit that may be installed either as a floor type counter flow unit or as a horizontal suspended unit and the letters S a unit that may be installed as a "Hi-Boy" unit or as horizontal suspended unit.

The heat output and firing rates for No. 2 fuel oil are as follows:

Model	Btu output at bonnet	Nozzle capacity gallons per hour
HS- 84	84,000	.75
C- 84	84,000	.75
CS- 95	95,000	.85
CS-110	110,000	1.00
HB- 95	95,000	.85
HB-110	110,000	1.00
LB- 95	95,000	.85
LB-110	110,000	1.00
LB-150	150,000	1.35
LB-180	180,000	1.65
S-140	140,000	1.25
S-180	180,000	1.65
S-250	250,000	2.25

Inspection and Test

Typical furnaces were inspected at the premises of the applicant by Assistant Engineer G. F. Sklenarik, Committee Test.

The Ducane furnaces have been tested and approved by the Underwriters' Laboratories for use with listed burners as stated on their label.

Recommendation

On the basis of the inspection and the data submitted by the applicant, the Committee on Test recommends the approval of the Ducane Oil Fired Forced Warm Air Furnace, Models HS-84, CS-95, CS-110, S-140, S-180, S-250, C-84, HB-95, HB-110, LB-95, LB-110, LB-150 and LB-180 under the provisions of the Oil Burner Rules of the Board and Article 12 Administrative Building Code when installed with oil burners of a type approved by the Board and in accordance with this report and provided that the Model S furnaces will not be installed in garages or other places where there may be explosive atmospheres; it is further recommended that the Ducane Oil Fired Forced Warm Air Furnaces be permitted to be marketed under the additional trade names of Oneida Heater Company, Overhead Heaters, Inc., The Peerless Corporation, Petroleum Heat and Power Company, The Lincoln Furnace Company, Quiet Automatic Burner Corporation, Scaife Company, Sales Eastern Corporation, A. O. WHEREAS, Order No. 7192-6 issued by the Fire Commissioner, November 5, 1956 reads in part as follows:

"5. Install an approved two source automatic sprinkler system. C19-11.0 and C19-161.0, Administrative Code.

6. Provide that existing dry-pipe standpipe system be water supplied with at least one approved source of supply. C19-161.9, Adm. Code.

7. Discontinue the storage of volatile inflammable oil (Toluol, Xylol, Acetone) in drums or provide an approved buried storage system for same. C19-11.0, Administrative Code."

WHEREAS, the decision of the Fire Commissioner, dated December 17, 1956 relating to Order No. 7192-6 reads as follows:

"In reply to your letter of November 29th, 1956, regarding Order #7192-6 please be advised that same must be complied with as written. This department is without authority to waive or modify it. You may avail yourself of the right to apply for a variance to the Board of Standard & Appeals."

WHEREAS, the applicant states that the premises consist of a lot 134 feet front by 130 feet in depth, located in a unrestricted use A area, class 1½ height district, upon which there exists a 4 story, 59 feet high, class 1 constructed building, 114 feet front by 112 feet in depth, erected 1919 and used and occupied since 1951 without a certificate of occupancy as follows: Basement—oil burner, storage tank, no persons; 1st floor—shipping, receiving and packaging of liquids and storage of finished goods for shipment, products stored on the 1st floor for shipment include fire extinguishing fluid, ethylene glycol, anti-freeze, cleaning compounds and duplicating fluid, etc.; 2nd floor—storage and packaging, 2 persons; 3rd floor—storage and officers, 8 persons; 4th floor—laboratory, 4 persons; that no change in use or occupancy is now proposed; that the building is equipped with a dry standpipe system having two risers, one located on each stairway; that there are four interior 41 inch wide reinforced concrete stairs enclosed in steel partitions, equipped with fireproof self-closing doors, stairhalls lead to street and roof bulkhead; and

WHEREAS, the applicant contends as to item 5 of the Fire Commissioner order; that in lieu of a sprinkler system it is proposed to install 3 large CO₂ fire extinguishing cylinders in the package area to afford additional safety; that at the present time there are 3 other CO₂ extinguishers on this floor; that the mixing tanks are provided with a closed CO₂ fire extinguishing system; that the cost of installing a sprinkler system is so great that it would force the lessee to move outside of New York City; that none of the lessee's competitors in the City of New York have buildings of fireproof construction, and none of them have sprinkler systems; that the Administrative Code does not require a sprinkler system for a technical establishment; and

WHEREAS, the applicant contends as to Objection 6 issued by the Fire Commissioner; that the standpipe system has been in this building for 30 years and has been found adequate; that the previous building occupants included a flour milling plant with a fire risk much greater than the present risk; that standpipe system is maintained in first-class operating condition; that the building is located on the waterfront facing directly on Kill van Kull; that the south side of the building is 400 feet away from the nearest building, and the east side is 50 feet from the nearest building; that this latter building and the building on the west both have sprinklers; that the dry standpipe system in the building in question runs through each of 2 stairwells; that there are a total of four stairwells which are located on each corner of

the building; that each stairwell has an exit on each floor and an exit on the street floor; that the exists are equipped with fireproof self-closing doors; that the building contains 2 inch lines for hot water and 2 inch lines for cold water which runs through the center of the building from the 1st floor to the laboratory on the 4th floor; that on 1st and 2nd floors there are 6 outlets located in various places to which flexible hoses are attached; that the 3rd floor has 2 outlets; that this water system was designed and installed for cleaning and processing work and is immediately usable for fire prevention if necessary; and

WHEREAS, the applicant contends as to item 7 of the Fire Commissioner order that it is impossible to install a buried storage tank system as the building is located on the waterfront; that it is proposed to install the volatile inflammable oils on the open dock which is constructed of reinforced concrete and has holes at regular intervals for washing purposes and to allow drainage into the water; that the drums will be protected by a corrugated steel shed; that the inflammable oils will be separated by sections of fire extinguishing fluids; that these chemicals are non-inflammable; that the storage of volatile inflammable oils has always been in small quantities; that these items are necessary and vital military work; that the quantities used and stored are relatively insignificant in the applicant's operation; that the following are the volatile inflammable oils stored at the plant:

ITEM	FLASH POINT	QUANTITIES STORED
Methanol	65°F	10 drums
Acetone	15°F	8 drums
Toluol	54°F	10 drums
Nylol	90°F	10 drums
Isopropyl Alcohol	70°F	12 drums
Denatured Alcohol	75°F	10 drums
Methyl Isobutyl Ketone	75°F	5 drums
Methyl Ethyl Ketone	35°F	4 drums

that this materials are stored on dock in 55 gallon drums and are resold in the original packing; that the drums conform to ICC Specification 17E, and are handled direct by electrically driven fork lift trucks for movement and out of the building; that these drums are not used in manufacturing or repackaging; and

WHEREAS, the applicant further contends that it has been operating under permit issued by the Fire Commissioner for a technical establishment for many years; that the area is easily accessible for Fire Department apparatus; that the local hook and ladder company is only .6 miles from the premises, which is a distance of 10 short city blocks; that there is a fire boat stationed at Pier 6, which is only a few minutes from the premises; that the plant is constantly under the direct supervision of qualified and trained chemists; and

WHEREAS, the applicant states that items 1, 3 and 4 of the Fire Commissioner's order has been complied with and item 2 is in the process of construction; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the Fire Commissioner, dated November 5, 1956, acting on Order #7192-6 be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Objection 5, to permit the requirement for a sprinkler system to be waived, *on condition* that in addition to the proposal to provide three CO₂ fire estinguishers, that fire extinguishing appliances shall be provided as the Fire Commissioner may direct; as to Objection 6, that the standpipe system shall be maintained to the satisfaction of the Fire Commissioner; as to Objection 7, that no flammable liquids shall be delivered in bulk in tank cars or trucks that such liquids shall be delivered in cans or drums and stored on the pier; that no inflammable liquids shall be manufactured other than duplicating fluid, as referred to in the Fire Department's endorsement dated April 27, 195-

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated December 30, 1957 on Alt. Applic. 1713/57 reads:

"1. Change of use from stores and showrooms to stores, offices, showrooms and incidental manufacturing on all floors requires entire building to be a fireproof building as per Sec. 270 of L.L."

WHEREAS, the applicant states that the building is 5 and 6 stories, 50 feet and 60 feet in height, 75 feet front by 206 feet 6 inches in depth, of part fireproof and class 3 construction, erected 1884 and 1910, located in a retail and business use C area, class 2 and class 1½ height districts, used and occupied since November 1957: Cellar—storage, 50 persons; 1st floor—stores, 500 persons; 2nd to 6th floors—stores and showrooms, 150 persons on each of the floors to the 5th floors, and 90 persons on the 6th floor; and proposed to be used and occupied as follows: Cellar—storage, 50 persons; 1st floor—stores, 500 persons; 2nd floor—stores, showrooms and incidental manufacturing, 150 persons; 3rd floor—same, 4th floor—same; 5th floor—stores, showrooms and incidental manufacturing, 110 persons; 6th floor—same, 90 persons; that the building is equipped with a two-source sprinkler system throughout, an approved standpipe system; that there are two 4 feet 8 inches wide interior steel stairs enclosed in 6 inch solid concrete block equipped with fireproof self-closing doors and extending from roof bulkhead direct to street;

WHEREAS, Certificate of Occupancy #48321 issued November 26, 1957 against Alt. Applic. 1405/56 permits the present use and occupancy; and

WHEREAS, the applicant states that the building consists of a 6 story fireproof portion erected in 1910 and a 5 story non-fireproof portion erected 1884 and previously used as part of Hearn's Department Store; that the building was altered under Alt. Applic. 1405/56 and certificate of occupancy issued November 26, 1957, and now in compliance with the Administrative Code; and

WHEREAS, the applicant contends as to the objection issued by the Borough Superintendent that due to the fact that only incidental factory work will be done, and as the building is constructed partial of a fireproof construction with fireproof enclosed stairs, sprinkler, standpipe and elevators, the condition should not be considered objectionable for incidental manufacturing use; that the building was erected prior to 1913, and if occupied for factory use prior to July 1st, 1948 the proposed condition would be legal; that the granting of a variance herein sought would be in harmony with the general purpose and intent of the Labor Law; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. Applic. 1713/57, Objection No. 1 and that the appeal be and it hereby is granted, to permit the change of occupancy, as proposed and shown on plans filed with this appeal, marked "Received December 30, 1957", 8 sheets, on condition that such proposed manufacturing, including busheling, shall be of a minor type incidental to the retail business; that the building shall not be increased in height or area and in all other respects the building and occupancy shall comply with the requirements therefor; and that the sprinkler and standpipe shall be maintained in accordance with requirements therefor.

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated January 27, 1958, on Alt. Applic. 1670-57 reads:

"1. Proposed escalator from 1st to 4th floor is required to be enclosed in 3 hour partitions with F.P.S.C. doors. 10.5.1.B.C."

and

WHEREAS, the applicant states that the building is 11 stories, 150 feet 9 inches in height, 121 feet and 162 feet front by 197 feet 6 inches in depth, of fireproof construction, erected 1906, located in a restricted retail B use area, class 2 height district, and used and occupied since 1907 as a department store; that from 1st to 5th floor throughout and the 6th floor department store and other tenants, from the 7th to 11th floors for other tenants, no change in use or occupancy is now proposed; that the building is equipped with an approved one source sprinkler system and an approved interior fire alarm system, and regular monthly fire drills are maintained; that there is an approved standpipe system in the building; that there are four interior 44 inch wide steel

and marble stairs enclosed in terra cotta and brick equipped with fireproof self-closing doors, extending from roof bulkhead direct to street and one fire tower; that in addition there is a fire escape on the 35th Street front extending to roof by stair and to street by stair and to yard by stair with egress to street through 34th Street lobby, window and door openings on the course of the fire escape are fireproof self-closing; and

WHEREAS, the applicant states that the proposed escalators will be constructed of fireproof material throughout; that the sides of the well openings and soffits will be of plaster on metal lath and metal furring; that there will be a fireproof balustrade finished with plaster on both sides; that the well opening provided with a rolling shutter in a horizontal position manually operated; that the well opening below will be protected by a plaster baffle not less than 24 inches below the general ceiling level protected by means of an automatic sprinkler curtain with $\frac{1}{2}$ inch heads, approximately 4 feet on centers around the perimeter of the well opening; that an automatic electric device will be installed to stop the operation of the escalator upon the closing of the shutter; that the rolling shutters at top of each opening will be provided with a hand chain permanently secured by a heavy ring to the bottom rail of each shutter and supported on brackets so as to be at all times readily available; that this chain will weigh not less than $\frac{1}{4}$ pound per running foot; that all shutters will be painted in red letters directly above the bottom rail with words "Close Shutter to Floor" in letters not less than 3 inches in height with an arrow pointing downwardly; that a gong will be installed at each escalator run operated by means of push buttons centrally located, two to a floor so that the pushing of any such button will ring gongs on floors involved as a signal to close the escalator curtains; that Superintendents and Section Managers will be instructed to include in addition to general instruction as to use of fire extinguishing equipment and exits, instruction and monthly drill as to closing escalator shaft curtains so that the responsibility will at all times be fixed on the attendants on the floors to the end that curtains are immediately closed upon the sounding of the gong signal and the closing of curtains will automatically stop all escalators; and

WHEREAS, the applicant contends that the escalators are not part of the required exit system and are located remotely therefrom; that the protection proposed is commonly used in connection with escalators in many similar installations throughout the city; that in conjunction with the complete automatic sprinkler system throughout the buildings they will afford fully equivalent safety to occupants of premises against spread of fire and that the use of partitions around escalators would be a very severe hardship in the operation of a retail store and greatly interfere with circulation of customers and efficient display of merchandise.

Resolved, that the decision of the Borough Superintendent, dated January 27, 1958, acting on Alt. Applic. 1670-57, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit the installation of escalators from the first floor to the 4th, as passed on by the Borough Superintendent, under Alt. which is not filed within thirty days from the date of the
action of the Administrative Official.

Any communication purporting to be an appeal or appli-
cation shall be regarded as a mere notice of intention to seek
relief until it is filed on the form required by the rules of
this board.

Upon receipt of any such communication the writer will
be supplied with the official forms for presenting his appeal
or application.

At the time of filing an appeal or application, the appel-
lant or applicant shall forward a signed notice of appeal
addressed to the administrative official either borough super-
intendent of buildings or fire commissioner and file with
this board a duplicate of said notice.

Appellants and applicants are advised that their plans must
indicate the points of the compass so as to establish the true
location and position of the property, the subject of the
appeal or application.

Appeals and applications will be simplified and disposition
of same expedited by conforming to these directions.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. VI on September 10, 1957 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on February 11, 1958 after due notice by publication in the Bulletin; laid over to March 11, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in business and residence use, C and D area, class 1 height districts; 74th Street is in business and residence use, D area, class 1 height districts; 73rd Place is in a business use, C area, class 1 height district; Cooper Avenue is in a business use, C and D area, class 1 height district; 78th Avenue is in residence and business use, C and D area, class 1 height districts; that on July 25, 1916 the plot in question was zoned as follows: Cooper Avenue 100 feet business, with the balance in residence use; that with the widening of Cooper Avenue for the Long Island Railroad grade separation, it appears that the plot is now located partly in a business district and partly in a residence zone; that the residence zone consists of a small gore occupied by the building which comprises about thirty square feet at the extreme southeast corner of the subject plot, where the accessory building is located; that on March 31, 1947 the Board of Estimate extended the business use portion of the plot to a depth of 100 feet parallel with the new lines of Cooper Avenue; that Cooper Avenue was widened from a width of 75 feet to its present variable width of 109 feet in connection with the Cooper Avenue underpass for the Long Island Railroad grade crossing elimination; that the underpass starts just east of 74th Street as shown on radius diagram; that also on July 25, 1916 the instant plot was located in class 1 height and a D area; that there has been no change in the height class; that however, on May 27, 1953 the area class was rezoned from D to C and D; and

WHEREAS, the decision of the Borough Superintendent, dated July 16, 1957 acting on Alt. Applic. 1341-57, reads:

"1. Proposed change in use from a gasoline service station, lubritorium and auto laundry to a gasoline service station, lubritorium, auto laundry (non-automatic), minor auto repairs with hand tools only maintained only within the accessory building and parking of cars awaiting to be serviced on a lot in a business use district and extending into a residence use district is contrary to Art 2, Sec. 3 and Art. 2, Sec. 4a, items 29 and 46 of the Z.R., and also contrary to the resolution of the Board under Cal. No. 390-27-BZ.

2. Proposed ground sign on the business portion of the lot is contrary to Art. 2, Sec. 4a, item 49 of the Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 84.88 feet and 78.91 feet frontage by 109.96 feet and 135.44 feet in depth, occupied by a gasoline service station; that the present term expired on July 15, 1957 in accordance with amended resolution adopted July 15, 1947 and Certificate of Occupancy No. Q-65559 issued on August 3, 1950 by the Department of Buildings on approved N.B. Applic. 185-47; that it is proposed to include the additional uses of minor auto repairs with hand tools only, maintained solely within the accessory building and the parking of motor vehicles awaiting service; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on December 3, 1935 as thereafter amended by resolutions adopted through April 21, 1953 by adding thereto:

"that in the event the owner desires to make certain changes as now proposed and as indicated on revised

plans marked "Received July 23, 1957", 3 sheets, as further revised by plan marked "Received March 11, 1958", one sheet, such changes as thereon proposed may be permitted including a change in the fence as proposed, namely, the construction of a brick wall to a total height of six feet matching the existing brick wall; that there may be two additional approved 550 gallon gasoline storage tanks located where shown, making a total of twelve such tanks and one additional pump where shown on the existing island; that all pumps where previously required to be of the parkway type may be changed provided they are of a low approved type and erected not nearer than the distance shown on such revised plan marked "Received March 11, 1958"; that the three curb cuts as shown and of the width as shown on such revised plan marked "Received March 11, 1958" may be permitted in lieu of curb cuts as previously required; that under Section 7i there may be repairing with hand tools only for adjustments maintained solely within the accessory building; that under Section 7e for a similar term there may be parking and storage of cars provided such parking and storage is maintained on the plot so as not to interfere with the servicing of the station; and that the term of the variance is extended for a term of fifteen years from the date of this amended resolution.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on June 11, 1957 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on January 7, 1958 after due notice by publication in the Bulletin; laid over from January 7, 1958 to January 28, 1958, for inspection and decision; hearing closed; then laid over for inspection and decision; date to be set; then set for March 11, 1958; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Laconia Avenue, East 221st Street and Eastchester Road are in retail and residence use, C area, class 1 height districts; East 222nd Street is in retail use, C area, class 1 height district; that the property originally was in a business zone for front 100 feet and residence zone for small portion in rear on 221st Street; that on October 18, 1949 the 100 foot deep portion on East 222nd Street was changed from business to retail use zone; that the C area and class 1 height district remain unchanged; and

WHEREAS, the decision of the Borough Superintendent, dated March 29, 1957 acting on Alt. Applic. 159-57, reads:

"1. In a retail use and residence use district the proposed 1 story extension to an existing M.V. repair shop is contrary to Art. II Sect. 4-A and Sect. 3 of the Zoning Resolution and Bd. of S. & A. Cal. 870-49-BZ, Vol. 2 and is therefore denied."

and

WHEREAS, the applicant states that the premises consist of a plot, 120 feet frontage by 33 feet and 152 feet in depth, on which is located a two story brick dwelling with a two car garage in rear basement and a one story metal and brick building approximately 30 feet wide, 40 feet

deep, used as a motor vehicle repair shop, and a small masonry office for the gasoline station on the corner; and

WHEREAS, the applicant states that the owner of the western portion, lot No. 6, and the lessee of lot No. 9, finding that he needs more space for auto repairing and motor vehicle inspection, as required by State law, now proposed to extend the 30 foot by 40 foot metal and brick building on lot No. 6—motor vehicle repair shop—by building a masonry rear extension solely on the retail zone portion of the lot, approximately 23 feet wide and 60 feet deep; that to build this extension he would remove a four car metal garage now situated in the rear partly on lot No. 6 and partly on lot No. 9; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 27, 1954, as thereafter amended by resolutions adopted through April 26, 1955, by adding thereto:

"that in the event the owner desires to extend the existing building as shown on plans filed with this application marked "Received January 14, 1958", 3 sheets, such one story extension of the building may be constructed for use as an extension of the motor vehicle repair shop under section 7i *on condition* that there shall be no vehicular openings in the rear where shown or side walls; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and that there shall be no openings in the side lot line wall to adjoining premises; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

WHEREAS, a public hearing was held on this application March 11, 1958, after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Broad Street is in a retail and residence use E-1 area and class ½ height district, Brookville Boulevard is in a retail residence use E-1 area and class ½ height district; that as of July 25, 1916 the property was in an undetermined use district and on January 27, 1953 was placed in a residence use district; that the present retail designation for the portion of the site within 150 feet of Brookville Boulevard became effective on April 25, 1957; and

WHEREAS, the decision of the Borough Superintendent, dated November 12, 1957, acting on N.B. Applic. 3287-57 reads:

"1. Sale of gasoline in a retail zone extending into Residence zone is contrary to Art. II, Secs. 3 & 4a (46) of Zoning Res.

"2. Overhauling & minor repairs of boats in a retail zone extending into residence zone is contrary to Art. II Sect. 3 & 4a(29) of Zoning Res.

"3. Storage of boats in a retail zone extending into residence zone is contrary to Art. II, Secs. 3 & 4 of Zoning Res.

"4. Front yard setback in E-1 zone is contrary to Sec. 15A of Zoning Res.

"5. Only one structure permitted on plot per 1(v) of Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 109.21 feet frontage by 208.27 feet in depth, irregular, and has been used as a boat yard with the usual repair and overhauling of boats for the past 60 years; that it is proposed to use the site for the sale of gasoline for marine use only and the erection of a show room for the sale of boats with minor repairing to the boats; and

WHEREAS, the applicant contends that Brookville Boulevard was the former Rockaway Boulevard until the establishment of Idlewild Airport at which time Rockaway Boulevard was relocated some 500 feet north; that this entire area of Hook Creek consists of boat yards, small summer bungalows and restaurants, etc., as was established in the early part of the century; that as to Objections #5 and #6, as the existing frame buildings used for dwelling and sale purposes have been in existence for a long time (as is indicated by the photographs) it is requested that they be permitted to remain; that in view of the establishment for probably 60 years of this boat yard and the need for gasoline to service the boats stored in this yard and others in the vicinity and the desire of the owner to erect a building for the sale of boats (which is a conforming use), however because of his desire to do minor boat repairing in the building, particularly in the winter season, it is respectfully requested that this application be granted; and

WHEREAS, the applicant states that the present owner has held title to the property since January 4, 1955; that the assessed valuation of the land is \$5,000.00 and of the building \$2000.00, making a total of \$7000.00; and that the building was erected in 1900; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7c, to permit the sale of gasoline and the construction of a showroom building, as proposed and indicated on plans filed with this application, marked "Received December 11, 1957", 5 sheets, *on condition* as to Objections 1 and 2, that the gasoline selling equipment shall be restricted to two 550 gallon tanks and two pumps, as shown on plans filed showing proposed conditions for marine use only; that the store building, a one-story masonry building, may be permitted as a showroom for boats and for repairs; that as to objections 3, 4 and 5, such building may be permitted, located as shown on plans and shall comply with the requirements of the Building Code and existing conditions may continue; that no additional curb cut shall be installed other than those now existing; that the sidewalks and curbing abutting the premises shall be constructed or repaired to the satisfaction of the Borough President; that such fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 11, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a residence use, G-1 area, class ½ height district; 35th Avenue is in a residence use, C and G-1 area, class ½ height district; 153rd Street is in residence and business use, C area, class ½ height districts; 154th Street is in residence and business use, C and G-1 area, class ½ height districts; Northern Boulevard is in a business use, C area, class ½ height district; that the buildings were erected in 1925 at which time the premises was in a business zone; that the zoning was changed September 25, 1925 to a residential zone; and

WHEREAS, the decision of the Borough Superintendent, dated December 13, 1957 acting on Alt. Applic. No. 2590-57, reads:

"1. Proposed installation of an approved Perchloroethylene dry cleaning unit in an existing non-conforming store in a residence use district is contrary to Art. 2, Sec. 3 of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 20 feet frontage by 50.01 feet in depth, on which there exists a two story brick building with a store on the first floor and an apartment on the second floor; that the entire building is occupied by the owner who operates the tailoring and dry cleaning establishment and resides in the apartment above it; that it is proposed to install an approved perchlorethylene dry cleaning equipment in the existing store; and

WHEREAS, the applicant states that the owner formerly occupied a similar store at Woodside Avenue on the corner of 79th Street; that he was forced to vacate his premises and he purchased this building January 7, 1955; that notwithstanding in zoning he was not aware that he was purchasing property in a residential zone; that a search disclosed that there were no violations on the building and the owner was informed by his attorney that it was permissible for him to use the premises as a tailoring store, with dry cleaning equipment; that the owner operates this store himself and at the present time has no employees; that his son occasionally helps him out tending store and making deliveries; and

WHEREAS, the applicant contends that shortly after the owner moved into the premises he purchased the existing Columbia Dry Cleaning unit; that this machine does not meet his needs and he made inquiries to dry cleaning equipment manufacturers for modern equipment and he was informed by the salesman that it was necessary for him to obtain a permit for the installation of dry cleaning equipment; that this was the first time he was aware of the fact that he bought a legal store in a residential zone, but that he could not legally install dry cleaning equipment; that the premises are very small, approximately 20 feet by 45 feet; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the Zoning Resolution and that the application

be and it hereby is granted under Section 7c, to permit as an addition to the main use as a tailor shop, the use and installation of a dry-cleaning unit of a type approved by the Board for use in a business district, with a maximum of 60 pounds and complying with the Dry Cleaning Rules, and located as shown on plans filed with this application, marked "Received December 17, 1957," 3 sheets, on condition that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within six months from the date of this resolution.

The application was reopened by the Board January 7, 1958.

Purpose

The materials are weather protective units for ventilation purposes.

Description

The requested louvers are known as the Gold Bond Aluminum Recessed Flange Type constructed of .025 inches aluminum for which no trim or casing is necessary. Gold Bond Aluminum, Flush Flange Louvre constructed of .025 inches aluminum, rectangular in shape and are for use in frame, brick or veneered walls. Gold Bond Roof Ventilator, constructed of .25 inches aluminum, 8 inches diameter capped with flat pan having turned down edges.

Gold Bond Midget Louvers, constructed of .020 inches aluminum in sizes from 1 inch to 6 inches diameter.

Recommendation

The Committee on Test recommends that the resolution adopted October 8, 1957 under Calendar Number 690-56-SM be amended so as to include the additional aluminum louvers

Purpose

The material is to be used as a 1½ Hour Opening Protective Assembly.

Description

The requested door is basically the same as the door approved by the Board November 13, 1957 under Calendar Number 394-56-SM, the face metal, the insulation and the stiffness being the same, the only difference being in the attachment of the face plate; the approved door having a slot bend, without welds and the requested door having the face sheets fused by welding at mid point of hinge and lock stile edge thickness; in all other respects the construction is similar.

Recommendation

The Committee on Test recommends that the resolution adopted November 13, 1957 under Calendar Number 394-56-SM be amended so as to include the alternate method of construction as herein described and in conformity with drawings 2A of 5 marked Received November 19, 1957 on condition that the requirements of the resolution adopted November 13, 1957 under Calendar Number 394-56-SM are complied with.

The application was reopened by a vote of the Board January 7, 1958.

Purpose

The ceiling is to be used as a light diffuser and also to provide acoustical treatment.

Description

The requested system is basically the same as the approved system except that an extruded aluminum support channel is inserted as an intermediate transverse support so as to form a grid system to support the panels which are approximately nine square feet. The main carrying numbers, suspension system and plastic are the same as those used in the system approved by the Board September 25, 1956 under Calendar Number 304-56-SM.

Recommendation

The Committee on Test recommends that the resolution adopted September 25, 1956 under Calendar Number 304-56-SM be amended so as to include the diffusing system known as the Sylvania Sylva Lume Panel Light Diffuser System as herein described for use in New York City under the provision of C26-461.1, C26-1351 and C26-1354.0 Administrative Building Code on condition that the requirements of the resolution adopted September 25, 1956 under Calendar Number 304-56-SM are complied with.

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 1000-57-SA.

Subject: Tokheim Electric Power Gasoline Dispensing Pump, Model 48.

Tokheim Corporation, Fort Wayne, Indiana, filed December 23, 1957 an application with the Board of Standards and Appeals for approval of the Tokheim Electric Power Gasoline Dispensing Pump, Model 48, for use in New York City under the provisions of Section C19-69.c Administrative Code.

Purpose

An electrically driven pump for dispensing gasoline to motor vehicles.

Description

The Model 48 dispenser consists of a self-priming rotary gear pump with a by-pass valve, a line check valve with integral expansion relief valve, a $\frac{1}{4}$ H.P. motor for 110 volt a.c. 60 cycle, split phase current directly connected to the pump and a horizontal straight-reading register with meter all assembled within a steel frame housing covered with 18 gauge sheet steel panels finished in baked enamel.

The pump delivers approximately 10 gallons per minute on an 8 foot vertical lift. A 10 foot length of hose equipped with a manually operated $\frac{3}{4}$ inch aluminum hose nozzle is provided.

Inspection and Test

All details of construction were examined by Asst. Engr. G. F. Sklenarik, Committee on Test.

The Model 48 dispensing pump was tested and approved by the Underwriters' Laboratories under File MH1895.

Recommendation

On the basis of the examination and the data filed by the applicant, the Committee on Test recommends the approval of the Tokheim Electric Power Gasoline Dispensing Pump, Model 48, for use in New York City in accordance with his report and the requirements of Section C19-69.0 Administrative Code and of the Electrical Code of the City of New York and provided that each appliance shall bear a label, permanently affixed, reading "Approval by the Board of Standards and Appeals for use in New York City under Calendar Number 1000-57-SA".

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 1101-48-SA—Vol. II.

Subject: Amendment to resolution as to additional use and increased capacity.

Pure Carbonic Corp., Division of Air Reduction Co., filed October 3, 1952 an application with the Board of Standards and Appeals for consideration as to reopening as Volume II for another method of filling the Carboflex Low Pressure CO₂ Converter-Receiver and increased storage capacity.

Purpose

The appliance is to be used in the soft drink industry and for the filling of cylinders with carbon dioxide which is received in solid or liquid form.

Description

The main part of the Carboflex Low Pressure CO₂ Converter-Receiver consists of a welded steel tank manufactured in accordance with the American Society of Mechanical Engineers Code for unfired pressure vessels and bears the stamp of a certified inspector.

In order not to exceed the design working pressure, the CO₂ must be held at sub-zero temperatures. This is accomplished by insulating the pressure vessel and providing mechanical refrigeration with automatic controls.

In the event of refrigeration failure, an excessive increase in pressure is prevented by the automatic operation of a safety valve set to discharge to the outer air at a pressure not exceeding the design working pressure or 350 p.s.i. whichever is less. The appliance is further protected by a frangible disc designed to rupture at a pressure not over 500 p.s.i. and discharge to the outer air. The safety valve and frangible disc are designed and sized to meet A.S.M.E. code requirements. Tanks are equipped with pressure gauges and liquid level indicators and a visible and audible alarm system to indicate abnormal operating conditions.

As the withdrawal of carbon dioxide will reduce the pressure and temperature of the liquid carbon dioxide in the converter-receiver, it is necessary to supply heat to the system in order to maintain the pressure. This is done automatically by applying steam to a heating dome which is an integral part of the receiver or by using electric heaters or by means of an external heat exchanger using either steam or electric heaters. The heat supplied is automatically controlled to maintain a selected pressure between 150 and 280 p.s.i.

The receiver is loaded either with blocks of solid carbon dioxide in the form of 10 inch cubes weighing approximately 50 pounds each or with liquefied carbon dioxide in amounts up to 24,000 pounds maximum depending on the size of the receiver. When the solid is used, delivery is generally from a truck or insulated box car; and when liquid is used, delivery will be by I.C.C. specification tank truck or tank car.

When solid carbon dioxide is used, it is transferred from the truck or box car by hand to a manhole in the receiver. When the receiver is filled, the manhole cover is securely sealed with a gasket and screw clamp. If heat is by steam, a steam valve is then opened and steam at approximately 10 p.s.i. is admitted to the steam dome at the bottom of the receiver or to the external heat exchanger and the condensate from the steam is drained to the sewer. When the receiver reaches a pressure of not over 280 p.s.i., a pressure switch operates to cut off the supply of heat and the liquefying and vaporizing part of the cycle is completed.

As an alternative to the steam heating described above, electrical resistance heaters may be used and automatically controlled through a pressure switch as in steam heating.

When being filled with liquid carbon dioxide, the liquid

MINUTES

is pumped into the receiver through a high pressure hose connected to the liquid fill line at a pressure not over 300 p.s.i. Vapor in the receiver displaced by the liquid is returned to the tank car or truck through a second hose line.

As carbon dioxide is withdrawn, the pressure in the receiver gradually drops and when it reaches approximately 150 p.s.i., a pressure actuated switch closes and heat is applied until the pressure is again built up to approximately 280 p.s.i. This procedure is repeated until the pressure drops off in spite of applying heat. The unit must then be recharged.

When no carbon dioxide—liquid or vapor—is withdrawn for some time, the pressure will gradually increase as heat is transferred from the surrounding air through the six (6) inch cork insulation on the receiver. When the vapor pressure reaches approximately 300 p.s.i., a second pressure switch operates to cut in a small Freon air cooled condensing unit with the cooling coils located in the upper part of the receiver. After several hours of operation, the tank pressure will be reduced and when it drops to 280 p.s.i., the pressure switch opens and the refrigeration stops. The refrigeration cycle continues on and off automatically to limit the pressure in the system.

Beside the pressure relief valve and frangible disc described above, provision is also made to release the vapor contents of the tank to atmosphere by means of a manually operated dump valve.

Recommendation

The Committee on Test recommends that the resolution adopted February 7, 1950 under Calendar Number 1101-48-SA—Vol. I be amended so as to permit the modifications in design and use of the Carboflex Low Pressure CO₂ Converter-Receiver in accordance with this report and on condition that the requirements of the resolution adopted February 7, 1950 under Calendar Number 1101-48-SA—Vol. I be complied with.

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 892-57-SM.

Subject: OPW FIL-O-MATIC NOZZLE, Model 1811-H, for fueling motor vehicles, approval of.

N. H. Heinzerling for OPW Corporation, owner-manufacturer, filed September 21, 1957 an application with the Board of Standards and Appeals for approval of the OPW Fil-O-Matic Nozzle, Model 1811-H for use in New York City under the provisions of Section C19-70.0 Administrative Code.

Purpose

An automatic nozzle to control delivery of gasoline from dispensing pump to tank of motor vehicle.

Description

The body of the OPW 1811-H is sand cast of Opalumin, an aluminum alloy as strong as bronze but with only one-third the weight of bronze.

The 1811-H nozzle is similar in design to the OPW 1811 nozzle approved by the Board July 17, 1951 under Calendar Number 338-51-SM except for these modifications.

A latch open device consisting of a cadmium plated steel clip with notches and a double torsion spring has been added. The vacuum tube is now formed in two pieces joined with a nylon coupling and the spout is provided with a break-away groove machined in all but a 60° arc of its circumference. The spring loading of the diaphragm has been changed to increase the sensitivity of the automatic mechanism and material changes have been made to obtain more positive operation without need for periodic lubrication. A plastic scuff guard has been added to eliminate metal-to-metal contact. A loose fitting anchor spring has been added to hold the nozzle in the automobile tank fill opening.

The valve is initially opened by manually squeezing the lever which may then be latched in one of the three notches formed in the hold-open clip.

The fulcrum end of the lever is pivoted in a yoke attached to the bottom of the spring loaded latch plunger. The upper end of the plunger is provided with horizontal passageways for three stainless steel balls and is internally machined for movement of the tapered latch pin. In the normal operating or, "cocked" position, the enlarged section of the latch pin spreads the balls to engage the tapered shoulder of the stationary latch ring, which also guides the upper end of the plunger.

The diaphragm is of fabric reinforced synthetic rubber. It divides a cavity formed in the valve body below the underside of the vacuum chamber cap. The diaphragm is clamped between this cap and the valve body and the tapered latch pin is attached to the underside of the diaphragm.

The outlet port of the valve, on the openside of the pocket assembly, is shaped to form a "Venturi" from which a drilled passageway leads to the cavity above the diaphragm. Another passageway on the opposite side of this cavity connects with a vacuum tube assembly that terminates near the outer end of the valve spout and serves to vent the cavity.

When gasoline is discharged through the valve, the flow tends to evacuate the cavity above the diaphragm. Because this cavity is vented to atmosphere through the vacuum tube assembly, no partial vacuum is produced and the diaphragm is not moved. When the tank is filled, gasoline covers the exit of the vacuum tube. Therefore, venting is restricted, thus, creating a partial vacuum in the upper diaphragm cavity. Consequently, the diaphragm and the tapered latch pin are drawn upward. The stainless steel ball move inward due to the action of the heavy main spring on the stem and follow the reduced section of the latch pin until they no longer bear on the latch ring. The latch plunger is then permitted to move downward. This movement causes the fulcrum end of the valve lever to move downward, causing the valve to close even though the free end of the lever is latched or held open manually.

When the valve is thus closed and the lever is released the latch is moved upward into normal position by the latch spring. The diaphragm and latch pin are then moved downward by the diaphragm spring. As a result of these movements, the balls are forced outward and again engage the tapered shoulder of the latch ring. This puts the valve in condition to be opened by raising the free end of the operating lever manually.

When the valve is opened, it can be closed at any time by releasing the free end of the lever or disengaging the lever from the notches in the lever hold-open clip. The free end of the lever is independent of the action of the automatic closing mechanism.

MINUTES

The loose fitting anchor spring assists in holding the nozzle in the automobile tank fill opening. The nylon vacuum tube coupling and break-away groove in the spout are provided to assist in releasing the valve from the automobile tank fill opening in case the nozzle is not pulled out, should the automobile be driven away while the valve is still in the tank opening.

Inspection and Test

All details of construction were examined by Asst. Engr. G. F. Sklenarik, Committee on Test.

The 1811-H nozzle has been tested and approved by the Underwriters' Laboratories under application number 6K1825B, dated September 23, 1957.

Recommendation

On the basis of the examination and the data filed by the applicant, the Committee on Test recommends the approval of the OPW Fil-O-Matic Nozzle, Model 1811-H, for use in New York City with approved dispensing pumps having a flow rate of not less than five (5) gallons per minute and a delivery pressure of not less than ten (10) pounds per square inch and provided that each nozzle shall be stamped or labelled "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 892-57-SM".

REPORT OF COMMITTEE ON TEST

Calendar Number 983-57-SA.

Subject: Tokheim High Capacity Submerged Pump Assembly, for pumping motor fuels by remote control, Models 60-E and 60-ES.

Tokheim Corporation, Fort Wayne, Indiana, filed December 23, 1957 an application with the Board of Standards and Appeals for approval of the Tokheim High Capacity Submerged Pump Assembly Models 60-E and 60-ES under the provisions of C26-191.0 and C19.69.c Administrative Code.

Purpose

Submerged type pumps to pump motor fuels—gasoline—remote control.

Description

The 60-E and 60-ES pumps are used in bulk storage terminals or oil selling stations.

The 60-E pump assembly is equipped with a special design, continuous duty, electric motor rated at 3½ H.P. built integrally with the pump and has a capacity of 200 gallons per minute at 10 pounds per square inch pressure.

The 60-ES Model is the same as the 60-E but is furnished with a siphon valve arrangement for manifolding together two or more underground tanks.

The pumping unit is Tokheim designed, centrifugal type, two stage and capable of developing 40 pounds per square inch pressure. Electric motors are furnished for use with single phase, 60 cycle, 230 volt-208 volt or three phase, 60 cycle, 230 volt-208 volt and are provided with thermal overload protection. Motors develop 3450 R.P.M. and are product lubricated. Carbon bearings are used.

Submerged Pump Assemblies with Three-Phase, 208-230 volt, 60 Cycle A. C. Motors are furnished with Model No. 61 Three Phase Electrical Control Panel with built-in current type overload protectors including heater coils installed and ready for operation.

Submerged Pump Assemblies with Single Phase Motors are furnished with Model No. 62 Single Phase Electrical Control Panel, designed for use with either 208 Volt or 230 Volt, Single Phase. Control Panel contains line relay, start relay, start capacitor, run capacitor, and manual reset current overload protector.

Pumping units are furnished with a Screen and Baffle Plate. Built-in strainer prevents entrance of foreign material, and is self-flushing design. A galvanized pipe, 3" size, connects motor and pumping unit to manifold. Extra heavy wall aluminum electrical conduit—one continuous length—contains motor leads from pumping unit to electrical plug-type connector in extractable pump manifold, sealed to prevent entrance of product or water.

Pumping Units will fit in a minimum tank opening of six inches (6") size. For six inches tank opening, a 6" diameter x 8" long Special tank nipple is furnished, which is connected to a 8" diameter x 6" diameter x 5¼" long Reducer, and 8" diameter nipple of proper length to fit the installation, with companion flange, on which Submerged Pump Assembly is mounted. Combination cork and rubber gasket furnished with companion flange.

The Discharge Manifold is fully extractable through an 18 inch manhole over the tank. Pumping Unit easily removed without disturbing piping or splicing wires, and is of cast-iron design, coated inside and out for rust prevention. Contains built-in Air Eliminator, pressure relief valve, check valve, electrical plug-type connector, 3 inches flanged discharge outlet and 1 inch outlet for electrical conduit connection.

When the Submerged Pump Motor is turned "on", the liquid pumped by the impellers flows through and around the integral, explosion-proof motor, cooling and lubricating same. All air or vapor present in the 3 inches discharge Pipe, between the pumping unit and the pump manifold, is eliminated through a ¾" steel (galvanized) tube running from the pump manifold downward into the liquid in the storage tank, and the outlet of this tube is at the top of the pump motor.

The ¾ inch air eliminator tube is strapped to the 3 inches discharge pipe of the submerged pump. This tube bypasses a small amount of liquid whenever the pump motor is operating, which serves to continually remove and replace liquid within the area around the electric motor and within the 3" discharge pipe and pump manifold, even when product is not being dispensed, and has a cooling effect on the motor. The Pressure Relief Valve in the Pump Manifold relieves excess pressure in the supply pipe and dispensing system equipment. A built-in Check Valve maintains pressure and keeps the system full of product in the supply line and dispensing system equipment on the discharge side of the Check Valve in the Pump Manifold.

Inspection and Test

All details of construction were examined by Asst. Engr. G. F. Sklenarik, Committee on Test.

The Models 60-E and 60-ES were tested and approved by the Underwriters' Laboratories under files MH 281 and MH 4948, issued January 9, 1957.

Recommendation

On the basis of the examination and the data filed by the applicant, the Committee on Test recommends the approval

Re: Calendar Number 357-57-SM.

Subject: Universal Closet Carrier and Wall Fitting.

V. T. Manas for Josam Manufacturing Co., Michigan City, Indiana, filed April 18, 1957 an application with the Board of Standards and Appeals for approval of the material known as Universal Closet Carrier and Wall Fitting under the provisions of C26-1240.0 Administrative Building Code.

Purpose

The closet is designed to support wall hung closets and make connection with the soil lines.

Description

The carrier is of extra heavy cast iron construction for use in permanent type construction where it is essential to support the fixture independently of the wall to prevent damage to the wall. The basic fitting has an integral vent hub and has drainage connections. The complete details of the fitting are on Drawings A-8002-K, A-8003-K, A-8000-K, A-8001-K, A-8010-K, A-8014-K, A-8012-K, A-8018-K and A-8005-K.

Inspection and Test

A carrier in blow-out position and a fitting for wall hung water closets were tested by R. W. Hunt Laboratory to determine the suitability of the gasket material and to determine the deflection of the carrier.

A steel loading frame, simulating a water closet fixture was located 3 feet 0 inches from the face of the carrier. Water was injected into the assembly and a pressure of 8.5 p.s.i. equivalent to a 20 foot 0 inch head was maintained during the test. The load on the frame was 500 pounds and at 2-hour intervals the entire assembly was vibrated by applying 100 pound pressure repetitiously and the rate of vibration was 68 vibrations per minute for 10 minutes.

The results showed; no leakage at either the sealing gasket, face plate gasket or at any of the threaded joints, nor was there any apparent damage due to load vibrations or

water pressure. The permanent set of the carrier at the completion of the test was .083 inches.

The complete report is on file with and is part of the record.

Recommendation

On the basis of the test and the data filed by the applicant, the Committee on Test recommends the approval of the Universal Closet Carrier and Wall Fitting as manufactured by the Josam Manufacturing Co. for use in New York City under the provisions of C26-1240.0 Administrative Building Code on condition that each face plate shall have a foot bearing on and directly secured to the floor to give positive restraint against further movement vertically downward after final adjustment for height and further the appliance shall bear a label, permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 357-57-SM."

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 153-56-SA.

Subject: Pennco Cast Iron Gas Fired Boilers Series 2, 3 and 6.

Fullerton Equipment Corp. for Pennsylvania Furnace and Iron Co., Warren, Pennsylvania, filed February 16, 1956 an application with the Board of Standards and Appeals for approval of the appliance known as Pennco Cast Iron Gas Fired Boilers Series 2, 3 and 6 under the provisions of Article 12 Chapter 26 Administrative Building Code.

Purpose

The appliances are cast iron gas fired boilers.

Description

Series 2. This series range in BTU input from 35,200 BTU per hour to 87,625 BTU per hour and are constructed of cast iron sections and is of the wet base construction. Safety pilot, limit controls and all operating mechanism are standard equipment. The boiler is finished with a steel insulating jacket.

Series 3. Consists of cast iron sections, and the BTU input ranges from 87,500 BTU per hour to 400,000 BTU per hour. The heating is effected by use of cast iron raise drill port burners with special inlet tubes, elbows and venturi tubes. The boiler is equipped with flue hood draft diverter, automatic thermostatic pilot, shut off valve and gas pressure regulator.

Series 6. Consists of cast iron sections, dry base type and the BTU input ranges from 400,000 BTU to 4,000,000 BTU

MINUTES

The base is equipped with venturi tubes which receive the burners. Secondary air is supplied to the burners through regular holes in front and rear. If the boiler is to be used on a steam or vapor system the following automatic equipment is furnished; Thermocouple Type Safety Pilot; Snap Action Diaphragm Control Valve, Solenoid Valve and Transformer, Gas Pressure Regulator, Shut-Off Cock, Combination Steam Pressure and Low Water Control, Water Gauge and Try Cock, Compound Pressure and Vacuum Gauge with internal syphon; Pop Safety Valve, Drain Cock, and Draft Hoods.

The controls for water boilers are as follows: Automatic Thermostatic Pilots, Snap Action Diaphragm Control Valve, Solenoid Valve and Transformer, Gas Pressure Regulator, Shut-Off Cock, Water Temperature Thermostat Combination Altitude Gauge and Thermometer, Drain Cock and Draft Hoods.

Inspection and Test

Details of construction were examined by Asst. Engr. A. Darts, Committee on Test. The appliance has been approved by the American Gas Association under Certificates 4-(1372.0 & -1.0 & 1376.0 & -1.0).001, 4-(1372-2.0 & 0 & 1376-2.0 & -3.0).001, 4-(1372-4.0 & -5.0 & 1376-4.0 & 0).001, 4-1351-0, .1, .2 & .3.0).001, 4-(1351-1.0, -1.1, -1.2 & 0), 4-(1351-2.0, -2.1, -2.2 & 3.0), 4-(1371.0 & -3.0).001, 4-1371-1.0 & -3.0).001, 4-(1371-2.0 & -3.0).001.

Recommendation

On the basis of the examination and the data filed by the application, the Committee on Test recommends the approval of the Pennco Cast Iron Gas Fired Boilers Series 2, 3 and 4 for use in New York City when constructed as herein described and installed in accordance with the requirements of Article 12 Chapter 26 Administrative Building Code on condition that the appliance bears a label permanently affixed reading "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 153-56-A".

REPORT OF COMMITTEE ON TEST

Calendar Number 784-54-SM.

Subject: Peelle Hollow Metal 1½ Hour Insulated Swing or Double Swing Access Door.

The Peelle Company, Brooklyn, New York, filed October 4, 1954, an application with the Board of Standards and Appeals for approval of the Peelle Hollow Metal 1½ Hour Insulated Swing or Double Swing Access Door under the provisions of C26-663.0 Administrative Building Code.

Purpose

The doors are to be used for the protection of dumb waiter and/or conveyor shafts.

Description

The panels of the door are made of 16 gauge steel either plain or stainless, and the sheets are bent along the edges and assembled with overlapping edges, tack welded and ground smooth. The door is reinforced with "Z" bar stiffeners, spaced 0'-8" on centers. The doors are insulated with asbestos insulation. The sill, jam and head construction are 16 gauge construction with necessary reinforcement. Angle stops are used for the door panel.

A combination of the basic panel construction is used in the double swing unit when two panels are used.

Inspection and Test

The door was tested at the Underwriters Laboratory in the presence of Asst. Engr. J. A. Darts, Committee on Test, and successfully met the requirements of C26-610.0 Administrative Building Code. The complete report of the Underwriters Laboratory is on file with and is part of the record.

Recommendation

On the basis of the test and the data filed by the applicant, the Committee on Test recommends the approval of the Peelle Hollow Metal 1½ Hour Insulated Swing or Double Swing Access Door when constructed as herein described for use in New York City under the provisions of C26-663.0 Administrative Building Code on condition that the requirements of the Rules for Inspection of Opening Protective Assembly are complied with.

Purpose

The doors are to be used for protection of dumb waiter and/or conveyor shafts.

MINUTES

Description

The door is of panel construction and is constructed of 18 gauge sheet steel on the room side and 22 gauge on the shaft side and all panels are asbestos filled. The panels are reinforced with "Z" bars spaced on 1 foot 0 inch centers. The shaft side sheet is formed along top and bottom edge with a 90° bend and along each vertical side with two reverse 90° bends. A reinforcing angle is fastened with rivets along the vertical side of the panel joining the front and back sheets. A standard structural channel provides the track in which the panels run. A pulley and counter weight box are fastened to each rail. The sill, jam and head are constructed of 16 gauge material with reinforcing. The size of the door is 2'-2½" x 4'-8½" x 0'-7/8".

Inspection and Test

WHEREAS, the applicant states that the building is 3 stories, 32 feet in height, 54 feet by 34 feet in area, class 4 construction, erected 1903, located in a retail use, C area, class 1½ height district, and used and occupied; cellar—boiler room and storage; 1st floor—offices and laboratory; 2nd floor—offices and laboratory; 3rd floor—offices; that the building is equipped with a one source sprinkler system throughout, and 3 feet 6 inches wide interior wood stairs; and

WHEREAS, the Board on May 28, 1957 under Calendar Number 134-57-A, Volume I, modified the decision of the Borough Superintendent, dated February 18, 1957 on Alt. App. 238/57 to permit the alteration of the building for use and occupancy as follows: Cellar—boiler room and storage; 1st floor—four offices and laboratory, 10 persons; 2nd floor—eight offices and two laboratories, 8 persons; 3rd floor—apartment and conference room and recreation room, 8 persons; that under certain conditions one of which was that there be erected in the rear yard an exterior iron stair leading from all upper floors both from the north and the south; that the windows in the offices be changed to doors where balconies of such stairs occur; and

WHEREAS, the applicant now contends that it is impossible to erect such exterior iron stairway at the rear of the building, due to the pitch of the roof and the size of the windows from which such a proposed stairway would be accessible;

WHEREAS, the applicant therefore requests that the Board amend its resolution adopted May 28, 1957, to permit the erection of a fire escape on each side of the building with platforms on 2nd and 3rd floor levels and a drop ladder from the 2nd floor balcony to the ground; and

WHEREAS, the applicant contends that the distance from the side of the building to the lot line is 3.9 feet and therefore the only type of construction feasible is a 20 inch wide degree stairway as proposed in connection with the fire escape shown on plans filed with this request for amendment, marked received December 16, 1957, 6 sheets.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on May 28, 1957, by adding thereto:

"that the exterior iron stairs leading from the upper stories as previously required to be erected on the rear of the building, may be erected at each end of the building, as indicated on revised plans marked 'received December 16, 1957,' 6 sheets, on condition that in all other respects the resolution above cited shall be complied with."

WHEREAS, the decision of the Fire Commissioner, dated May 22, 1957, (Folder #638951) reads:

"1. In reference to your letter of May 16, 1957, requesting permission to use three lines of lacquer spray coating machines for coating of interior of cans to be manufactured at the above premises, please be advised that this department must deny such permission unless the equipment used is approved by the Board of Standards and Appeals, as required by Rule 6.1.7 of the Spray Rules of the Board of Standards and Appeals.

You may use this letter of denial as a basis for your appeal."

WHEREAS, the decision of the Borough Superintendent, dated June 28, 1957 on Misc. Applic. 427-57 reads:

"2. All gas fired ovens should be of a type as approved by the Board. Rule 4.3.1. Cal. 353-30 S.R. All spray coating machines shall be of a type as approved by the Board. Rule 6.1.7. Cal. 353-30 S.R."

WHEREAS, the applicant states that the proposed building will be 2 stories and mezzanine, 20 feet in height, 760 feet front by 540 feet in depth, of class 1 construction, located on a lot 1591 feet front by 552 feet irregular in depth, in an unrestricted use A area, class 1½ height district, and used and occupied: 1st floor—offices and manufacturing of metal containers, 250 persons; mezzanine—manufacturing of metal containers, 20 persons; 2nd floor—offices, 30 persons; at the building will be provided with 5 interior fireproof stairs, four of which will lead direct to street; and

WHEREAS, the applicant states that it is purposed to install Wagner Litho Machinery Co. Gas Fired Ovens of the type approved by the Board under Cal. No. 1042-47-SA and to provide for 6 future identical ovens, and it is also proposed to install 3 Ross Engineering Co. Gas Fired Ovens of a type which approval filed with the Board under Cal. No. 555-57-SA, and to provided for the future installation of 7 of such ovens; and

WHEREAS, the applicant states that the Wagner ovens will be used for baking roll coated sheets of metal prior to their being slit and formed into metal containers; that the Ross ovens will be used to dry the enamel inside of the container after it has been sprayed with enamel and before their end is seamed on to the can; and

WHEREAS, the applicant states that it is purposed to install 3 lines of 7 machines in each line of the owners own design and manufacture of spraying machines and to make provisions of the installation in the future of 7 additional lines of 7 machines, making a total of 70 such machines indicated on plans of mezzanine drawing number GMA-77 filed with this appeal; and

WHEREAS, the applicant contends to objection 1 issued by the Borough Superintendent, that the ovens purposed are the type designed oven for the owners particular operations, and the owner has identical installations throughout the country; that these ovens along with all safety controls have been approved by the Associated Factory Mutual Insurance Company; that the Ross ovens will be installed as shown on Mezzanine Floor Plans and the Wagner ovens will be installed as shown on the Main Floor Plans filed with this appeal; and

WHEREAS, the applicant contends as to objection 2 issued by the Borough Superintendent; that the machines purposed are fully automatic and used for spraying the inside of metal containers with enamel before either end of the can is seamed on to the can body; that the can bodies are painted during the spraying operation, which is done by a

Devilbiss Spray Gun going through the can in a reciprocating motion; that a spiral screw timing device feeds the cans automatically into the spray chamber which is constructed of cast iron and lined with expendable aluminum foil for easy clean-up of the machines; and

WHEREAS, the applicant states that the enamel and thinner used in these machines will be stored in underground tanks in the south yard as indicated on plans filed with this appeal; and will be pumped from the underground tanks through pumps located in the pump room adjacent to the main building structure and discharged into lines which run vertically along the north wall of the pump room, and through this wall at an elevation of 14 feet above floor level and then rise vertically to hangers attached to the underside of the bar joists, from which point the lines will run horizontally at a point which will protect them from damage by plant personnel, lines will be dropped vertically to the end of each line and then run horizontally under each machine, enclosed in a framework of the machine stands; that these machines will be exhausted by a 22 inch exhauster giving 110 air changes per minute, the spray machine exhaust will run from each machine to a common exhauster which will provide 87.5 air changes per minute per machine; that all piping used will be black seamless steel and all fittings will be cast iron screwed; that the enamel to be used in this operation will have a flash point of 54 degrees and the thinner will have a flash point 40 degrees open cup; that each machine will use a maximum of .7 gallons of enamel per hour and will be under pressure as indicated on the plans filed with this appeal; and

WHEREAS, the applicant contends that every endeavor will be made to provide an efficient and safe operations for all employees and when the plant is actually in operation, constant care will be maintained to guard against unsafe acts and careless operation; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the Borough Superintendent, dated May 22, 1957, acting on Objections 1 and 2 be and it hereby is modified and that the appeal be and it hereby is granted, to permit the use of the spraying ovens as approved by the Board under Cal. No. 555-57-A and granted temporary for a term of six months to permit the Board to inspect the paint spraying machines in actual operation, and upon further action by the Board, to permit owner to obtain a new certificate of occupancy.

RULES

Fire Drill Rules, Adopted by the Board of Standards and Appeals, October 5, 1923

(593-23-SR)

DEFINITION OF "FIRE DRILL"

The method and practice of the systematic and orderly vacating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the nearest safe means of exit—and the use of fire appliances which shall be provided for the extinguishing or retarding of fire and the safeguarding of human life.

Rule 1.

In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 thereof and in any other building in which such drills are required by the Fire Commissioner pursuant to the power conferred in section 491 of the New York City Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenants shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter in the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present; if any are found to be absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal not being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captain's) Foreman's orders are final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by consent in writing from Fire Commissioner.

Rule 4. Duties of Searchers.

The MALE AND FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, leave the premises. They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET-ALARM-BOX-RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders and if his services are not required he shall promptly leave out of the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and send in the fire alarm.

RULES

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the Fire Department, any fire that may occur. When it is necessary for the fire brigade to respond to different alarms in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways, and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion.

EXIT GUARDS shall remain at their stations until all the occupants of the building have passed their station. When they close their doors and pass out of the building. Upon the signal for the occupants to return, EXIT GUARDS shall return to their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all fire escapes and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interfere with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall conduct all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the persons on the premises engaged at work for a factory,

and drills shall be conducted at least twice, each year in which all of the persons on the premises shall participate simultaneously.

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNERS, LESSEE OR TENANT, who supervises the FIRE DRILL at the building shall submit to an examination by the Division of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs, requiring winding are rewound after each alarm and kept in normal condition for operation.

Rule 11. Duties of Engineer.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc. are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills, showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

NOTICE

Applicants, under the zoning resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying proper owners, they may obtain such

copies at the office of the Board of Standards and Appeals, Room 1018, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the power conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stair hall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

RULE 1. Permit.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator car, in English, and also in such other language or languages—as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon the expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which the hours between which, and the place or places in such factory where smoking may be permitted, and this

permit shall be framed and kept posted in a conspicuous place in the factory.

(c) **Revocation.** Violation of any of the conditions specified in the permit in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by self-closing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire-retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction

(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable materials are deposited in fireproof receptacles.

COURT DECISION

Matter of People, &c. vs. Nicholas Scandore:—In 1953 the Park Department instituted action in the City Magistrates' Court against above-named defendant for violations. The Corporation Counsel's office attempted to obtain a trial in the City Magistrates' Court but the cases were adjourned over the opposition of that office; finally, a trial was held before Magistrate Milton Solomon and the defendant was found guilty on all charges, on May 12, 1955.

On September 13, 1955, Cal. No. 344-33-BZ, affecting Premises 1048-1072 Ocean Parkway, west side, 380 ft. south of Avenue J, and 1151-1167 East 5th Street, Borough of Brooklyn, was reopened as Volume V, to consider alterations.

On February 1, 1956, an application was filed with the Board by Lama, Proskauer & Prober in behalf of Nicholas Scandore, owner of the above mentioned premises, from a decision of the Borough Superintendent, for a variance to permit in a residence use district the proposed change of use of cellar to pastry baking, dishwashing, boiler room, storage of tables and chairs, employees' lockers and dressing room; maintenance room, oven and refrigeration, also the change of the 2nd floor to banquet hall, kitchen and office; also the removal of limitation as to size of orchestra.

The hearing before the Board on this matter was closed on October 30, 1956, and the matter was laid over to November 27, 1956, to await decision of the court as to violations, also for further inspection of premises; thereafter, the matter was laid over several times to await the decision of the court.

On May 29, 1957, the Court of Special Sessions, Appellate Part, Second Judicial Department, made the following decision: (N.Y.L.J. May 29, 1957)

COURT OF SPECIAL SESSIONS—APPELLATE PART
SECOND JUDICIAL DEPARTMENT.

By Kozycke, Byrne and Cannella, JJ.

People, &c., v. Nicholas Scandore—Judgments reversed on the law and facts, complaints dismissed and defendant discharged. Judgment of conviction of defendant, Nicholas Scandore, on each offense charged is reversed on the law and the facts. The defendant is charged in five complaints numbered 7725, 7726, 7727, 7728, 7729, with violations of park department rules and regulations and the Administrative Code of the City of New York. All the offenses are alleged in the complaints to have been committed on September 3, 1953, at 10 A.M. By agreement of the parties all were tried together. The trial herein was a protracted one and the record thereof is lengthy. There is nothing in the record to establish that the violations were committed on the date and time alleged in the complaints. There also exists doubt whether the named defendant was the record owner of the said premises on the date the violations were allegedly committed. To establish ownership of the premises in the defendant, the People offered in evidence a photostatic copy of a deed executed by the Parkville Amusement Corporation to Nicholas Scandore recorded on June 30, 1944. There is no evidence whatsoever that this deed is the last deed of record and that title was still in the said named grantee on the date and time in question. There is no explanation of the intervening period, nor is there any statement by anyone that there were no intervening conveyances. The evidence presented by the People was predicated upon two different theories of action and they were so intertwined during the trial that confusion resulted. While the complaints do not allege continuing offenses, there is no question in the court's opinion that the evidence indicates that some violations of that nature exist. The pleadings, however, do not raise this issue; the only issue raised by the pleadings are limited to September 3, 1953, at 10 A.M. The People are not precluded from pursuing remedial action in regard to these violations since they are of a continuing nature. We are of the opinion that, for the reasons stated, a reasonable doubt existed as to the guilt of this defendant.

The Park Department then made an appeal to the Court of Appeals, which handed down the following decision:

"The People appeal here by leave from a reversal by the Appellate Part of the Court of Special Sessions, New York City, of a conviction of defendant, in a Magistrate's Court, of five alleged violations of Section 532-11.0 of the New York City Administrative Code and Section 60 of the Rules and Regulations of the New York City Department of Parks. The alleged violations, which were amply established by the proof, consisted of the unlawful construction, within a restricted area and without a permit, of parts of a building. The complaints in the Magistrate's Court charged that defendant had done these unlawful acts. The grounds for the reversal were two: first, that the record did not establish that the violations were committed on the precise date alleged in the pleadings, and, second, that there was

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 11, 1958, after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a residence use, E-1 area and class ½ height district; Griswold Avenue, Ohm Avenue and Stadium Avenue are in a residence use, E-1 area and class ½ height district; that as of July 25, 1916 the property in question was zoned as a one and one-quarter times height district and an E area district; that on June 19, 1925 the property was rezoned to a C district; that on June 10, 1955 the property was rezoned to its present class ½ height district and E-1 area district designation, that the use designation has not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the decision of the Borough Superintendent, dated November 21, 1957, acting on Alt. Applic. 754/57, reads:

"A2—Approval of occupancy for three families of this

this building situated in an E-1 area district will be contrary to Sec. 15A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot 50 feet frontage, by 100 feet in depth; and

WHEREAS, the applicant contends that the present owner took title to the property on October 12, 1922; that soon thereafter began construction of a house for their own use; that the construction was abandoned because the streets were not improved and it was impossible to get the building materials to the site; that during the depression years the owner could not afford to erect the house, and during World War II her sons were all in the armed forces and a large house was not required; that after the return of her sons from the service, and a period of time to accumulate enough money to build; that the present home was erected in 1948 under N. B. Applic. 1008/48; that the house was erected to be occupied by the present owner and two of her married children, in separate four room apartments; that as they were all in the same family, they did not object when the certificate of occupancy calling for two family occupancy was obtained, and did not give the matter much further thought, until the present violation was issued; that the house has been used continuously since its erection by three families with insurance as such, three gas and three electric meters, and could have been legalized as such, had it not been provided with a frame attic; that by complying with certain applicable provisions of the multiple dwelling law; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board in conjunction with companion appeal 877-57-A; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief on the grounds of practical difficulty and unnecessary hardship only as to permitting the building in an E-1 area district and not passing on the occupancy which is the subject of Cal. No. 877-57-A.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 21, to permit the building, in an E-1 area district, *on condition* that the building in all other respects shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on September 24, 1957 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on February 4, 1958 after due notice by publication in the Bulletin; laid over to March 18, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Coney Island Avenue and Avenue S are in a business use, D area, class 1 height district; East 12th Street and Avenue T are in business and residence use, D area, class 1 height districts; and

WHEREAS, the decision of the Borough Superintendent, dated July 8, 1957 acting on Alt. Applic. 957-57, reads:

"1. Proposed extension of plot and accessory building, to be used for gasoline service station, accessories, greasing, auto laundry and parking and storage for more than 5 motor vehicles and wheel aligning in a Business Zone is contrary to Art. II, PP. 4a, subsection 29 & 46 of the Zoning Resolution.

MINUTES

2. Business entrance and curb cut within 75 feet of a Residence Zone in a transition from non-residential to residential use zone is contrary to Art. II, PP. 7-A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 110 feet $4\frac{3}{4}$ inches frontage by 80 feet and 89 feet $4\frac{3}{4}$ inches in depth, and now legally occupied as a gasoline selling station, greasing, auto wash and accessories on the front portion, under Certificate of Occupancy No. 99273, issued in 1940, and for parking and storage of more than five motor vehicles on the rear portion under Certificate of Occupancy No. 121541 issued in 1949; that the gasoline selling station was legally established under Permit No. 2249-34, although in existence for many years prior to 1934; that it is proposed to build an extension at the rear of the existing building on the gasoline station; that the proposed extension shall be 35 feet wide by 15 feet in depth extending into the portion of the plot now used for parking and storage of motor vehicles; that this proposed extension will be used for wheel aligning work and will have one entrance at the northerly end of same, facing Avenue T; that it is also proposed to remove the 4 foot high concrete fence posts now existing in a line from the northeast corner of the existing building to the Avenue T building line; that the purpose in asking permission to remove these fence posts is to permit easier access for cars to go to and from the gasoline station and the proposed wheel aligning building, without going across the Avenue T sidewalk; that the posts were originally installed at the request of the Building Department in order to separate the gas station area from the rear portion of the plot; that since the rear portion of the plot has since been legally improved as a parking lot, there seems to be no more necessity for the fence posts; and

WHEREAS, the applicant further states that the entrance to and exit from the proposed extension shall be via the existing legal curb cut now used as an entrance to and exit from the parking area; that no new curb cut shall be required; and

WHEREAS, the applicant contends that the need for this proposed building for wheel aligning is of the utmost importance to the owners of the gas station; that the New York State Motor Vehicle Bureau will not certify this station as a State Motor Vehicle Inspection Station unless the required facility for wheel alignment testing and service is provided; that at the completion of the erection of the proposed extension, a new Certificate of Occupancy shall be obtained replacing the two Certificates now in force; and

WHEREAS, the applicant states that the present owner has held title to the property since July, 1934; that the assessed valuation of land is \$22,400 and of the building \$9,000 making a total of \$31,400; that the building was erected in 1934 and 1940; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on November 4, 1942, as thereafter amended by resolutions adopted through October 29, 1945, by adding thereto:

"that in the event the owner desires to extend the plot and erect an additional building as now proposed and indicated on plans filed with this application, marked 'Received July 31, 1957,' 8 sheets, such construction of building may be permitted as thereon indicated, on condition that the building shall have no cellar and meet the requirements of the Building Code; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7i there may be minor repairing with hand tools only, including wheel alignment, maintained solely within the accessory building for a similar term; that under Section 7A, any curb cut or entrance deemed contrary thereto is herein permitted, provided the requirements of this resolution are complied with; that the term of this variance shall be for fifteen years from the date of this

amended resolution; that any portions of the plot not covered by proposed buildings shall be paved with concrete or asphalt; that curb cuts shall be restricted to existing curb cuts to Coney Island Avenue and Avenue T, as shown; that the sidewalk and curbing abutting the site shall be constructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to permanent signs attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all roof and temporary signs and advertising devices; that the parking permitted by the Board on former lot 3 now included in the gasoline station plot as lots 1 and 3 and as continued as to parking by the Department of Buildings under certificate of occupancy 121541 issued October 5, 1949 may be continued on the balance of lot 3 under the requirements of the resolutions of the Board as adopted under Volume 1 on November 4, 1942 through October 29, 1946; that the requirements of such resolutions and any additional requirements of the Department of Buildings shall be complied with; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

residence district and the remainder is zoned as a retail district; and

WHEREAS, the decision of the Borough Superintendent, dated October 2, 1956 acting on Alt. Applic. 1569-56, reads:

"1. Zone district is retail and res.

2. The proposed extension of the auto showroom, offices, greasing, parts dept., minor repairs, and welding incidental thereto, spray booth, washing and wheel alignment, all in conjunction with Chevrolet Agency on premises, and open used car sales lot and parking of more than 5 cars waiting to be serviced on lot No. 45, to include the use of used car lot on lot No. 30, which is partially in a retail and partially in a res. use district is contrary to Sec. 3 of Art. 2 of Zone Res."

nd

WHEREAS, the applicant states that the premises consist of plot, 331.83 feet frontage by 516.94 feet in depth, presently occupied by an auto showroom, offices, greasing, parts department, minor repairs and welding incidental thereto, spray booth, also washing and wheel alignment, parking of more than five cars and used car sales; that it is proposed to extend the existing parking lot for more than five cars to include cars waiting to be serviced; and

WHEREAS, the applicant contends that the small additional request is in the parking area in the residence use zone on lot No. 30, to be used in conjunction with the present auto showroom; that the corner auto showroom, parking and sales lots, etc.—lot No. 45—was granted by the Board under Cal No. 209-46-BZ and Certificate of Occupancy No. 108546 was issued; that the conforming used car lot within the business use district, on lot No. 30 to the north of the original grant is part of the owner's operation and as a separate Certificate of Occupancy; that the small triangular portion of lot No. 30, bounded by the original grant to the south and the conforming use to the east, within the business use district, and cross-hatched, is in residence use district; that this small portion of the lot was inadvertently omitted from the original application before the Board; that the Board granted the contiguous parking and storage of more than five cars in the residential use district immediately adjoining the portion in question; that there has been no change in the area since the last photographs were taken; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant stated that the Department of Buildings had issued permits for parking in the retail use district.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on June 17, 1952, by finding thereto:

"that in the event the owner obtains from the Department of Buildings the permission for parking in the retail use district, on Junction and Northern Boulevards, as shown on plans filed with this application, marked 'Received January 8, 1957', 3 sheets, and desires to extend present parking in the retail use district into the interior gore-shaped portion of the plot, located in the residence use district, as shown on such plan, such extension of parking use may be permitted to the middle line of the block, as shown on such plans, on condition that the premises shall be leveled and surfaced with clean gravel or steam cinders, treated with a binder and properly rolled; and that suitable woven wire fences of the chain link type shall be constructed and maintained on the lot lines of adjoining premises where suitable fences do not exist; that the previous resolutions as adopted by the Board on November 28, 1948, June 14, 1949, June 17, 1952 and May 19, 1953 shall be complied with where not inconsistent with the terms of this amended resolution; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the Zoning Resolution and that the applicant be and it hereby is granted under Section 7f to permit the plot to be occupied as a fireproof non-storage garage and stores substantially as proposed and as indicated on plans filed with this application marked "Received July 12, 1957", 6 sheets, for a term of twenty years, on condition that the building in all other respects shall comply with the requirements of the Zoning Resolution and the Building Code and all other laws, rules and regulations relative thereto;

that the requirements of the Zoning Resolution as to the rear yard shall be complied with; that curb cuts shall be restricted to one curb cut to East 59th Street, where shown, not over 20 feet in width and one of similar width to East 60th Street, where shown; that attendants shall be posted at the entrances and exits on 59th Street and 60th Street for the protection of persons connected with the Lighthouse on the lot adjoining to the west; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on April 2, 1957 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on January 14, 1958 after due notice by publication in the Bulletin; laid over to February 18, 1958, for inspection and decision; hearing closed; then to March 18, 1958, for further inspection and decision; on same date of hearing as Cal. No. 587-57-BZ; applicant to inform Board as to sales car lot's ownership, located on Southern Boulevard; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and East 173rd Street are in business and residence use, B area, class 1½ height districts; Southern Boulevard is in a business use, B area, class 1½ height district; Hoe Avenue is in a residence use, B area, class 1½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated March 12, 1957 acting on N.B. Applic. 45-57, reads:

"1. Use of proposed office, lubritorium, car wash, gasoline service station, auto accessories, sales, storage, and parking and storage of motor vehicles partly in a residence use district and partly in a business use district is contrary to Art. II Sect. 3 & 4 of the Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 feet frontage by 200 feet in depth, presently unimproved; that it is proposed to erect a modern gasoline service station; that on the easterly portion of the site, where it is zoned for residential use, it is proposed to construct and operate a well landscaped and shielded parking area for more than five motor vehicles; that no exit or entrance to such area is proposed on the residential section of the lot; that all such traffic would be routed through the gasoline service station; and

WHEREAS, the applicant contends that Southern Boulevard is one of the most heavily trafficked main arteries in Bronx County and also supports an overhead elevated subway; that considering the presence of the elevated, the heavy traffic, to a large part commercial, and the general condition of the surrounding neighborhood, it appears inconceivable that this site could ever in the foreseeable future be utilized for residential purposes; that upon inspection

tion of the area, its general condition and in particular the large number of vacant retail stores on Southern Boulevard, it would appear that there is no demand for more store facilities; that the small apartment houses along Southern Boulevard all contain stores and those not vacant, in general appear to be in varying stages of disrepair; that immediately to the north, there is a small apartment house adjoining the proposed station; that however, there are no windows in this house overlooking the gas station; that to the north of two such small structures there is a parking lot and used car sales; that diagonally across Southern Boulevard is a storage warehouse which is in turn adjoined by a garage; that there are garages in the block to the south of the site and a gas station on the opposite side of Southern Boulevard, one block north of the site; that the development of the site as proposed would obviously provide more light and air and enter a more pleasing appearance in the neighborhood than would conforming uses; that the entire area, except for a small one story attractive building, would be left unoccupied, pleasingly landscaped and screened; and

WHEREAS, the applicant states that the present owner has held title to the property since September 26, 1956 and that the assessed valuation of land is \$35,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7f to permit for a term of fifteen years the erection of a gasoline service station on a portion of the lot facing on Southern Boulevard as indicated on plans filed with this application marked "Received December 4, 1957", 3 sheets, and to permit on the balance of the plot, to be landscaped as proposed, facing on Hoe Avenue the parking and storage of motor vehicles under Section 7h for a term of five years *on condition* that the entire plot shall be leveled substantially to the grade of the surrounding streets and shall be constructed and maintained as indicated on plans above cited; that the accessory building shall be located and shall be of the design and arrangement as indicated on such plans, without cellar, and in all other respects complying with the requirements of the Building Code; that pumps shall be erected not nearer than fifteen feet to the street building line where shown, and shall be of a low approved type; that the number of gasoline storage tanks shall not exceed twelve approved 550 gallon tanks; that the part toward Hoe Avenue used for parking shall have suitable aisles and suitable bumpers to protect the fences which shall be of the woven wire chain link type erected on the entire lot line to the north and along Hoe Avenue to the east and along East 173rd Street to the south for a distance of one hundred feet; that such fence shall be not less than five feet six inches in height and shall be erected on a masonry base; that curb cuts shall be restricted to two curb cuts to East 173rd Street, as shown, each 30 feet in width, and two similar curb cuts to Southern Boulevard, and one 16 feet in width to Hoe Avenue; that the fence on Hoe Avenue shall have an opening to Hoe Avenue which shall be fitted with gates which shall normally be kept closed when this portion of the plot is not in operation and all entrance and exit shall be through the gasoline station as proposed; that the premises where not occupied by accessory building and pumps shall be paved with concrete or asphaltic pavement; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that sidewalks and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to permanent signs attached to the facade of the accessory

building facing Southern Boulevard and to the illuminated globes of the pumps excluding all temporary signs and roof signs and all miscellaneous advertising devices but permitting the erection within the intersection of Southern Boulevard and East 173rd Street of a post standard for supporting a sign which may be illuminated advertising the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than four feet; that a sign may also be permitted to be attached to the fence near the entrance to the parking area on Hoe Avenue advertising the parking use and the rates charged and such other information as may be required by the Commissioner of Licenses; that such sign shall not exceed four square feet, shall not be illuminated and shall not extend beyond the building line; that at the intersection of Southern Boulevard and 173rd Street there shall be erected and maintained a block of concrete extending for not less than five feet along either direction from the intersection and not less than twelve inches in height; that under section 7i for a similar term there may be minor repairing with hand tools only for adjustments maintained solely within the accessory building; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 18, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Second Avenue are in a local retail use, B area, class 1½ height district; East 111th Street and East 110th Street are in local retail and business use, B area, class 1½ height districts; and

WHEREAS, the decision of the Borough Superintendent, dated April 3, 1957 acting on Alt. Applic. No. 1264-56, reads:

"1. Proposed 'repair and manufacture of mattresses for local retail trade incidental to sales of mattresses,' located in a local retail district is contrary to Sec. 4c of Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 feet frontage by 100 feet in depth; that the premises from the beginning of zoning was in a business use, but on June 15, 1956 it was changed to a local retail district; that there have been no changes in height or area; and

WHEREAS, the applicant states that it is realized that manufacturing in a local retail district is in violation of the zoning provisions, but, however, the floor area of this building amounts to 2,024 square feet and of this, only 280 square feet is proposed to be occupied for manufacturing purposes; that percentage-wise, this represents only 13.8% of the floor area and that area is confined to the two rooms at the rear of the building; and

WHEREAS, the applicant further states that the owner had conducted a mattress sales and mattress manufacturing business at 1947-49 Third Avenue, Manhattan, for 22 years and which premises he owned until February 1, 1956, at which time the City Housing Authority took title to demolish the building to make way for the construction of the Benjamin Franklin housing project; that the Authority requested him to vacate the premises promptly and filed an application with the Supreme Court to obtain an order permitting it to evict him immediately; that with that prospect he was forced to find other quarters fast in order to stay in business in a neighborhood wherein his private trade lay and which he developed during the 22 years at the old location; that he finally found a one story brick building at 2152 Second Avenue, 25 feet by 90 feet in depth; that knowing that a permit would be necessary from the Building Department in order to occupy the building as part mattress sales and part manufacturing, he had his architect check the maps as to the kind of district such building is located in; that this was during July, 1956, and the Department maps at that date showed no amendment to the effect that said location had been changed from business to local retail; that relying on such map record, the owner purchased the building on contract on July 18, 1956, and filed an alteration application, No. 1264-56, on August 21, 1956; that this application in its schedule clearly stated for what purpose or trade the building was to be occupied, that is, the manufacture and sale of mattresses, retail—not more than five persons at manufacturing on first floor; that this application was approved August 31, 1956, which clearly shows that the Department Map up to that date still showed the site to be in a business district; that as all approvals are subject to a final map check before they are issued by the Department, it clearly shows that Department maps were not then corrected to coincide with the action of the Zoning Commission which changed the district from business to local retail on June 15, 1956; that on October 2, 1956, the owner received a notice in letter form from the Department of Buildings, stating that the approval of Alt. Applic. No. 1264-56 as

approved August 31, 1956, had been rescinded due to the fact that the district was changed on June 15, 1956, from business to local retail use; and

WHEREAS, the applicant contends that 3½ months elapsed from the time of the June 15th Zone Amendment by the Zoning Commission, until the Department of Buildings corrected the map on October 1, 1956; that whether this record is charged to oversight, neglect or plain non-cooperation on the part of the Zoning Commission is just unfortunate, but does not remedy the owner's plight; that the owner, showing his faith and trust, in that Department records can be relied upon, contracted to purchase the premises at a price of \$18,000, all cash; that all taxes are paid up to date; that all of this would be for naught unless the Board affords him the relief so well deserved, and unless granted such relief, the owner could well suffer a considerable financial loss; and

WHEREAS, the applicant states that the present owner has held title to the property since November 20, 1956; that the assessed valuation of land is \$8,000 and of the building \$8,000 making a total of \$16,000; that the building was erected April 23, 1941; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 21, to permit the construction and use of the proposed building, as indicated on plans filed with this application, marked "Received April 11, 1957," 3 sheets, *on condition* that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that any manufacturing on the premises shall be solely in connection with the mattresses dealt in; and that such fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

WHEREAS, the decision of the Borough Superintendent, dated April 4, 1957 acting on Alt. Applic. 28-57, reads:

"1. Proposed commercial use, located in a Residence Use District, is contrary to Art. II, PP. 3, Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 feet frontage by 100 feet 5 inches in depth, occupied with a two family residence with an accessory garage for one motor vehicle; that it is proposed to use the premises as follows: cellar—boiler room and tenants' storage and photographic dark room; first floor—entrance hall, accessory non-storage garage, accessory to residence portion of building, for a passenger motor vehicle and photographer's studio; second floor—residence, one family; third floor—residence, one family; and

WHEREAS, the applicant states that although the block between First Avenue and York Avenue is in a residential district, it is not in strict conformity with that use; that excluding buildings in the local retail district extending 100 feet into East 71st Street from First Avenue, the following uses now exist in the residence area on East 71st Street to the west side of York Avenue—three public garages, one loft and factory building, one restaurant and eating hall, one bar and grill, five shops and one office; and

WHEREAS, the applicant contends that the subject building is an improvement to the neighborhood; that it is not intended to alter the exterior of the building in any manner; that the studio on the first floor will be occupied by a commercial photographer; that the second story will be slightly altered in order to provide one housekeeping apartment and the existing apartment on the third story shall remain as previously approved; that the existing garage on the first floor will be non-storage for one passenger motor vehicle in conjunction with one of the apartments on the upper floors; that the existing cellar contains a boiler room, fuel oil storage tanks, tenants' storage and provision shall be made for a photographic dark room used in conjunction with the photographer's studio on the first floor; that the photographer's equipment consists of the usual paraphernalia including cameras, lighting equipment, background props and other accessories common to such profession; that the materials used will be noninflammable such as produced by Eastman Kodak, Dupont or other reliable manufacturers; that for developing, fixing and cleaning of films and plates, ordinary and well known harmless solutions as manufactured by the above concerns will be employed; that in other respects the building will be made to comply with all laws, rules and regulations applicable thereto, and a new Certificate of Occupancy will be obtained; that the existing building has already enhanced the neighborhood and the presence of a commercial photographer would not, in any way, be detrimental to the residential character of the surrounding premises; and

WHEREAS, the applicant states that the present owner has held title to the property since July, 1954; that the assessed valuation of land is \$15,000 and of the building \$50,000 making a total of \$65,000; that the building was erected in 1955; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7c, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is granted under Section 7c, for a term of five years, to permit the proposed photographer's studio on the first floor, of the type as proposed and indicated on plans filed with this application, marked "Received April 11, 1957", 10 sheets, on condition that the windows on the first floor facing the street shall be made translucent; that no sign shall be erected on the exterior of the

building; that the residential appearance of the building shall be retained; that the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board this day under Cal. No. 340-57-A; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

Applic. 11-55 permits the building to be used and occupied as follows: Cellar—boiler room, laundry and accessory use; 1st story—1 family and accessory garage for 1 motor vehicle; 1st and 2nd stories combined—1 family dwelling and accessory garage for 1 motor vehicle; 3rd story—1 family; and

WHEREAS, the applicant states that the building was erected under N.B. Applic. 11-55 for use as a 2 family dwelling and accessory garage; and

WHEREAS, the applicant contends that the Borough Superintendent has raised an objection as to fire escape due to the fact that egress from the commercial part of the building on the 1st floor will be through the stair enclosure leading to the apartment above; that this enclosure continues to and including the 3rd floor and consists of fire retarded partitions having ¾ inch gypsum plaster of rock lath and the ceiling within the enclosure similar fire retarded and the enclosure equipped with fireproof self-closing doors at all openings; that the commercial occupancy on the 1st floor will not be of a nature requiring a combustible permit; that to be required to provide a separate entrance to the commercial area would involve costly interior rearrangement and detract from residential character of the facade; and

MINUTES

WHEREAS, the applicant contends that Objection 3 issued by the Borough Superintendent is due to the fact that the proposed change of use removes the building from the residence classification to that of mixed occupancy and as such it exceeds the tabular height limit for garage use; that it is the owner's desire to retain the existing accessory garage; that whatever dangers were inherent under the existing occupancy will not be increased by the installation of a commercial use on the 1st floor; that there will be but 2 families living above the non-storage garage which is entirely separated from the proposed commercial area; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the Borough Superintendent, dated April 4, 1957, acting on Alt. Applic. 28/57, Objections 2 and 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, waiving the requirements for a fire escape, in view of the conditions as required by the resolution adopted this day under Cal. No. 339-57-BZ, limiting the business occupancy to the first floor only; and as to Objection 3, that the requirements of the resolution adopted by the Board under Cal. No. 339-57-BZ shall be complied with; that the building shall not be increased beyond its present height; and that the building above the first floor shall not be occupied by more than two families, as proposed.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 18, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Riverdale Avenue are in local retail use, D area, class 1 height district; 260th Street and 261st Street are in local retail and residence use, D and F area, class 1 height districts; that the site is formerly in a business district, where the proposed occupancy by a funeral establishment would have been permitted, but by reason of a change of the use designation from business to local retail on January 14, 1954, such use is now prohibited unless a variance is obtained; and

WHEREAS, the decision of the Borough Superintendent, dated September 18, 1957 acting on amendment to N.B. Applic. 129-57, reads:

"8. In a Local Retail District the proposed occupancy of the store as a funeral establishment is contrary to Art. II, Sect. 4-C of the Zoning Resolution and is therefore denied."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 feet frontage by 76 feet in depth, on which is located a one story brick office building, 20 feet front by 25 feet deep; that the balance of the site is vacant; that it is proposed to construct a one story brick building 30 feet front and rear, by 50 feet deep and 15 feet high, with a cellar of 31 feet 4 inches and 7 feet 6 inches high; and

WHEREAS, the applicant contends that a funeral establishment in this area will serve the parishioners of the Church located on block 3423-J, lot 546, and to substantiate this contention a consent from the Pastor of that Church is filed with this application and may be considered a recommendation for its establishment; that Riverdale Avenue is 100 feet wide and thus no traffic problem would occur at the time of a funeral; that the architecture of the front of the building would be in keeping with Riverdale traditions and would be an asset in comparison with the other stores in the district; and

WHEREAS, the applicant states that the present owner has held title to the property since May 10, 1954; that the assessed valuation of land is \$5,000 and of the building \$2,000 making a total of \$7,000; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision c of the Zoning Resolution; and

WHEREAS, the Board found that the applicant failed to substantiate a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution and was therefore not entitled to relief on the grounds of practical difficulty or unnecessary hardship.

Resolved, that the decision of the Borough Superintendent, acting on N.B. App. 129-57, Objection No. 8 be and it hereby is affirmed and that the application be and it hereby is denied.

WHEREAS, a public hearing was held on this application on February 4, 1957, after due notice by publication in the Bulletin; laid over to March 18, 1958, for inspection and decision; hearing closed; applicant to file an additional plan showing what was permitted to be covered and what actually was covered, and accurate and correct plans showing adjoining buildings and yards; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Park Avenue are in a residence use, B area, class 1½ height district; East 61st Street and East 62nd Street are in residence and restricted retail use, B area, class 1½ height districts; Lexington Avenue is in a restricted retail use, B area, class 1½ height district; and

WHEREAS, the decision of the Borough Superintendent, dated November 18, 1957, acting on Alt. Applic. 7-57, reads:

"A-7. Yard required for full width of lot as per Sec. 17a. Art. IV of Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 20 feet frontage by 100 feet in depth, on which is located a building four stories, basement and penthouse, 63 feet in height, 20 feet frontage by 49 feet 9 inches and extension, used and occupied in accordance with Certificate of Occupancy No. 32503 issued February 3, 1947, after completion of work under Alt. Applic. 198-45 as follows: cellar—boiler room; basement—doctor's office, connecting with first story doctor's apartment; second, third and fourth floors—two apartments each; penthouse, one apartment; that it is proposed to obtain approval for a two story extension 13 feet by 14 feet in area, erected partly in the required rear yard; and

WHEREAS, the applicant states that the owner caused its architect to file Alt. Applic. 7-57 with the Department of Buildings for the two story 13 feet by 14 feet extension; that the application was approved on February 11, 1957, and Building Permit No. 452-57 was issued March 1, 1957, permitting the construction of the extension; that construction was commenced strictly in accordance with the permit and on May 3, 1957, after it was completed, the Department of Buildings revoked the Building Permit, and on May 7, 1957, ordered the removal of the newly erected extension because the extension encroached on the required rear yard; that the owner is an innocent party to the error in the plans and in no way contributed to this error; that it proceeded and completed the construction strictly in accordance with the legally required procedures; that the only manner in which the owner can comply with the area zoning resolution is to demolish the newly constructed extension; that the only basis for permitting the extension to be maintained is by the grant of this variance of the area district regulations of the Zoning Resolution; that the only basis for the Board's jurisdiction to grant the variance is under Section 21 of the Zoning Resolution; and

WHEREAS, the applicant further states that under the requirements of Art. IV, Sec. 17A, as it applies to these premises, a rear yard is required; that the dimensions of this required rear yard is set forth in Art. IV, Sec. 12, since the premises is in a B area district; that however, Art. IV, Sec. 19 modifies the rear yard requirements affecting these premises and states, in effect, that the requirements of an outer court as contained in Art. IV, Sec. 12 shall be the rule for determining the dimensions of the rear yard at the easterly side lot line; that the interrelation of these various sections of the Zoning Resolution and the confusing wording of each section, particularly as it applies to the extension of existing buildings of irregular shapes, explains the error that was made in the instant application; that there

MINUTES

are practical difficulties in the way of now carrying out the strict letter of the area district requirements; that it would be necessary to totally demolish the newly erected extension and then reconstruct it, with only slight relocation, in order to comply; that due to the location of the extension at the rear of this narrow plot, it is practically inaccessible by adequate demolition equipment; that the required demolition of the extension, which is approximately 20 feet in height and constructed on reinforced concrete footings, would seriously endanger and weaken the older portion of the building, as stated by the architect in his statement filed with Cal. No. 428-57-A; that further, since the extension is flush up against the building adjoining to the east and abutting at the rear, a demolition might adversely affect them; that there are unnecessary hardships in the way of now carrying out the strict letter of the provisions of the resolution; that the owner erected the extension at a cost of approximately \$6,000, and if it had been aware or apprised of the provisions of the resolution, the extension could have been erected at a different location on the lot, without need for variance; that the premises are unique in that they consist of a small lot on which a building was erected prior to the enactment of the Zoning Resolution, and at a time when no rear yard whatever was required; that there is no vacant land abutting or adjoining these premises which could be purchased for the extension of the building; that the situation of this owner is unique, and demolition would constitute a severe and unnecessary hardship; that a grant of the variance will not adversely affect any of the property owners within the affected area and will be in harmony with the general purpose and intent of the Zoning Resolution, and will do substantial justice without adverse effect on the public health, safety and general welfare; and

WHEREAS, the applicant contends that the extension has no effect whatever on the light, air or ventilation of the tax block, since all four street frontages of the block are densely developed with existing structures all higher and of greater ground coverage than the extension; that the only lots that might be affected by the extension are lots 62, 160, 111 and 12, and none of these lots are adversely affected; that lot 160, adjoining to the east, has no rear yard, and lot 12, abutting at the rear, likewise has no rear yard at the common lot line; that both these structures were erected or extended prior to any rear yard requirements; that these two lots provide no light, air or ventilation to the premises and therefore, under the provisions of the Zoning Resolution are not entitled to receive any light, air or ventilation; that the building on lot 12 had a solid brick wall without any openings on the contiguous lot line where the extension was erected; that the building adjoining on lot 160 had lot line windows; that however, the Zoning Resolution permits an extension of this building to the full depth of the lot along this easterly side lot line; that therefore, the extension is strictly in conformance with the area district requirements along the easterly lot line; that the adjoining owner to the east cannot claim to be adversely affected by a grant of the variance, since no variance is necessary to build an extension as presently exists along this easterly lot line; that the adjoining premises to the west, lot 62, would be beneficially affected by a grant of the variance; that the existing extension could legally have been constructed in part of the vacant, open yard along the westerly lot line; that this adjoining owner benefits from the vacant yard as it presently exists in excess of that required; that the only owner who can claim some possible adverse effect is the owner of lot 111, but the difference in coverage in what presently exists and what would be permitted is so small as to make the consideration trifling, and the Zoning Resolution was not intended to deal with trifles; that further, since the extension could legally have been greater in coverage and area than that which was erected, and for which a variance is sought herein, then the owner of lot 111 is beneficially affected by the small size of the extension and the greater vacant area; that in addition, it is proposed that a condition of the grant of a variance be, and that the building will not be further increased in height or area; and

WHEREAS, the applicant further contends that lot 160 adjoining to the east has no rear yard, and lot 12 abutting at the rear, likewise has no rear yard at the common lot line; that both these structures were erected or extended prior to any rear yard requirements—and prior to any limiting area district percentages; that the building on lot 12 had a solid brick wall without any openings on the contiguous lot line where the extension was erected; that the building adjoining on lot 160 had lot line windows, which would not be legal at the present time; that however, the Zoning Resolution permits a legal extension to within either three or four feet of the rear lot line, depending on whether the Borough Superintendent applies Art. IV, Section 18b or 18b(1); and even if such a rear yard had been provided, the adjoining lot line windows would have been covered; that an extension of a considerable area greater than that existing would be permitted under a strict conformity with the area district limitations of the Zoning Resolution; and

WHEREAS, the applicant states that the present owner has held title to the property since March 11, 1947; that the assessed valuation of land is \$32,000 and of the building \$35,000 making a total of \$67,000; that the building was erected prior to 1916; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Multiple Dwelling Law requires a yard 13 feet in width across the rear of the plot; and

WHEREAS, Companion Appeal 428-57A has been withdrawn this day to comply; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty and unnecessary hardship; and

WHEREAS, the Board is passing on the objection raised as to the rear yard.

Resolved, that the Board of Standards and Appeals do hereby *make a variation* in the application of the area district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 21, to permit the extension of the first story of the building encroaching on the required rear yard, as proposed and indicated on plans filed with this application, marked "Received November 26, 1957," 4 sheets, "December 17, 1957," 1 sheet "March 10, 1958," 1 sheet, as revised by plan March 14, 1958, 1 sheet, *on condition* that the building shall not be increased further in height or area and in all other respects shall comply with the requirements of the Zoning Resolution, the Multiple Dwelling Law and all other laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed with the requirements of Section 22A of the Zoning Resolution.

Re: Calendar Number 342-39-SM Vol. II.

Subject: Amendment to resolution as to additional Furring Bracket.

J. K. Hovind for National Gypsum Co., Buffalo, New York, requested by letter dated December 9, 1957 that the resolution adopted July 9, 1946 and as amended July 17, 1956 under Calendar Number 342-39-SM Volumes I and II be amended so as to include an additional Furring Bracket. The application was reopened by a vote of the Board on January 1958.

Description

The furring bracket known as the Gold Bond Masonry Wall Furring Bracket is fabricated from 20 gauge galvanized steel and is $\frac{3}{4}$ " wide by $3\frac{1}{2}$ " long "1" shaped. One long edge has a series of teeth which hold furring channels when the channels are wire tied to the clip.

Recommendation

The Committee on Test recommends that the resolution adopted July 9, 1946 and as amended July 17, 1956 under Calendar Number 342-39-SM Vols. I and II be amended so as to include the lathing accessory known as Gold Bond Masonry Wall Furring Bracket as herein described for use in New York City on condition that the requirements of the resolution adopted July 9, 1946 and as amended July 17, 1956 under Calendar Number 342-39-SM Volumes I and II be complied with.

No. 197-40-SM be amended so as to permit the approved door to be installed in elevator shaft entrances and the use of stainless steel face sheets. The application was reopened by a vote of the Board January 7, 1958.

Purpose

The door is a $1\frac{1}{2}$ -hour fire resistive Opening Protective Assembly.

Description

The door is a $1\frac{3}{4}$ inch thick door. The only change from the approved door is the change of the face steel, which was of 18 and 20 gauge sheet steel to stainless steel.

Recommendation

The Committee on Test recommends that the resolution adopted December 23, 1941 under Calendar Number 197-40-SM be amended so as to permit the approved door to be installed in elevator shaft openings as provided under C26-663.0 Administrative Building Code and further that the face sheets may be of stainless steel provided that the gauge of the stainless steel shall be the same gauge as the steel used in the approved door and the stainless steel be an alloy having the coefficient of expansion as the sheet steel on condition that all other requirements of the resolution adopted December 23, 1941 under Calendar Number 197-40-SM are complied with.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 900-50-SM Vol. II.
Subject: Amendment to resolution as to additional method of construction.

Asbestospray Corporation, Newark, New Jersey requested by letter dated May 12, 1954 that the resolution adopted July 24, 1951 under Cal. No. 900-50-SM Vol. I be amended so as to include additional methods of fire retarding steel floor and/or roof and beam construction. The application was reopened by a vote of the Board October 5, 1954 under Cal. No. 900-54-SM Vol. II.

Purpose

Asbestospray is to be used as an acoustical and thermal insulation and also as a fire retardant on steel floors and beam construction.

Description

The material is the same as that approved July 24, 1951 under Cal. No. 900-50-SM Vol. I.

Inspection and Test

The material was tested at the Underwriters Laboratory in accordance with the requirements of C26-588.0, C26-589.0 and C26-590. Administrative Building Code.

PANEL I was constructed as follows:

Cellular steel floor as manufactured by Inland Steel Products Company were installed so as to fill the opening in the furnace and so placed that there were a 1/2 inch bearing on the beam, forming part of the construction. The floor units were covered with a concrete fil having a strength of at least 2500 psi to a depth of 2 1/2 inches. The under side of the steel floor units was sprayed with a coat of adhesive mixed with equal part of water by volume. A thin layer of the asbestos fiber was then sprayed on the adhesive and the balance of the asbestos is then applied to a total tamped thickness of 5 3/8 inches.

MINUTES

The beam was caged by forming furring channels into the form of a "U" and placed around the beam, the lath was then bent to fit the cage so that the back of the lath was 1" beneath the lower flange.

The plaster of a mix of 100 lbs. of gypsum to 2 cu. feet of vermiculite for the scratch coat and 100 lbs. of gypsum to 3 cu. feet of vermiculite for the brown coat was applied to a total thickness of 1½ inches from the face of the lath.

RESULTS OF TEST: The assembly successfully passed the fire and hose stream tests for a four hour fire resistive floor and ceiling construction. The complete report Underwriters Laboratory Retardant 3372-3 is on file with and is part of the record.

PANEL II was constructed as follows:

The Cofar sheets were laid on the beams and secured at both ends at every third corrugation with metal washers are welded to the beams and the length of bearing on the beams were 2 inches. The ¾ inch negative reinforcing steel bars were placed on a 1¾ inch chair so as to provide 7/8 inches of concrete over the bars. The concrete was then poured to a depth of 4½ inches over the Cofar unit as measured from the bottom of the corrugations; the compressive strength of the concrete was excess of 3000 psi.

The under side of the Cofar floor units and the steel beam were then fire proofed with the material Asbestos-spray. The first coat was applied to a thickness of ¾ inch and consisted of two parts of diluted Asbestos-spray adhesive to one part of fiber. The second coat was then applied and consisted of one part of fibers to one part of water. The total thickness was 2½ inches on the beam and 7/8 inches on the ceiling.

RESULT OF TEST: The construction successfully met the fire and hose stream test for a four hour fire resistive floor and ceiling construction and the beam received 3-hour fire resistive rating. The complete report Underwriters Laboratory Retardant 332-2 is on file with and is part of the record.

Recommendation

On the basis of the test and the data filed by the applicant, the Committee on Test recommends that the resolution adopted July 24, 1951 under Cal. No. 900-50-SM Vol. I be amended so as to include the additional methods of construction for use in New York City under the provisions of C26-590.0 on condition that the requirements of the resolution adopted July 24, 1951 under Cal. No. 900-50-SM Vol. I are complied with.

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 984-54-SM.

Subject: Amendment to resolution as to additional methods of fire protection of Cellufloor.

Inland Steel Products Co., Milwaukee, Wisconsin, requested by letter dated March 18, 1957 that the resolution adopted February 15, 1956 and amended November 20, 1956 be amended so as to include additional methods of fire protection of Cellufloor. The application was reopened by a vote of the Board April 9, 1957.

Purpose

The material is a steel structure sub-floor panel, which, in conjunction with its protection and concrete floor is used as a fire resistive floor.

Description

The structural properties of the deck were considered and approved by the Board November 20, 1956.

Inspection and Test

Fire tests were conducted at both the Underwriters' Laboratory, Chicago, Illinois, and the National Bureau of Standards, Washington, D. C., in accordance with the requirements of C26-588.0, C26-589.0 and C26-590.0 Administrative Building Code.

The construction of the test panel I was as follows.

The Cellufloor units were installed in such a manner that the units rested on the outer edges of the furnace and also rested on a 12 inch 27 pound I beam so that the construction was basically two simple beams.

Where the two units of Cellufloor met at the I beam, a 6 inch by 16 gauge was installed and the whole upper section of the floor was protected by 2½ inches of structural sand and gravel concrete of a minimum strength of 2500 p.s.i. The under side of the floor was protected by the material known as Asbestos-spray. The under side of the steel floor units were sprayed with a latex-resin type binder and a thin layer of wetted fiber was sprayed on the adhesive and was followed with a second coat of adhesive. The remaining application of fiber is then applied in individual coats with tamping between each coat so that the total thickness of fiber, measured from the bottom plane of the floor units is 5/8 inches.

The beam, forming part of the assembly, was protected by metal lath and vermiculite plaster. The beam caging was formed of furring channels cut into a "U" and box shape. The box sections measured 6" x 12" with the ends meeting over the top flange of the beam and spaced 18" on centers. The "U" shaped sections were placed over each of the box sections with the legs extending part way down the sides of the boxes and tied with double-strand wire at two locations on each side of the beam. The lath was bent to fit the channel cage and tied to the channels.

The beam was plastered with two coats of gypsum-vermiculite plaster. The scratch coat of a mix of 100 pounds of gypsum to 2 cubic feet of vermiculite was applied to a depth of 1/8 inch; the brown coat of a mix of 3 cubic feet of vermiculite to 100 pounds of gypsum was then applied so that the overall thickness was 1½ inches.

Result of test:—The complete assembly successfully met the fire and hose stream requirements of C26-588.0, C26-589.0 and C26-590.0 Administrative Building Code for a four-hour fire resistive floor and ceiling construction. The complete report Retardant 3789 is on file with and is part of the record.

Panel II—The construction was as follows:

The floor units were installed so as to fill the opening with the units resting on the beam so that the construction was basically two simple beams. Bolts and ceiling hangers were inserted in holes punched in the floor units for the purpose of holding the ventilating

MINUTES

ducts and the suspending ceiling system. The top ends of the hangers were bent into loops which became imbedded in the concrete. The upper section of the floor was protected by 2½ inches of structural sand and gravel concrete of a minimum strength of 2500 p.s.i.

The ventilating ducts, 24 gauge steel, are secured to the floor system by means of 1" wide by ⅝ inch thick galvanized iron strap hangers. The system consists of a main duct 8" x 24" and two 6" x 14" branch ducts and the damper is of 14 gauge steel 13" x 13" equipped with a 160°F fusible link.

The 1½ inch runner channels are spaced 4'-0" on centers and the furring channels are tied 1'-0" on centers and at right angles to the runner channels. The metal lath is then attached to the furring channels and wire tied 6" on centers.

The plaster, perlite gypsum, as manufactured by U. S. Gypsum Co., was then applied to the face of the lath and with the ⅛ inch finish coat, the total thickness of plaster is 1⅜ inches.

The beam, forming part of the construction, was not encased and the face of the lath is 3½ inches below the lower flange of the beam.

The total depth of the construction from the top of the concrete to the face of the plaster is 21⅝ inches.

Result of test:—The complete assembly successfully met the requirements of the fire and hose stream test for a four-hour fire resistive floor and ceiling construction. The complete report, Retardant 3574-6, is on file with and is part of the record.

Panel III—The construction was as follows:

The floor units were installed so as to fill the opening with the units resting on the beams so that the construction was basically two simple beams. The top surface of the floor units were covered with 2½ inches of sand and gravel concrete having a minimum compressive strength of 2500 p.s.i.

The 1½ inch channels, spaced 4'-0" on centers were hung from the steel floor by means of No. 9 galvanized wire and the bottom of the channel is 3 inches below the lower plane of the steel floor. The ¾ inch lathing channels are thin wire tied to the carrying channels and the lath is attached to the lathing channels. The plaster of a mix of 2 cubic feet of vermiculite to 100 pounds of gypsum for the scratch coat and 3 cubic feet of vermiculite to 100 pounds of gypsum for the brown coat. With a ⅛ inch finish coat, the total thickness of plaster is 1 inch.

The beam, incorporated in the assembly, was encased and the plaster from the face of the lath was 1¼ inches.

Result of test:—The complete assembly successfully met the fire and hose stream requirements of C26-588.0, C26-589.0 and C26-590.0 Administrative building Code for a 4-hour fire resistive floor and ceiling construction. The complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection and tests, the Committee on Test recommends that the resolution adopted February 15, 1956 and amended November 20, 1956 under Calendar Number 984-54-SM be amended so as to include the additional methods of construction as herein described for use in New York City under the provisions of C26-239.0 as a three-hour fire resistive floor and ceiling construction.

The Committee further recommends that the resolution adopted February 15, 1956 be amended so as to permit the fastening of the longitudinal joints by means of crimping or button punching the male and female joints together on a maximum of 3'-0" centers. A ⅜ inch diameter button is formed on all three sheets which anchors the laps against slippages.

The Committee further recommends that the resolution

adopted November 20, 1956 be amended so that the concrete topping may be 2½ inches in lieu of 3¼ inches of 2500 p.s.i. concrete and further that the blend system, consisting of cellular panels interspersed among floor deck panels; these panels were approved November 20, 1956.

The Committee further recommends that all other requirements of the resolution adopted February 15, 1956 and as amended November 20, 1956 under Calendar Number 984-54-SM be complied with.

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 940-55-SM.

Subject: Gold Bond Perfo-Lyte Acoustical Plaster also known as Gold Bond Perfolite Acoustical Plaster.

National Gypsum Company, Buffalo, New York filed November 10, 1955 an application with the Board of Standards and Appeals for approval of the material known as Gold Bond Perfo-Lyte Acoustical Plaster also known as Gold Bond Perfolite Acoustical Plaster under the provisions of C26-88.0 and C26-464.0 Administrative Building Code.

Purpose

The material is used as an incombustible decorative interior surface finish for sound absorption.

Description

The material is composed of Gold Bond E-Z Soak Hydrated Lime, incombustible fibers and a foaming agent. It requires only the addition of water for use and may be applied over dry plaster basecoats.

Inspection and Test

Samples of the material were inspected by Asst. Engr. J. A. Darts, Committee on Test. The material also met the requirements of C26-88.0 as to incombustibility.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval for voluntary use of the material known as Gold Bond Perfo-Lyte Acoustical Plaster also known as Gold Bond Perfolite Acoustical Plaster, as an incombustible acoustical plaster having met the requirements of C26-88.0 Administrative Building Code on condition that this material shall not be used in lieu of gypsum-plaster or cement plaster where fire resistive construction is required, but the material may be used as an acoustical treatment when installed in addition to the required amount of gypsum or cement plaster.

Re: Calendar Number 485-56-SA.

Subject: Amendment to resolution as to additional models of Booster Pumps.

Red Jacket Manufacturing Co., Davenport, Iowa, requested by letter dated October 30, 1957 that the resolution adopted October 29, 1957 under Calendar Number 485-56-SA be amended so as to include additional models of booster pumps. The application was reopened by a vote of the Board January 7, 1958.

Purpose

The appliance is a submerged pump for installation in underground storage tanks at service stations.

Description

The requested models P33E1 and P50F1 are basically the same as the models approved by the Board. The changes are the length of the pump. The basic component parts are identical. The requested models have been approved by the Underwriters' Laboratory under MH6497.

Recommendation

The Committee on Test recommends that the resolution adopted October 29, 1957 under Calendar Number 485-56-SA be amended so as to include the additional models P33E1 and P50E1 Booster Pumps as manufactured by the Red Jacket Manufacturing Co., Davenport, Iowa, on condition that the requirements of the resolution adopted October 29, 1957 under Calendar Number 485-56-SA be complied with.

Subject: Federal Gas-fired Hot Water Boiler, Models VGF-A-44, VGF-A-51, VGF-A-64, VGF-A-75 and VGF-A-88.

Federal Boiler Company, Inc., New Jersey filed March 14, 1957 an application with the Board of Standards and Appeals for approval of the appliance known as Federal Gas-fired Hot Water Boiler Models, VGF-A-44, VGF-A-51, VGF-A-64, VGF-A-75 and VGF-A-88 under the Provisions of Article 12, Chapter 26 Administrative Building Code.

Purpose

The appliance is a gas-fired hot water boiler for residential and/or commercial installation.

Description

The appliance consists of the following assemblies: Boiler, Boiler Trim, Jacket and Gas Burner Assembly.

The boiler is constructed of steel plate in accordance with ASME Specifications and the jacket is of sheet steel. The burner assembly includes draft diverter "A" cock, "B" cock, aluminum pilot tubing, top plate, sheet metal burner cover, bottom cover plate on which main burner body and control are assembled, thermostat transformer and limit controls. The burner itself is a single port inshot type with a flame spreader which directs the flame to the wet base. The controls consists of a gas pressure regulator, Solenoid automatic main gas control valve or a diaphragm automatic main gas control valve.

Inspection and Test

Details of construction were examined by Asst. Engr. J. A. Darts, Committee on Test. The appliances have been approved by the American Gas Association under Certificates 4-1496.401, 4-1496.101, 4-1496.201, 4-1496.301 and 4-1496.001.

Recommendation

On the basis of the examination and the data filed by the applicant, the Committee on Test recommends the approval of the Federal Gas-fired Hot Water Boiler, Models VGF-A-44, VGF-A-51, VGF-A-64, VGF-A-75 and VGF-A-88 for use in New York City when constructed as herein described and installed in accordance with the requirements of Article 12, Chapter 26 Administrative Building Code in residential and commercial occupancies on condition that the appliance bears a label permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 271-57-SA."

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 568-57-SA.

Subject: USMC Edging Machine Model B for Producing Finished Edge on Leather.

United Shoe Machinery Corp., Boston, Massachusetts, filed July 9, 1957 an application with the Board of Standards and Appeals for approval of the USMC Edging Machine Model B for use in New York City under the provisions of Section C19-93.0 Administrative Code.

Purpose

A machine used for producing a finished edge on parts of leather shoes.

Description

This machine, about 26 inches in overall length, consists of a frame arranged to be mounted on a work bench and on which are mounted a feed mechanism drive with variable speed, an operating table, a leather-heating element and an oxygen and acetylene blowpipe assembly.

The machine is used by passing the edge of the leather beneath the heated element called the iron. The extreme outer portion of the edge passes between this heated element and a shape forming member or turning post which rolls the edge over the back on itself to give the finished effect.

Heat is supplied by a small oxy-acetylene blowpipe which is built into the machine and is fed oxygen and acetylene through rubber hose lines with regulators or reducing valves on the supply tanks. Acetylene pressure required is not over 5 pounds per square inch; Oxygen pressure not over 10 pounds per square inch.

Inspection and Test

All details of construction were examined by Asst. Engr. G. F. Sklenarik, Committee on Test.

This machine was tested and approved by the Underwriters' Laboratories, Application 35C1825.

Recommendation

On the basis of the examination and the data submitted by the applicant, the Committee on Test recommends the approval of the USMC Edging Machine Model B for use in New York City under the provisions of Section C19-93.0 Administrative Code and provided that each machine shall bear a label, permanently affixed, reading, "Approved by the Board of Standards and Appeals for use in New York under Calendar Number 568-57-SA".

Re: Calendar Number 576-57-SM.

Subject: Safetex.

Pacific Mills Industrial Fabrics, Division of Pacific Mill Domestic Corp., New York filed June 27, 1957 an application with the Board of Standards and Appeals for approval of the material known as Safetex under the Flameproofing Rules of the Board.

Purpose

The material is a compound for flameproofing fabrics.

Description

The material is based on a formulation developed by the Department of Agriculture known as THPC-BAR and is basically a mixture of phosphonium chloride and triallyl phosphate.

Inspection and Test

The material was tested on various weights of cotton fabric at the Better Testing Bureau in the presence of Asst. Engr. J. A. Darts, Committee on Test. The fabrics tested were 3.16 all cotton sheeting, 3.00 all cotton sheeting, ounce all cotton denim and 12 ounce all cotton duck.

There was no flashing, flaming or glow in any of the samples tested. The complete report is on file with and part of the record.

Recommendation

On the basis of the inspection and test and the data file by the applicant, the Committee on Test concludes that the material Safetex possesses inherent flameproofing properties and accordingly recommends the approval of this material for use as a flameproofing compound on types of material as herein described.

Tests for each specific installation or any retests thereof shall be made by the Fire Commissioner or in a Laboratory approved by him in accordance with the requirements of the Rules for Test of Flameproof Materials.

The Committee further recommends that each container in which the material Safetex is marketed or any material which has been flameproofed with Safetex shall be labeled or marked as follows: "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 576-57-SM."

REPORT OF COMMITTEE ON TEST

Calendar Number 582-57-SA.

Subject: Airco Series 5000 and 5500 Semi-Trailers and Mobile Pumping Unit—for transporting liquid oxygen, nitrogen and argon.

Air reduction Sales Company, Division of Air Reduction Company, Inc., New York filed August 1, 1957 an application with the Board of Standards and Appeals for approval of the Airco Series 5000, 5200 and 5500 Semi-Trailers and Mobile Pumping Units for the transportation of liquid oxygen, nitrogen and argon in New York City under the provisions of C19-91.0 Administrative Code.

In a subsequent letter dated January 24, 1958 the Air Reduction Company requested that the Series 5200 Semi-Trailer be withdrawn from their application as its use was being discontinued.

Purpose

Semi-Trailer tank trucks for the transportation and delivery of liquified oxygen, nitrogen or argon.

Description

The Airco Series 5000 Semi-Trailer and Mobile Pumping Unit used in the distribution of liquid oxygen, nitrogen and argon is a conventional van type semi-trailer on which mounted an insulated liquid container having a capacity of 1430 gallons and pumps for charging the liquid into the customer station.

The liquid container is of stainless steel, designed and fabricated in accordance with the ASME Code for Unfired Pressure Vessels for a pressure of 30 psi and a temperature minus 300°F and is so stamped. After a hydrostatic test one and one-half times the service pressure (45 psi), as required by the code, the vessel is subjected to an air test at 30 psi and a mass spectrograph leak test is made at the time.

The container is supported on thermally insulating trunnions inside an outer steel jacket. After fabrication this jacket is tested for leaks with air at a pressure of 15 psi. The space between the liquid container and the outer jacket is filled with a non-combustible insulating material.

In operation the liquid container on the semi-trailer is filled at the supply point with liquid oxygen, nitrogen or argon. This amount of filling is determined by a liquid level gauge and checked by weight before leaving the supply point. To prevent an excessive rise in the container during transportation a 2 inch safety valve set to relieve at 25 psi is installed in a vent line which does not contain a shut off valve. Further protection is provided by a 3 inch frangible disc located on a parallel line and designed to relieve at a pressure of 40 psi.

The outer jacket is protected against overpressure from accidental leaks by an 18 inch frangible disc set to relieve at a pressure of 10 psi. Small increases in pressure are relieved through a check valve installed separately from the frangible disc.

The semi-trailer unit is equipped with two electrically driven pumps. A centrifugal pump is used at the customer's station to charge liquid into the customer station or as a fore-pump in conjunction with a triplex reciprocating pump which is used to charge the station when the station pressure is

higher than the discharge pressure of the centrifugal pump. The maximum pressure achieved in the pumping operation is governed by the pressure in the receiver and will not exceed 270 psi.

The entire unit including the jacketed container and pumping equipment is enclosed in a conventional van type body, which is plainly marked with the name of the commodity.

All equipment such as brakes, brake reservoirs, light and warning devices comply with the Interstate Commerce Commission "Motor Carrier Safety Regulations."

The Airco Series 5500 Semi-Trailer and Mobile Pumping Unit used in the distribution of liquid oxygen, nitrogen and argon is a tank-type semi-trailer on which is mounted an insulated liquid container having a capacity of approximately 2700 gallons, and pumps for charging the liquid into the customer stations. The design of the container and the jacket is such that is self-supporting from the thermally insulating legs at the front to the trunnion at the rear.

The liquid container is an aluminum tank designed in accordance with the ASME Code for a pressure of 15 psi and temperature of minus 300°F and is code stamped. After fabrication the vessel is subjected to the following tests:

1. Hydrostatic hammer test at 22½ psi.
2. Final hydrostatic test at 30 psi.
3. Air test at 15 psi for major leaks.
4. Mass spectrograph leak test on the vessel and piping leading through the outer jacket.

The outer jacket is an aluminum shell designed and fabricated in accordance with the ASME Code. After fabrication the jacket is subjected to an air pressure test at 15 psi. The space between the inner container and the outer jacket is filled with a non-combustible insulating material.

In operation the liquid container is filled at the supply point with liquid oxygen, nitrogen or argon. The amount of filling is determined by a liquid level gauge and checked by weight before leaving the supply point. The liquid is maintained at substantially atmospheric pressure during filling and to prevent an excessive pressure rise during transportation to the customer station, a 1½" safety valve set to relieve at 15 psi is installed in a vent line which does not contain a shut-off valve. Further protection is provided by a 3" frangible disc on a parallel line and set to relieve at a pressure of 31 psi.

The outer jacket is protected against overpressure by an 18" frangible disc designed to relieve at a pressure of 10 psi.

The semi-trailer unit is equipped with an electrically driven centrifugal pump which is used to charge liquid from the container into the customer station. The maximum pressure achieved in this pumping operation is governed by the pressure in the receiver but will not exceed 270 psi.

The pump, pressure gauge, necessary valves and the connections for the filling and discharge hoses are enclosed in a cabinet at the rear of the trailer.

All equipment such as brakes, brake reservoirs, lights and warning devices comply with the Interstate Commerce Commission "Motor Carrier Safety Regulations."

The personnel operating these vehicles have been specially trained by the Air Reduction Company and are employees of the company.

Inspection and Test

These trucks were inspected by Asst. Engr. G. F. Sklenarik, Committee on Test at the Riverton, New Jersey plant of the applicant. Present were Mr. J. J. Crowe and Mr. E. C. Clark representing the applicant. The filling, unloading and safety devices were inspected and the equipment operated satisfactorily.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant, the Committee on Test recommends the approval of the Airco Series 5000 and 5500 Semi-Trailers and Mobile Pumping Units, when constructed in accordance with this report and the data submitted provided that each truck trailer shall bear a label permanently affixed reading as follows: "Approved by the Board of Standards

REPORT OF COMMITTEE ON TEST

Re: Calendar Number 58357-SA.

Subject: Arco Liquid Oxygen Station—storage and vaporization of liquid Oxygen, Nitrogen and Argon—Models 5-4, 7-8, 9-8, 9-25, 9-40, 9-100.

Air Reduction Sales Company, Division of Air Reduction Company, Inc., New York filed August 1, 1957 an application with the Board of Standards and Appeals for approval of the Airco Liquid Oxygen, Nitrogen or Argon Station, Models 5-4, 7-8/25, 9-8/25/40/100 for use in New York City under the provisions of Sections C26-191.0 and C19-91.0 Administrative Code.

Purpose

The appliance is designed to receive and store liquid oxygen, nitrogen or argon at a pressure not exceeding 270 psi and convert the liquid to a gas at a pressure not in excess of 250 psi.

Description

The gases oxygen, nitrogen and argon are obtained from the atmosphere by low temperature separation. In this system the gases are stored as liquids and vaporized to gas as required.

Liquid oxygen is a clear transparent liquid weighing approximately 71 pounds per cubic foot at atmospheric pressure; the temperature of the liquid is minus 297°F. One cubic foot of liquid oxygen will produce about 860 cubic feet of gaseous oxygen at atmospheric pressure and temperature.

Liquid nitrogen is a clear transparent liquid weighing approximately 50 pounds per cubic foot at atmospheric pressure; the temperature of the liquid is minus 320°F. One cubic foot of liquid nitrogen will produce about 696 cubic feet of gaseous nitrogen at atmospheric pressure and temperature.

Liquid argon is a clear transparent liquid weight approximately 87 pounds per cubic foot at atmospheric pressure; the temperature of the liquid is minus 302°F. One cubic foot of liquid argon will produce about 847 cubic feet of gaseous argon at atmospheric pressure and temperature.

The liquid oxygen, nitrogen and argon is discharged directly from a truck storage vessel. The storage vessel con-

sists of a liquid container fabricated of metal suitable for low temperature service which is surrounded by an outer jacket. The space between the two vessels is filled with a non-combustible insulating material and maintained under vacuum.

The liquid container is designed and constructed in accordance with the 1952 ASME Unfired Pressure Vessel Code. In addition to the pressure test required by the ASME Code, the vessel is leak tested after fabrication using a freon gas and a halogen leak detector to check the tightness of all seams.

All connections from the inner container are brought outside the outer jacket and into a control cabinet. The cabinet contains the vaporizer, valves, liquid level gauge, pressure gauges, pressure regulators and many of the safety devices.

SAFETY DEVICES—The primary safety device on the liquid container is a safety valve of the spring loaded type set to relieve the atmosphere at or below the design pressure of the container. As a secondary safety device, a frangible disc is provided which is designed to relieve at a pressure above the safety valve setting but less than the test pressure at which the vessel was tested.

Each section of piping between shut-off valves is provided with a safety valve set to relieve well below the bursting pressure of the pipe.

The outer jacket is provided with a frangible disc designed to relieve at an internal positive pressure of 10 psi.

OPERATION—Liquid oxygen, nitrogen or argon is injected into the filling connection on the unit from a liquid supply truck. The vessel is filled until the liquid level gauge register full and the liquid reaches a trycock line, at which point the injection is stopped and the valves are closed. Substantially constant pressure, somewhat higher than the delivery pressure in the pipeline, is maintained inside the liquid container. As gas is withdrawn, the pressure in the container decreases. To restore the pressure a small amount of the liquid withdrawn is converted to gas, which is returned to the container to maintain constant pressure.

As a customer uses the oxygen, nitrogen or argon, liquid flows from the storage container to the vaporizing unit where it is converted to gas at substantially atmospheric temperature. The gas then passes through an automatic pressure control valve into the customer's pipeline. Heat to the vaporizing unit is supplied by steam or hot water depending upon the type of heating services available. The required flow rate is maintained automatically up to the capacity

MINUTES

mit of the equipment. If this capacity is exceeded for long periods, the line temperature may decrease. If the temperature drops to minus 10°F. the liquid flow to the vaporizer stopped automatically until the temperature rises to the selected point. The system will return to service and function normally.

These customer stations are sometimes used for servicing hospitals. Such installations include a reserve supply of gaseous oxygen in ICC cylinders attached to an auxiliary control manifold. The reserve oxygen supply at a maximum pressure of 2640 psi is connected to the discharge piping of the bulk station through a pressure regulating valve which is set at a selected pressure lower than the discharge pressure of the bulk unit. If the pipeline pressure drops to the setting of the pressure regulating valve, the reserve system is in and supplies oxygen to the pipe line. A pressure regulated electrical switch in the piping is set at a pressure intermediate between the bulk unit discharge pressure and the reserve supply regulating valve setting and connected to suitable signals in the hospital showing the bulk system is empty or not operating properly. With this arrangement the oxygen supply to the pipeline is always maintained at the required pressure.

The numerical suffixes 4, 8, 25, 40 and 100 indicates in thousands of cubic feet per hour the maximum rated flow of gas from the unit.

Inspection and Test

Typical storage stations were inspected by Asst. Engr. F. Sklenarik, Committee on Test at the Riverton, New Jersey plant of the applicant. Present were Mr. J. J. Lowe and Mr. E. C. Clark representing the applicant.

The equipment was designed and functioned as described.

Recommendation

On the basis of the inspection and the data filed by the applicant, the Committee on Test recommends the approval of the Airco Liquid Oxygen, Nitrogen or Argon Stations, Models 5-4, 7-8, 7-25, 9-8, 9-25, 9-40 and 9-100 for use in New York City under the provisions of C19-91.0 Administrative Code.

The Committee further recommends that when these stations are installed at an industrial establishment or at a hospital, the installation shall be made outdoors and the following clear distances maintained between the station and adjacent structures. For the Model 5-4 station, at least 10 feet distant from any structure having fire resistive exterior walls with no opening in such wall less than 10 feet distant in other cases not less than 25 feet distant from an adjacent structure. That in addition no smoking, open flames or combustible material, storage be permitted in the immediate area, the area to be so posted and that the area be fenced to preclude entrance to unauthorized persons. That the piping from the station and the piping within the building shall be as required by the Fire Department. That the installation be serviced, maintained and inspected by the applicant's personnel holding certificates of Fitness issued by the Fire Department and that each appliance shall bear a permanently affixed reading as follows: "Approved by Board of Standards and Appeals for use in New York City under Calendar Number 583-57-SA."

M. A. Gensler for Armstrong Cork Company, Lancaster, Pa., filed December 31, 1957 an application with the Board of Standards and Appeals for approval of the material known as Armstrong Custom Minaboard under the provisions of C26-88.0 and C26-191.0 Administrative Building Code.

Purpose

The appliance is to be used as an incombustible acoustical ceiling board.

Description

The board is composed of mineral wool fibers bound together with fibers and starch. In the manufacture the mineral fibers are mixed with fillers and binders and with water to form a slurry, this is then sheeted out on forming equipment to a wet mat. This mat is then cut to lengths, dried at elevated temperatures, cut into boards and is then perforated and finished. The nominal sizes are 24" x 24" x 5/8" and 24" x 48" x 5/8".

Inspection and Test

The applicant has submitted a report of test conducted by Riverbank Acoustical Laboratories, Armor Research Foundation which states that the material is incombustible in accordance with Federal Specifications SS-A-118b, Paragraph 3.7.1. The complete report is on file with and is part of the application.

Recommendation

On the basis of the data submitted by the applicant, the Committee on Test recommends the approval of the material known as Armstrong Custom Minaboard for use in New York City as an incombustible acoustical ceiling board under the provisions of C26-191.0 Administrative Building Code on condition that all cartons in which the boards are marketed shall be tagged, stamped or labeled as follows: "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 1031-57-SM."

The Committee further recommends that this acoustical board shall only be used with approved suspension systems.

THE RESOLUTION—

WHEREAS, on October 31, 1944, the Board modified Objections 1, 2 and 3 issued by the Borough Superintendent, September 8, 1944 on Alt. Applic. 189/44 so as to permit the building to be used as follows: Cellar, boiler room, laundry and storage, no persons; 1st floor, kitchen, dining room and living room, library and study room used as sitting rooms in conjunction with the vacant floor occupancy; 2nd floor, chambers and bathrooms (nursing home), 16 persons and attic, operator's sleeping quarters; and

WHEREAS, one June 11, 1946 the Board permitted the occupancy of the 1st floor of one bed in the study and 2 beds in the library; and

WHEREAS, the term of the variance has been extended for periods of 2 years by resolutions adopted through April 3, 1956; and

WHEREAS, on December 3, 1957 under Calendar Number 536-44-A, Volume II, the Board modified Objection 1 issued by the Borough Superintendent, December 7, 1956 on Alt. Applic. 1952/56 so as to permit rearrangement of partitions, creation of employee's dressing rooms in the cellar and the occupancy of the 1st floor by 12 beds, 2nd floor by 16 beds

with the attic used as the operator's dwelling, under certain conditions including the installation of a sprinkler system and an approved thermostatic fire-alarm system throughout the building; and

WHEREAS, applicant states that it is now proposed to limit the occupancy of the building to 18 beds as legally existing prior to the Board's action on December 3, 1957, and it therefore requested that the requirements of the resolution dated December 3, 1957, be waived and the term of the variance as extended for 10 years by such resolution be retained.

Resolved, that the Board of Standards and Appeals do hereby amend its resolution adopted on May 28, 1946, as amended by resolutions adopted through April 3, 1956, so as to permit for a term of ten years, the occupancy permitted by such resolutions, on condition that the premises shall be maintained to the satisfaction of the Commissioner of Hospitals; that there shall be no patients above the 2nd floor and that a new certificate of occupancy shall be obtained.

and

WHEREAS, the applicant states that the premises consist of a plot, 104.93 feet frontage by 125.45 feet in depth, irregular, that the premises are presently vacant; that they were previously occupied by a one story fireproof theatre building and stores, having a frontage of 104.93 feet and a depth of 125.45 feet; that the theatre building and stores were erected under N.B. Applic. 118-1927 and under a conditional variance of the Board under Cal. No. 91-27-BZ; that the building was demolished under Applic. Dem. No. 185-1956; that it is now proposed to erect a modern gasoline service station consisting of ten 550 gallon gasoline tanks and four dispensing pumps, and a variance is requested for a period of fifteen years; that the contemplated accessory building will be one story in height, of class 3 construction, having a frontage of 60 feet, a depth of 28 feet, and contain the conjunctive uses of lubritorium, car washing, minor auto repairs, storage, office and sales; that the rear portion of the plot will be reserved for parking and storage of motor vehicles; and

WHEREAS, the applicant contends that East Burnside Avenue at this point is developed with many outmoded store buildings and the erection of this modern gasoline station accessory building will do much to enhance the appearance of the area; that there are many vacant stores within the affected area, so that the erection of more stores on the site would not only be unwarranted financially to the owner of the site but could cause a hardship to all the other store owners in the area who would be faced with additional competition and no increase in buying, since the entire area is fully developed; that the large parking area provided for at the rear of the gas station will do much to help alleviate the serious parking problem in the area and will also provide some parking for the stores within the affected area; that the land is high in assessed value and it is therefore mandatory that the owner develop this site in the only suitable manner, as proposed, in order to give him an equitable return on his investment and help to pay City real estate taxes; that there are no other gas stations within the affected area so that the erection of this gas station will provide a necessary and vital service to this community; and

WHEREAS, the applicant states that the present owner has held title to the property since May 19, 1952 and that the assessed valuation of land is \$45,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f, e, h and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Sections 7f and 7e, for a term of fifteen years, to permit the premises to be occupied as a gasoline service station and uses accessory thereto, as proposed and indicated on plans filed with this application, marked "Received May 2, 1957" 3 sheets and "November 26, 1957", 1 sheet, *on condition* that the premises shall be leveled substantially to the grade of East Burnside Avenue, and constructed and arranged as indicated on such plans; that the masonry brick walls of the former building may remain, if suitably coped, as protection to the adjoining owners on the building lines to the east and west; that where such walls do not occur or are not at least 5' 6" in height and there are no masonry walls of adjoining buildings existing on the lot lines, there shall be constructed a brick

masonry wall not less than 5 feet 6 inches in height; that the premises shall be arranged and designed as indicated on such plans; that the accessory building shall be of the design and location as shown on plan marked "Received November 26, 1957", and faced with face brick on all sides and shall have no cellar; that entrances to toilet rooms shall be arranged so as not to be contiguous; that pumps shall be of a low approved type, erected not nearer than 15 feet to the street building line of East Burnside Avenue; that the number of gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that the premises where not occupied by accessory building and pumps shall be paved with concrete or asphalt; that under section 7i there may be minor repairs with hand tools only for adjustments, maintained solely within the accessory building; that curb cuts shall be restricted to two on East Burnside Avenue, where shown, each not over 30 feet in width and with no portion of a curb cut nearer than 5 feet to a side lot line as prolonged at right angles thereto; that signs shall be restricted to signs attached to the front facade of the accessory building and to the illuminated globes of the gasoline pumps, excluding all roof signs and temporary signs, but permitting the erection toward the center of the premises of a post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale, and permitting such sign to extend not more than 4 feet beyond the building line *that under section 7h for a similar term, there may be permitted the parking and storage of motor vehicles so as not to interfere with the servicing of the station*; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits required shall be obtained and all work completed and a certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

WHEREAS, the district maps accompanying the zoning resolution show that the site and 4th Avenue are in a business use, C area, class 1 $\frac{1}{4}$ height district; 88th Street and 4th Street are in business and unrestricted use, C area, class 4 height district; that this designation has not been changed since 1916 and no amendment is pending to change the present zoning; and

WHEREAS, the decision of the Borough Superintendent, dated January 31, 1957 acting on N.B. Applic. 2499-56, reads:

"1. Proposed building and premises, in a Business zone, to be used for Gasoline selling station, lubritorium and minor repairs for adjustments with hand tools only is contrary to Art. II, PP. 4a, subsections 29 and 46 of the Zoning Resolution."

WHEREAS, the applicant states that the premises consist of a plot, 85 feet and 53 feet 3 inches frontage by 105 feet irregular in depth, presently unimproved; that it is proposed to erect a one story building of class 3 construction, to be used as a gasoline selling station, lubritorium and for minor repairs for adjustments with hand tools only; that the building will be faced with face brick and will be of modern design; and

WHEREAS, the applicant contends that the character of the development of the properties in the neighborhood will be harmonious to a great extent, with the proposed usage as can be readily seen on the 500 foot radius diagram, indicating a number of motor vehicle repair shops, gasoline selling stations, etc.; that Fourth Avenue is an artery of heavy traffic and the use of the Fourth Avenue frontage as a gasoline selling station would serve the needs of passing motorists; that the granting of this application would do substantial justice in that it would enable the owner to obtain the beneficial use of the premises without harming anyone entitled to the protection of the zoning resolution, whereas a denial would deprive the owner of its beneficial use of the property; that the future welfare of the neighborhood is amply protected by the proposed limitation of the gasoline selling station permit to a term of fifteen years; and

WHEREAS, the applicant states that the present owner has held title to the property since January 19, 1951 and that the assessed valuation of land is \$13,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7f to permit the premises to be occupied as a gasoline service station and accessory uses for a term of fifteen years on condition that the premises shall be constructed and arranged substantially as indicated on plans filed with this application marked "Received February 25, 1957", 3 sheets, and "November 1, 1957", one sheet, on condition that the building shall be faced with face brick and shall be of the dimensions shown on such plans; that the number of gasoline storage tanks shall not exceed twelve 550 gallon approved tanks; that three pump islands containing three pumps each shall be erected not nearer than 15 feet to the street building line; that the area of the premises, where not occupied by buildings and pumps, shall be surfaced with concrete or asphaltic pavement; that the masonry wall shown 2 feet in height shall be surmounted with a steel picket fence 3 feet 6 inches in height, to a total height of 5 feet 6 inches; that the parking of cars awaiting service may be permitted where such parking will not interfere with the proper servicing of the station; that under Section 7i, for a similar term, there may be minor repairs of motor vehicles with hand tools only for adjustments maintained solely within the accessory building; that signs shall be limited to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection at the intersection of 89th Street and 4th Avenue of a post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale, which sign may extend beyond the building line for a distance of not more than four feet; that such portable fire extinguishing appliances shall be maintained as the Fire Commissioner shall direct; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

RULES

Fire Drill Rules, Adopted by the Board of Standards and Appeals, October 5, 1922

(593-23-SR)

DEFINITION OF "FIRE DRILL"

The method and practice of the systematic and orderly vacating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the nearest safe means of exit—and the use of fire appliances which shall be provided for the extinguishing or retarding of fire and the safeguarding of human life.

Rule 1.

In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 thereof and in any other building in which such drills are required by the Fire Commissioner pursuant to the power conferred in section 491 of the New York City Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenants shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter in the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present; if any are found to be absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captain's) Foreman's orders shall be final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by the Fire Commissioner in writing from Fire Commissioner.

Rule 4. Duties of Searchers.

The MALE AND FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, to leave the premises. They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET-ALARM-BOX-RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders and if his services are not required he shall promptly leave the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and send in the fire alarm.

RULES

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the Fire Department, any fire that may occur. When it is necessary for the fire brigade to respond to different alarms in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways, and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion. EXIT GUARDS shall remain at their stations until all the occupants of the building have passed their station. When close their doors and pass out of the building. Upon signal for the occupants to return, EXIT GUARDS shall return to their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all aisles and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interference with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall consist of all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the persons on the premises engaged at work for a factory,

and drills shall be conducted at least twice, each year in which all of the persons on the premises shall participate simultaneously.

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNERS, LESSEE OR TENANT, who supervises the FIRE DRILL at the building shall submit to an examination by the Division of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs, requiring winding are rewound after each alarm and kept in normal condition for operation.

Rule 11. Duties of Engineer.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc. are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills, showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the power conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stair hall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

RULE 1. Permit.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator car, in English, and also in such other language or languages—as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon the expiration until a reinspection of the premises for

which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which the hours between which, and the place or places in such factory where smoking may be permitted, and the permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

(Continued from Front Page)

no sufficient proof that defendant was the owner of the property on that date.

"As to the first ground, it is enough to say that these continuing violations were clearly shown to have existed before after the date alleged.

"As to the second ground for reversal, we find in this record sufficient proof of ownership by this defendant as of the date. That fact was established by putting in evidence a deed to defendant of these premises, which deed was dated and recorded several years before the violations. Under the established presumption of continuance of ownership that was sufficient (see *Wilkins v. Earle*, 44 N.Y. 172, 192, and *Nehasane Park v. Lloyd*, 25 Misc. 207, 211, affd. without opinion of this point at 45 App. Div. 631 and 167 N.Y. 431; *Richardson v. Evidence* (7th ed.), Sec. 78. And that, of course, is the customary way of establishing prima facie the ownership of property (see *City Prac. Act*, Sec. 384; *Code Crim. Proc.*, Sec. 392, 1st sentence; *Abbott's Trial Evidence*, Vol. 3, pp. 1227, 1347; *Warren Wead*, *New York Real Property*, Vol. 1, Sec. 7.02, p. 324). Defendant never in any manner at the trial suggested that this proof was not sufficient or that he was testing the issue of ownership, and it was not until appeal that he made this point for the first time. We think it quite unreasonable to reverse a conviction on such a ground, particularly since there is other evidence in the record that defendant was the owner in 1952, about a year before these violations.

"On this appeal defendant asserts other arguments against the validity of the convictions but we have examined all of the points and find that none of them is sustained.

"The order should be reversed and the judgment of conviction reinstated."

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection
with which court proceedings are pending or in progress,
unless exception is granted by the chairman, nor accepted
which is not filed within thirty days from the date of the
action of the Administrative Official.

Any communication purporting to be an appeal or appli-
cation shall be regarded as a mere notice of intention to seek
relief until it is filed on the form required by the rules of
this board.

Upon receipt of any such communication the writer will
be supplied with the official forms for presenting his appeal
or application.

At the time of filing an appeal or application, the appel-
lant or applicant shall forward a signed notice of appeal
addressed to the administrative official either borough super-
intendent of buildings or fire commissioner and file with
this board a duplicate of said notice.

Appellants and applicants are advised that their plans must
indicate the points of the compass so as to establish the true
location and position of the property, the subject of the
appeal or application.

Appeals and applications will be simplified and disposition
of same expedited by conforming to these directions.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on September 24, 1957 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on February 4, 1958 after due notice by publication in the Bulletin; laid over to March 25, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Fairview Avenue are in a residence use, C area, class 1 height district; Harmon Street and Greene Avenue are in residence and business use, C area, class 1 height districts; Woodward Avenue is in a business use, C area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent dated August 20, 1957 acting on Alt. Applic. 1036-57, reads:

"1. The change of proposed occupancy from factory for manufacturing of paper boxes on first floor and factory for manufacturing clothing on second floor to factory, knitting mill, office, storage and shipping on first floor and factory, knitting mill, storage, office and finishing department on second floor in a residence use district is contrary to Art. II Sec. 3 of the Zoning Resolution and contrary to Board of Stds. and Appeals Resolution BZ 1366-17 and is referred back to the Board for reconsideration."

and

WHEREAS, the applicant states that the premises consist of a plot, 75 feet frontage by 100 feet in depth; that it is proposed to change the use of an existing legal factory building from the manufacture of paper boxes on the first floor, to the manufacture of clothing; and

WHEREAS, the applicant states that the existing Certificate of Occupancy No. 32547 issued April 18, 1945 reads as follows: cellar—boiler room; first floor—manufacturing of paper boxes; second floor—factory for manufacture of clothing; that these premises were the subject of previous appeals under Cal. No. 1366-17-BZ, Vol. I and Vol. II; that records indicate that the Board granted an appeal on October 30, 1917 to permit the increase in area and height of the existing one story factory building used for the manufacture of metal hospital furniture, and on November 8, 1944 the Board, in acting on Cal. No. 1366-17-BZ, Vol. II granted a variance in the use district regulations to permit the first floor to be used for the manufacture of pasteboard boxes, and the use of the second floor, in accordance with an amended resolution of January 23, 1945, for the use of clothing manufacture; and

WHEREAS, the applicant further states that the present owner purchased these premises in January, 1957 relying on the advice of his attorney to the effect that the present Certificate of Occupancy, which indicated factory use throughout the building, permitted him to use the entire building for the manufacture of clothing—knitting mill; that the owner, after purchasing the building, therefore estab-

lished his present occupancy of clothing manufacture—knitting mill—on both floors; and

WHEREAS, the applicant contends that there is pending an appeal under Cal. No. 611-56-A, filed by an adjoining property owner, requesting that the existing Certificate of Occupancy be revoked; that records indicate that this building was erected some time in 1898 and altered in accordance with the Resolutions of the Board, and the present owner is conducting his business in a most orderly manner; that he has reason to believe that the adjoining property owner at 1926 Harman Street, block 3388, lot 26, is endeavoring, for no good reason, to harass the present owner and occupant of the subject premises; that the business is conducted in a most orderly manner and it is surely far superior to the former occupancy of a paper box factory on the first floor with its attendant fire hazard; and

WHEREAS, the applicant states that the present owner has held title to the property since January 15, 1957; that the assessed valuation of land is \$7,500 and of the building \$28,500 making a total of \$36,000; that the building was erected June 27, 1898; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7c, to permit the change in use of an existing legal factory building from the manufacture of paper boxes on the first floor to the manufacture of clothing, as proposed and indicated on plans filed with this application, marked "Received August 29, 1957" 4 sheets, *on condition* that all openings to the northeast shall be of glass block as approved for exterior walls; that during the term of this variance there shall be no other use except the knitting mill, formerly the manufacture of paper boxes, as approved by the Board under Cal. No. 1366-17-BZ, Vol. I, and amended under Vol. II through January 23, 1945; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits, including a new certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

APPLICANT—Betty Foernsler, adjoining owner.

OWNER OF PREMISES—John M. Bauer and Frances Haver.

SUBJECT—Application August 29, 1956—Appeal from a decision of the Borough Superintendent re review of Borough Superintendent's decision—re commercial use in residence district.

PREMISES AFFECTED—1920 Harman Street, south side, 165 feet west of Fairview Avenue, Block 3388, Lot 21, Ridgewood, Borough of Queens.

APPEARANCES—

For Applicant: Sidney S. Levine, Betty Foernsler and Lillian Fleischmann.

For Owner: Charles M. Spindler.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: 0
Negative: Vice Chairman Keating, Commissioner Kleinert and Commissioner Sleeper 3
Absent: Chairman Murdock and Commissioner Foley ..2

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated August 29, 1956, reads:

"This is in answer to your letter of August 6, 1956, which contained a petition signed by sixty-seven (67) citizens protesting the rebuilding after a fire of a commercial building known as 1920 Harman Street, Ridge-

wood, Queens, which location is in a Residence Use District.

Our records indicate this building was erected for factory use in 1898. In 1917 this building was enlarged in area and increased from one-story to a two-story factory building under a modification of the Zone Resolution granted by the Board of Appeals, as premises were located in a Residence Use District. In 1944 a further modification was granted by the Board of Appeals to permit a change in the type of manufacturing on each floor of this building located in a Residence Use District.

"Section 25 of the Zone Resolution reads as follows:

'Restoration of Existing Buildings: Nothing in this resolution shall prevent the restoration of a building wholly or partly destroyed by fire, explosion, Act of God or Act of the Public Enemy, to prevent the continuance of such use of such building or part thereof as such use existed at the time of such destruction of such building or part thereof.'

Under the law, I am compelled to issue a permit to rebuild this building and permit the existing use to remain."

and

WHEREAS, the applicant, the owner of 1926 Harman Street, states that this is an appeal from a determination of the Borough Superintendent, issuing a permit to rebuild a commercial building in a residence district; and

WHEREAS, the applicant contends that in 1898 a commercial building was erected on 1920, 1922 and 1924 Harman Street and known as 1920 Harman Street; that the block on which this premises was situated was zoned in 1926 as a residential use district and still remains as such; that on June 26, 1956, the building in question was destroyed by fire and more than 50% of said building exclusive of foundations was destroyed and said building cannot be reconstructed nor can a commercial building be erected pursuant to Section 6, Article 2 of the Zoning Resolution which became effective May 10, 1956; that at the time of enactment of the Zoning Ordinances in 1916, the building was used exclusively for the manufacture of surgical and hospital furniture and without any permits having been issued, the owners changed the nature of the use to a paper box factory which became dangerous as a fire hazard from its inception and continued such unlawful use until the fire on June 26, 1956; that all the machinery of the paper box factory has been substantially destroyed or removed, but the owners intend to continue to rebuild and use the building as a paper box factory in violation of law; that entire block and an area within a radius of 1000 feet is zoned for residence use and there are no commercial buildings within said radius other than one that the owners of 1920 Harman Street intend to rebuild; that during the operation of the paper box factory it was a nuisance to the entire neighborhood because of the noise of loading and unloading trucks constantly and the dirt emanating therefrom, and a petition protesting against the issuance of a certificate of occupancy was signed by 67 owners and tenants in the vicinity; and

WHEREAS, the applicant requests that the determination of the Borough Superintendent to issue a permit to rebuild the commercial structure be reversed and vacated; and

WHEREAS, the applicant states that at the time of filing this appeal the premises were owned by the 1920 Harman Street Corporation and that on January 15, 1957, a deed was recorded in the Register's Office, Queens County conveying the property to John M. Haver and his wife Frances Haver; and

WHEREAS, the Board of Appeals on October 30, 1917 acting on Cal. No. 1366-17-BZ, Vol. I, granted a variance of the use district regulations to permit the increase in area and height of the existing 1-story factory building used for the manufacture of metal hospital furniture, on condition that the building shall not be used for any form of manufacturing other than that conducted therein and that the building be not further enlarged; and

MINUTES

WHEREAS, on November 8, 1944, the Board in acting on Cal. No. 1366-17-BZ, Vol. II granted a variation of the use district regulations so as to permit in lieu of the use previously permitted, that the 1st story may be used for the manufacture of pasteboard boxes and the use of the second floor, subject to further consideration by the Board after submission by the owner of the name and address of proposed tenant; and

WHEREAS, on January 23, 1945, the Board amended its prior resolution so as to permit the use of the 2nd story by the White Cloak and Suit Co. with no work performed on Saturday and Sunday; and

WHEREAS, Certificate of Occupancy #32547 was issued April 18, 1945, permitting the use and occupancy of the building as follows: cellar—boilerroom; 1st floor—manufacturing of paper boxes, 30 persons; 2nd floor—factory for manufacturing clothing, 45 persons, all in accordance with resolution adopted by the Board under Cal. No. 1366-17-BZ.

Resolved, that the decision of the Borough Superintendent, dated August 29, 1956 be and it hereby is *affirmed* and that the application be and it hereby is *denied*, in view of the action taken by the Board this day under Cal. No. 1366-17-BZ, Vol. III, granting a variance.

WHEREAS, this application was reopened as Vol. IV on February 13, 1957 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on March 4, 1958 after due notice by publication in the Bulletin; laid over to March 25, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Kosciusko Street are in retail and residence use, C area, class 1 height districts; DeKalb Avenue and Lewis Avenue are in a retail use, C area, class 1 height district; that originally use along DeKalb Avenue and Lewis Avenue was unrestricted; that in 1924 along DeKalb Avenue it was changed to business use and in 1951 it was changed to a retail district; that on January 17, 1953 a portion of Kosciusko Street was placed in a residence district and this change took in a part of this lot 25 feet front by 100 feet deep at the southwest corner; and

WHEREAS, the decision of the Borough Superintendent, dated January 7, 1957 acting on N.B. Applic. 2297-56, reads:

"1. Proposed building and premises partly in a Retail and partly in a Residence zone to be used for gasoline service station, auto washing (non automatic), lubrication, office, sale of auto accessories, minor repairs with hand tools only and parking and storage for more than 5 motor vehicles are contrary to Art. II, PP. 3 and

PP. 4-A of the Zoning Resolution. Note premises were subject of the Bd. of Standards and Appeals variance under Cal. #344-38-BZ."

and

WHEREAS, the applicant states that the premises consist of a plot, 150 feet frontage by 225 feet in depth; that it is proposed to rehabilitate the present lot with a modern, up-to-date gasoline service station and to permit the parking of cars in the retail use portion thereof, not using that small portion in the southwest corner now zoned for residence use; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e, f, h and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Sections 7 Subsections e, f, h and i to permit the premises to be occupied as a gasoline service station and accessory uses for a term of fifteen years substantially as proposed and shown on plans filed with this application marked "Received January 29, 1957," three sheets, as amended by revised plans marked "Received February 24, 1958", one sheet, *on condition* that the premises where not occupied by accessory building and pumps shall be leveled to the grade of the abutting streets and shall be surfaced with concrete or asphaltic pavement; that the accessory building shall be of the design and arrangement as shown on such plans and shall be faced on all sides with face brick; that woven wire fences of the chain link type shall be erected on a masonry base to a total height of not less than five feet six inches as shown except for the masonry fence existing on the Kosciusko Street side, which shall be maintained; that such fence shall be fitted with gates, as shown, on the DeKalb Avenue side; that curb cuts shall be restricted to two curb cuts to DeKalb Avenue, as shown, namely two of 30 feet in width and one 16 feet in width, and three curb cuts not exceeding 30 feet in width each to Lewis Avenue, and not closer than five feet to an intersection; that signs shall be restricted to permanent signs attached to the facade of the accessory building and to the illuminated globes of the pumps excluding all roof signs and temporary signs but permitting the erection at the intersection of DeKalb and Lewis Avenues of a post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than four feet; that under Section 7h there may be parking of motor vehicles for a similar term; that all laws, rules and regulations applicable to the premises and occupancy shall be complied with where not inconsistent with the terms of this resolution; that under Section 7i for a similar term, there may be minor automobile repairs with hand tools only for adjustments maintained solely within the accessory building; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

WHEREAS, on January 22, 1952, this application (Volume II) was granted by the Board on certain conditions, under Section 7e of the Zoning Resolution, to permit in a business use district, the change in occupancy from public market to laundry (curtain cleaning business), affecting premises 1573-1575 McDonald Avenue, east side, Block 6564, Lot 58, 140 feet north of Avenue N, Borough of Brooklyn; and

WHEREAS, this applicant requested reopening of this application and extension of the term of variance, which had expired by time limitation January 22, 1957; and

WHEREAS, this application was reopened on February 18, 1958 and set for hearing on March 25, 1958 at 10 A. M., subject to the regular procedure, waiving all requirements except a new decision of the Borough Superintendent and two publications in the Bulletin; and

WHEREAS, the decision of the Borough Superintendent, dated March 5, 1958, acting on amendment to Alt. Applic. 4045/51, reads:

"1. Proposed change of use of two story class 3 structure, in a Business district, to dry cleaning and laundry on the first floor and storage of materials awaiting delivery on the second floor is contrary to Art. II, P.4 a subsections 51 and 53 of the Zoning Resolution.

"(Note—premises were subject of a Bd. of Standards and Appeals variance granted conditionally for a term of 5 years expires Jan. 22, 1957)."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 22, 1952, as thereafter amended by resolutions adopted through April 14, 1953, only insofar as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"granted under Section 7c for a term of five years to permit . . . that other than as herein amended the resolution above cited shall be complied with in all respects; and that all permits, including a new certificate of occupancy, shall be obtained and all work completed within six months from the date of this amended resolution."

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on June 25, 1957 subject to regular procedure, to consider a new proposal; and

WHEREAS, a public hearing was held on this application on March 4, 1958 after due notice by publication in the Bulletin; laid over to March 11, 1958, for inspection and decision; hearing closed; then to March 25, 1958, for further inspection and decision; hearing previously closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Cornelia Street, Bleeker Street, West 4th Street and Jones Street are in a residence use, C area, class 1¼ height district; and

WHEREAS, the decision of the Borough Superintendent, dated April 30, 1957 acting on Alt. Applic. No. 1665-56, reads:

"8. Proposed changes of non-conforming uses from garage for more than 5 cars to retail store and bakery is not permitted in a residence use district.—Sec. 3 of Z.R.

9. Structural alteration of 2 buildings with change of use is contrary to Sections 3 and 6 of Z.R.; also, non-conforming use is being extended into #19 Cornelia St.

10. Use of 2nd and 3rd floors of #19 Cornelia St. for "mfg., offices and storage" is contrary to Sec. 3 of Z.R. and B.S. & A. Res. 145-47-BZ, Vol. II as amended 3/22/55, Bul. #13, Vol. XL, since Board resolution requires that 2nd and 3rd floors remain vacant."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 feet 3 inches frontage by 95 feet in depth; that it is proposed to obtain a variance in order to extend the bakery business which is now in No. 17 Cornelia Street, to No. 19 Cornelia Street so that both buildings would be used for the processing of products baked on the premises, prepared for delivery to retailers and retailed on the premises; that it is further proposed to construct a new enclosed stair in No. 19, leading from the cellar to a bulkhead in roof; that the freight elevator in this building will be removed; that in No. 17 a new enclosed stairway will be constructed to lead from cellar to first floor; that new horizontal openings will be cut in party wall at each floor to provide ingress and egress; that the removal of the existing unsightly garage doors at No. 19 and the bricking up of these openings on the street side would be an improvement to the neighborhood; that the front portion of the first floor of No. 19 will be used for loading and unloading, utilizing the existing curb cut; and

WHEREAS, the applicant states that No. 17 Cornelia Street was constructed as a bakery, private dwelling, one family and stable in rear under N.B. Applic. 790-1906; that in 1913 the stable was eliminated and storage space was substituted under Alt. Applic. No. 1127-1913; that in 1916 the entire building was converted to a bakery and storage under Alt. Applic. No. 1830-1916 thereby eliminating the one family dwelling; that in 1938, under B.N. Applic. No. 2761-1938 a new store front was constructed; that No. 19 Cornelia Street was erected as a stable under N.B. Applic. No. 230-1891, then altered into a stable and garage under Alt. Applic. No. 719-1909; that it was again altered for use as wagon storage and stable under Alt. Applic. 2415-39 and Certificate of

Occupancy No. 25468; that under Alt. Applic. 1529-44 and Cal. No. 145-47-BZ, the occupancy was as follows: cellar—storage; first floor—garage for ten motor trucks; second and third floors—vacant—granted by the Board for a period of five years; Certificate of Occupancy No. 39395; that the use was extended an additional five years to March 22, 1960—Certificate of Occupancy No. 44044; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is granted under Section 7e for a term of five years, to permit the building to be occupied for the uses shown as proposed in conjunction with the adjoining building as a bakery and with connecting doors as shown, substantially as proposed and as indicated on plans filed with this application, marked "Received May 28, 1957", 12 sheets, and "January 9, 1958", 4 sheets, on condition that there shall be no storage exceeding the floor loading of 75 pounds per square foot on the upper floors; that such floor loads shall be posted; that the cathead on the front of the building shall be removed; that the existing elevator in the building shall be removed as proposed; that the front of the building shall be restored and painted and altered as proposed and shown with enclosed stairs as proposed in both buildings; that the oven in the cellar as proposed shall be subject to the approval of the Department of Health; that all flour and heavy material used in connection with the bakery shall be stored in the cellar or on the first floor of the building where approved floor loading permits; that signs shall be restricted to permanent signs attached to the building as would be permitted if the building were located in a local retail district; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto, including exits, other than as amended by this Board this day under Cal. No. 532-57-A; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on November 26, 1957 subject to regular procedure, to consider extension of use; and

WHEREAS, a public hearing was held on this application on March 4, 1958 after due notice by publication in the Bulletin; laid over to March 11, 1958, at the request of an objector, the applicant concurring; no further requests for adjournment considered; then to March 25, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Pleasantview Street and 73rd Place are in business and residence use, D area, class 1 height districts; Metropolitan Avenue is in a business use, D area, class 1 height district; 66th Drive is in a residence use, D area, class 1 height district; that as of July 25, 1916 the portion of the property between Metropolitan Avenue and the center line of the block between Metropolitan Avenue and 66th Drive was in a business use district and the remainder was in a residence district; that on April 23, 1937 the use district was changed to its present designation; that the height and area designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the decision of the Borough Superintendent dated July 11, 1957 acting on N.B. Applic. 7248-52, reads:

"1. The extension of use of the premises as a factory and storage warehouse by erection of an extension partly in a residence use district and partly in a business district is contrary to Art. II, Sec. 3 of Zoning Resolution and contrary to Board of Standards & Appeals approval granted under Cal. No. 36-53-BZ and is hereby returned to the Board for reconsideration."

and

WHEREAS, the applicant states that the premises consist of a plot, 210 feet frontage by 200 feet in depth, presently improved with a two story brick factory as approved under Cal. No. 820-48-BZ and attached thereto, one story frame and brick sheds, shops, and residence—old Lot No. 41—which had a frontage of only 100 feet; that the balance of the site—easterly 110 feet, old Lot No. 34—consists of one story warehouse erected under Cal. No. 36-53-BZ, and a two story frame building; that it is proposed to erect a three story and cellar addition to both the heretofore granted applications; that this will eliminate all the dilapidated, old buildings on the site and will provide for one continuous 210 foot industrial improvement, with adequate off street loading and parking, as the buildings will be approximately 52 feet back from Metropolitan Avenue; and

WHEREAS, the applicant contends that this improvement is sorely needed by the owner so that he can efficiently conduct his business and that since the zoning line of Metropolitan Avenue frontage is reduced by a proposed 34 foot widening, it would be a hardship to limit the building to the business portion only; that the rear lot line of this property is approximately 14 feet higher than the residential property to the north and it is separated by a retaining wall and

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated November 12, 1957 on amendment to N.B. Application 1675/55, reads:

"3. Proposed construction in the bed of a mapped street is contrary to General City Law #35."

and

WHEREAS, the applicant states that the premises consist of a lot 230 feet and 210 feet 2½ inches front by 100 feet in depth, upon which it is proposed to erect a one story building, 13 feet in height, 105 feet front by 50 feet in depth, of class 3 construction, used and occupied as permitted by the Board under variance granted under Calendar Number 673-55-BZ; and

WHEREAS, the applicant states that the existing gasoline station and auto laundry are in operation under temporary certificate of occupancy in accordance with the resolution adopted by the Board under Calendar Number 673-55-BZ and

WHEREAS, the applicant states that it is now proposed to extend the lot westerly into the bed of East 58th Street until such time as street will be legally opened; and

WHEREAS, the applicant contends that East 58th Street is not legally opened and cannot be used for traffic as there are buildings extending into East 58th Street in Block 4705 Lots 20 and 22; that East 58th Street is not paved north of Snyder Avenue; that there is an earth embankment approximately 6 feet high retaining a plot of ground and a building located in Block 4706, Lot 26; and

WHEREAS, the applicant states that it is proposed to erect an approved woven wire fence on the lot line in the bed of East 58th Street and provide openings into the gasoline service station as indicated on plans filed with this application; and

WHEREAS, the applicant states that there is no proposal on behalf of the owners to charge the city for any improvements within the portion eventually to be taken for street widening purposes; and

WHEREAS, the applicant filed a copy of communication dated April 29, 1957, to the owner from the Department of Traffic, refusing to permit the relocation of the existing bus stop on the northeast corner of Church Avenue and Kings Highway and recommending that the entrance to the premises be placed on East 58th Street; and

WHEREAS, in a report of the Chief Engineer of the Borough of Brooklyn, dated April 10, 1957, it was stated that East 58th Street, south of Church Avenue, has not been acquired by the city for street purposes, nor has any opinion been rendered by the Corporation Counsel as to its dedication to public use; that the portion of the street in question is not defined on the ground and not in public use; and that the office of the Borough President has no objection to the use of the easterly half of East 58th Street abutting Lot 36 provided that no buildings are erected in the proposed extension within the street widening area and that in the event of condemnation for street purposes, any award will be limited to the value of the land only; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the Borough Superintendent acting on amendment to N.B. App. 1675-55 Objection No.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on February 4, 1958 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on March 25, 1958 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Rockaway Boulevard are in a retail use, D area, class 1 height district; 142nd Street and 143rd Street are in retail and residence use, D and E-1 area, class 1 and class 1½ height districts; Bascom Avenue is in a residence use, E-1 area, class 1½ height district; that as of July 25, 1916 the premises was zoned for business use and on May 23, 1957 the present retail use designation became effective; that the height and area designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the decision of the Borough Superintendent, dated November 15, 1957 acting on amendment to N.B. Applic. No. 5499-55, reads:

"1. In a retail district the proposed rearrangement and extension of area of use of the proposed gasoline service station, lubritorium, minor repairs with hand tools only, car washing (non-automatic), office storage and sales of auto accessories, parking of more than five cars is contrary to Art. 2, Sect. 4-A of the Zoning Resolution and is contrary to the conditional variance granted by the Board of Standards and Appeals under Cal. 68-56-BZ and must be referred back to BSA for its determination.

Note: Use district designation changed from business to retail 5/23/57.

3. Sign & light standard contrary to Art. II Sec. 4 (49) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 120 feet frontage by 95.28 feet and 95.24 feet in depth; that the plot consists of four tax lots in block 12059, designed as official lots 7, 9, 12 and 14, all of which

are described as lot No. 7 for the purpose of this application; that it is proposed to enlarge the site heretofore approved by the Board—official lots 7 and 9—to include official lots 12 and 14, so as to permit the proposed use on a plot having a frontage of 120 feet on Rockaway Boulevard, instead of 70 feet as heretofore approved; that it is also proposed to enlarge the building by adding an additional bay and to make incidental rearrangements by relocating the building, the easterly curb cut, pump islands, easterly fence, etc.; that except for the above mentioned enlargement and rearrangement, no change from the heretofore approved use is proposed for the erection and maintenance of a gasoline service station, lubritorium, minor repairs with hand tools only, non-automatic car washing, office, storage and sales of auto accessories, parking of more than five cars, with sign and light standard, for a stated term of fifteen years; and

WHEREAS, the applicant states that on October 23, 1956 the Board under Cal. No. 68-56-BZ unanimously granted an application for a zoning variance, affecting official lots 7 and 9, consisting of a plot having a frontage of 70 feet on Rockaway Boulevard and 95.28 feet on 142nd Street, to permit the erection of a gas station and customary incidental accessory uses; that on the same day, the Board granted on condition an appeal under Cal. No. 6956-A under Section 35 of the General City Law to permit on condition the use of that portion of the premises within a mapped street—approximately 5 feet in depth of the 142nd Street frontage; that on November 27, 1956 the design of the building was approved under the BZ case and the A case was amended to conform therewith; and

WHEREAS, the applicant contends that a grant of the instant application would be in harmony with the intention of the Board when it unanimously granted an application on October 23, 1956 under Cal. No. 68-56-BZ to permit on official lots 7 and 9 the erection and maintenance of a gas station and customary, incidental accessory uses for a stated term of fifteen years; that before the Board granted the application on October 23, 1956, the Chairman of the Board stated as follows:

"... If the Board grants this, which we are planning to do, we would like to see it larger if possible. Then he (the owner) probably wouldn't build until he could acquire the adjoining lot or lots. Then you would come in for an amendment..."

that thereafter the present owners acquired title to adjoining lots 12 and 14 from The City of New York on October 29, 1957 and filed an amended application in the Department of Buildings to enlarge the plot by including the said adjoining lots as part of the site of the proposed use, and to make the building larger by adding an additional bay; that the heretofore approved building would have occupied 21% of the area of the heretofore site, whereas the proposed building with the proposed additional bay will occupy less than 16% of the area of the enlarged site; that therefore more light and ventilation will be provided than would be available if the premises were developed to the full area of coverage—62%—permitted under the Zoning Resolution; that for the reasons set forth in the original application and for the reasons set forth in this amendatory application, it is respectfully submitted that a grant of this amendatory application would do substantial justice; and

WHEREAS, the applicant states that the present owners have held title to the property since November 14, 1956 and October 27, 1957 and that the assessed valuation of land is \$12,400.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 23, 1956 under Vol. I of this calendar number, by adding thereto:

"that in the event the owner has acquired additional lot numbers 12 and 14 so as to enlarge the subject site and provide a revised arrangement, as indicated on plans filed with this application, marked 'Received December 12, 1957', 4 sheets, such rearrangement and extension of area of the proposed gasoline service station

may be permitted, *on condition* that the requirements of the resolution above cited shall be complied with and with similar conditions where applicable to the extended area and the plans herein referred to shall be carried out; that the term of this variance under section 7f may be for fifteen years from the date of this *amended* resolution; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated November 15, 1957 on amendment to N.B. Applic. 5499/55 reads:

"2. Conditional approval of BSA under Cal. 69-56-A under Section 35 General City Law, permitting proposed gasoline station lying partially in the bed of a mapped street (142 St.) was subject to conditions imposed by BSA under Cal. 68-56-BZ by Resolution adopted 10/23/56 as amended 11/27/56, and any change in such condition must be referred back to the Board for its determination."

and

WHEREAS, the applicant states that the premises consists of a lot 120 feet front by 95.28 feet and 95.24 feet in depth, located in a retail use D area, class 1 height district, upon which it is proposed to erect a 1 story building, 16 feet 8 inches in height, 60 feet front by 30 feet and 31 feet in depth of class 3 construction, and use and occupy the premises as a gasoline service station, lubritorium, minor motor vehicle repairs using hand tools only, non-automatic car washing, office, storage and sale of auto accessories and the parking of more than 5 cars with sign and light standard as more fully described in application for zoning variance filed under Calendar Number 68-56-BZ, Volume II; and

WHEREAS, the applicant states that this application was granted October 23, 1956 at which time the Board indicated that it would prefer the site to be larger; that thereafter the owners acquired title to the adjoining lots 12 and 14; that it has included said additional lots as part of the site for the proposed use; that it is therefore proposed to construct the building larger by adding one additional bay; and

WHEREAS, the applicant therefore requests that the Board amend its Resolution adopted under Calendar Number 69-56-A, Volume I, so as to permit the use of the portion of the premises within a mapped street as now proposed on condition that the requirement of such Resolution as may be adopted by the Board under Calendar Number 68-56-BZ, Volume II, be complied with; and

WHEREAS, the Board has been advised by the President of the Borough of Queens under date of March 6, 1958 that 142nd Street is indicated at a width of 60 feet on the final map adopted by the Board of Estimate and Apportionment October 24, 1919; that there is an indicated widening of about 5 feet on the easterly and westerly sides of 142nd

Street; that there is no proceeding pending to acquire title to the property necessary for such proposed widening.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on November 27, 1956 under Vol. I of Cal. No. 69-56-A; by adding thereto:

"that in the event the owner has increased the size of the subject lot along Rockaway Boulevard as provided for in resolution adopted this day under Cal. No. 68-56-BZ, Vol. II, this use may be permitted, provided that the requirements of the above cited resolution and the resolution adopted this day under Cal. No. 68-56-BZ, Vol. II are complied with."

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a residence use, C area, class 1 height district; East 94th Street and East 93rd Street are in residence, retail and local retail use, C area, class 1 height districts; East New York Avenue is in a retail use, C area, class 1 height district; Rutland Road is in a local retail use, C area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent, dated May 13, 1957 acting on Alt. Applic. No. 239-57, reads:

"1. Parking and storage of motor vehicles in a Residence use district is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 81 feet 8½ inches frontage by 41 feet 8 inches and 87 feet 10 inches in depth, irregular, with a frame two car garage abutting Tapscott Avenue; that the vacant portion of the lot is used for the parking and storage of the owner's trucks; that it is proposed to demolish the frame two car garage and to complete the fencing of the lot and to legalize the use of the lot for the storage and parking of motor vehicles; and

WHEREAS, the applicant states that the property was originally improved with a dwelling and stables for 8 to 10 horses; that the stables and dwelling have since been demolished; that the present owner has been parking his motor vehicles on the vacant portion of the lot since about 1950; that originally this was done with the permission of the prior owner; that in 1953 the premises were acquired by the City for non-payment of taxes; that from January 23, 1953 to November 22, 1954 the present owner rented the premises from the City for the purposes of parking his vehicles; and

WHEREAS, the applicant contends that the use of the land for the construction of new dwellings or any other use is not feasible as the neighborhood is not desirable because of the age and condition of the existing homes and neighborhood; that the parking lot has always been maintained in a clean and neat condition; that the lot is properly enclosed; that there is no entrance on East 94th Street; that the traffic caused by the use of the parking lot is negligible since the use involves only one entrance and exit per day for each vehicle, if used; that since the plot was acquired from the City for the purpose of continuing the parking and storage of motor vehicles, it is requested that the present use of the premises be permitted to continue; and

WHEREAS, the applicant states that the present owner has held title to the property since November 22, 1954; that the assessed valuation of land is \$4,500 and of the building \$200 making a total of \$4,700; and

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 4, 1958 after due notice by publication in the Bulletin; laid over to March 25, 1958, for inspection; hearing kept open to permit full ten day's notice to affected owners; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Forest Avenue, Veltman Avenue and Hamlin Place are in a retail use, D area, class 1 height district; and

WHEREAS, the decision of the Borough Superintendent, dated July 5, 1957 acting on N.B. Applic. 972-56, reads:

"1. Proposed gasoline service station, lubritorium, car washing, minor motor vehicle repairs with hand tools, sale of accessories and parking of more than five motor vehicles located in a Retail Use District is contrary to Art II Sect. 4A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 112.23 feet frontage by 103.43 feet in depth; that it is proposed to erect and operate a gasoline service station, lubritorium, car washing, minor motor vehicle repairs with hand tools, sale of accessories, and the parking of more than five motor vehicles; and

WHEREAS, the applicant contends that the location of this proposed site has a direct relationship to the aforementioned shopping center consisting of a Food Fair supermarket, a Sears-Roebuck store, and a multitude of small shops to the east and west of this proposed location; that south of the site in question is a residential area with a heavy concentration of older dwellings and a good deal of people that require automobile service facilities; that Forest Avenue in addition to its commercial and non-commercial traffic connects not only to the Bayonne and Goethals bridges but forms the connection to Richmond Avenue which in turn connects to Drumgoole Boulevard and the Outerbridge crossing to Perth Amboy; that the Bayonne and Goethals bridges are the major links between Staten Island and the New Jersey Turnpike and the Garden State Parkways; and

WHEREAS, the Committee of the Board is familiar with the premises and surrounding area and recommended that the application should not be granted; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivisions f, e and i of the Zoning Resolution.

Resolved, that the decision of the Borough Superintendent, acting on N.B. Applic. 972/56, Objection No. 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 4, 1958 after due notice by publication in the Bulletin; laid over to March 25, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Havemeyer Avenue are in a residence use, E-1 area, class ½ height district; Zerega Avenue is in a business use, E-1 area, class ½ height district; Story Avenue and Hermany Avenue are in business and residence use, E-1 area, class ½ height districts; that the entire section originally was unrestricted, then changed to business and finally to residential; and

WHEREAS, the decision of the Borough Superintendent, dated August 21, 1957 acting on Alt. Applic. 704-57, reads:

"1. In a residence district the proposed parking & storage of motor vehicles is contrary to Sect. 3, Art. II Zoning Resolution and is therefore denied."

and

WHEREAS, the applicant states that the premises consist of a plot, 125 feet frontage by 153 feet in depth, presently vacant; that it is proposed to erect a corrugated aluminum fence six feet high, set back about five feet from the building line, and to plant substantially high evergreen trees along both street frontages; that the plot adjoins a beer distributing and trucking business, Block 3698, Lot 1, and a 50 by 100 foot vacant lot at the side; and

WHEREAS, the applicant states that the owner and her husband moved into the area in 1928, erected a home and some metal garages in 1928 when the zone was unrestricted; that they have continuously conducted a trucking business, using Lots 73 and 77 of Block 3699, and still reside in the house at 2321 Story Avenue; that one son lives at 912 Havemeyer Avenue, Block 3699, Lots 5 and 6, and one son at 910 Havemeyer Avenue, Block 3699, Lot 1, both of which adjoin the present trucking business and opposite the lot proposed for parking; and

WHEREAS, the applicant contends that there would be no opening on Havemeyer Avenue and the one opening proposed on Story Avenue would be practically opposite the trucking business carried on by owner, whose son lives directly across the street in Block 3699, Lot 1; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use dis-

trict regulations of the Zoning Resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years to permit the premises to be occupied for parking and storage of motor vehicles substantially as proposed and as indicated on plans filed with this application marked "Received August 27, 1957", two sheets, *on condition* that all buildings and uses now on the premises shall be removed and the premises shall be leveled substantially to the grade of Story Avenue and Havemeyer Avenue; that there shall be erected on all lot lines a woven wire fence of the chain link type not less than five feet six inches in height; that along Havemeyer Avenue, Story Avenue and the lot lines adjacent to the residential occupancy there shall be erected within the fence a hemlock hedge in area not less than five feet in width protected with concrete curbing not less than eight inches above grade and not less than six inches in width; that bumpers at proper distance shall be maintained to protect the hedge; that the balance of the plot shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that during the term of this variance the premises shall be occupied for no other use and no building shall be erected thereon; that there may be an entrance in the fence to Story Avenue fitted with gates not over 14 feet in width which shall remain closed except when the parking lot is in operation and opposite there may be a curb cut of similar width; that the sidewalks and curbing abutting the premises shall be constructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to one sign attached to the fence at the entrance to Story Avenue not exceeding four square feet in area provided such sign is not illuminated and does not extend beyond the building line advertising the private use of the premises and such other information as may be required by the Commissioner of Licenses; and that all permits shall be obtained and all work completed and a certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application March 11, 1958 after due notice by publication in the Bulletin; laid over to March 25, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, Deleran Street, 11th Avenue, 11th Road and Springfield Boulevard are in a residence use, R-1 area, class 1/2 height district; that as of July 25, 1916 the property was zoned as a business use, a one times height district; that the present residence use designation became effective on January 21, 1947 and the present height and area designations became effective on June 30, 1952; that there are no zoning amendments relating to this property pending at the present time; and

WHEREAS, the decision of the Borough Superintendent, dated September 16, 1957, acting on N. B. Applic. 2817-57, reads:

"1. Proposed erection of a gasoline service station, lubritorium, auto washing (non-automatic) minor auto repairs with hand tools only, office, sales and storage of auto accessories and parking and storage of cars awaiting service and the erection of a ground sign on a lot in a residence use district is contrary to Art. 2, Sec. 3 of the Z.R."

WHEREAS, the applicant states that the premises consist of plot, 180 feet frontage by 100.03 feet in depth, presently vacant; that it is proposed to erect a parkway type gasoline service station, lubritorium, non-automatic auto wash, minor repairs with hand tools only, office, sales and storage of auto accessories, parking and storage of cars awaiting service, with a ground sign in a residence use district; and

WHEREAS, the applicant contends that a grant of the instant application would permit the property to be developed for a only beneficial use for which there is an economic demand and would be in harmony with the existing character of the development of Springfield Boulevard in the immediate vicinity; that it would have no adverse effect upon nearby properties, and would provide more light and ventilation than nearby properties than if the property were developed with conforming buildings; that a grant of the instant application would safeguard rather than jeopardize pedestrian and automobile traffic safety; and

WHEREAS, the applicant further contends that with respect to the parking and storage of cars awaiting service, the Board has jurisdiction to grant under section 7h because it is customarily a permitted accessory use incidental to a gasoline service station; that with respect to the proposed

ground sign in a residence use district, the Board has jurisdiction to grant under section 7e, because this is also a customarily permitted incident to a gas station; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under section 7, subdivision e and h, of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the Zoning Resolution and that the application be and it hereby is granted under section 7e, for a term of fifteen years, to permit the building to be occupied as a gasoline service station, substantially as proposed and indicated on plans filed with this application, marked "Received October 11, 1957", 4 sheets, on condition that all uses on the plot shall be removed and the plot leveled substantially to the grade of Springfield Boulevard, and constructed and arranged as shown on plans above cited; that there shall be erected on the lot lines to the west, north and south, except on the southerly lot line where a wall of a 2-story building exists on the lot line, a masonry wall not less than 2 feet in height with iron picket fence above, erected to a total height of 5 feet, 6 inches; that inside such wall there shall be a continuous band of shrubbery, occupying a width of not less than 5 feet and with a 6 inch wide curb in front thereof, erected to a total height above grade of not less than 8 inches, for protection of such shrubbery; that the accessory building shall be of the design and arrangement indicated on plans and be without cellar and in all other respects shall comply with the Building Code and located where shown; that pumps shall be of a low approved type erected not less than 15 feet from the base of the street building line; that gasoline storage tanks shall not exceed twelve 550 gallon tanks; that curb cuts shall be restricted to three on Springfield Boulevard, each 30 feet in width, located where shown and with no portion nearer than 5 feet to a side lot line as prolonged; that signs shall be restricted to signs attached to the accessory building and the illuminated globes of pumps, excluding all roof signs, temporary signs and advertising devices but permitting the erection within the building line at the intersection of 111th Avenue of one post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale, which sign may extend not more than 4 feet beyond the building line and at right angles to Springfield Boulevard; that sidewalks and curbs abutting the site shall be constructed or repaired to the satisfaction of the Borough President; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that the station where not occupied by planting, pumps and accessory building shall be paved with bituminous or concrete paving; that under section 7h for a similar term there may be parking and storage of cars awaiting service; and under section 7e for a similar term there may be minor repairing for adjustments with minor repairing for adjustments with hand tools only, maintained solely within the accessory building; and that all permits required shall be obtained and all work completed within the requirements of section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 4, 1958 after due notice by publication in the Bulletin; laid over to March 25, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site and Auburndale Lane are in unrestricted, business and residence use, C and DD area, class 1 height districts; 42nd Avenue, Station Road and 172nd Street are in a business use, C and DD area, class 1 height district; that on July 25, 1916 the plot was zoned as business use for 100 feet south of Station Road and the balance was in a residential use district; that the entire plot was then zoned as C area and class 1 height district; that on March 24, 1948 the use district was changed to its present uses; that on March 24, 1955 the area district for 100 feet north of 42nd Avenue was changed from C to DD and the balance of the plot remained in C area district; and

WHEREAS, the decision of the Borough Superintendent, dated October 4, 1957 acting on Alt. Applic. 2767-56, reads:

"1. The proposed use of that portion of the lot in the residential use district as a parking field for more than five vehicles is contrary to Article II Sec. 3 of the Zoning Resolutions. (B. S. A. decision Cal. 938-54-A states that present occupancy shall continue as proposed.)"

and

WHEREAS, the applicant states that the premises consist of a plot, 200.01 feet frontage by 535 feet in depth; that at present, the business and unrestricted portions of the site are improved with two buildings of class 3 construction, occupied for factory and office use; that Certificate of Occupancy No. Q-110286 was issued on July 6, 1956 for these uses; that it is proposed to use a portion of the vacant land at the southerly part of the residence use portion of the lot, for parking of more than five motor vehicles; that this use is required in order to accommodate the great number of employees as well as transient salesmen and customers coming to their offices; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application should not be granted; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under section 7, subdivision h, of the Zoning Resolution.

Resolved, that the decision of the Borough Superintendent, acting on Alt. Applic. 2767/56, Objection No. 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 11, 1958 after due notice by publication in the Bulletin; laid over to March 25, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site, East 14th Street and East 15th Street are in business and residence use, D area, class 1 height districts; Gravesend Neck Road is in a business use, D area, class 1 height district; that these designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the decision of the Borough Superintendent, dated October 14, 1957 acting on N.B. Applic. 1847-57 reads:

"1. Proposed bldg. & premises, on a plot which is partly in a business zone and partly in a residential zone, to be used for gasoline service station, auto washing, (non-automatic), lubritorium, minor repairs (hand tool only), office, storage and sale of auto accessories. Parking of more than 5 cars waiting to be serviced and parking and storage of motor vehicles (pleasure car only) is contrary to Art II, PP. 3 and PP. 4a, subdivisions 29 and 46 of the Zoning Resolution.

"2. Proposed curb cuts and business entrances on East 15th St. within 75' of a Residence zone is contrary to Art. II, PP. 7A of the Zoning Resolution."

WHEREAS, the applicant states that the premises consist of a plot 101 feet 1½ inches frontage by 160 feet 10 inches in depth, vacant; that it is proposed to erect and maintain within the business use district portion of the property a modern, parkway type gasoline service station, non-automatic auto wash, lubritorium, minor repairs with hand tool only, office, storage and sale of auto accessories and parking of more than five cars awaiting service, with curb cut and business entrances within 75 feet of a residence use district, for a term of fifteen years, and on the portion of the premises within the residence use district, to maintain for a similar term, the parking and storage of motor vehicles of the pleasure type only; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application should not be granted; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivisions e, f, h and A of the Zoning Resolution.

Resolved, that the decision of the Borough Superintendent, acting on N.B. Applic. 1847/57, Objection Nos. 1 and 2, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 11, 1958, after due notice by publication in the Bulletin; laid over to March 25, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a manufacturing use, D area and Class One height district; Foster Avenue is in a manufacturing use, Class One height district; East 88th Street is in a manufacturing and residence use district, D area and Class One height district; East 89th Street is in a manufacturing and residence use, D area and Class One height district; Bedell Lane is in a residence use, D area and Class One height district; that on July 25, 1916 the premises was in a Business use district and was rezoned to Manufacturing on August 14, 1943; and

WHEREAS, the decision of the Borough Superintendent, dated November 1, 1957, dated November 1, 1957, acting on N.B. App. 3434-1957, reads:

"1. Area of Bldg. is excessive for 'D' area district—contrary to Sect. 14, Art. IV of Zone Resol."

and

WHEREAS, the applicant states that the premises consist of a plot 70 feet five and seven eighths inches frontage, by 99 feet 10 and one quarter inch in depth, irregular in area, in which is located a one story building, 13 feet 10 inches in height, of Class 3 construction, 69 feet 11 7/8 inches frontage on East 88th Street, 63 feet 3 inches front on Foster Avenue by 63 feet and 64 feet in depth, irregular in area, erected in 1953 and occupied under C. O. 136935 by the owner as a shop for the manufacture of canvas covers; that it is proposed to extend the building with a two-story extension 31 feet 2 3/4 inch front on Foster Avenue by 61 feet 3 1/2 inches in depth, irregular in area, 21 feet in height, to be used in conjunction with the existing building as a shop for the manufacture of canvas covers; and

WHEREAS, the applicant contends that the present owner purchased these premises on July 9, 1946 and subsequently erected the existing factory building for the conduct of his business; that the increase in business since the completion of the building in 1953 necessitates the extension of the building as proposed to provide additional area; that in 1916 these premises were originally zoned business; on August 14, 1943 the zone was downgraded to manufacturing so that the present time Foster Avenue for a depth of 200 feet along East 88th Street is zoned manufacturing; this downgrading of zone has the effect of increasing the floor area of any structure that may be used for manufacturing and as intended to increase the manufacturing uses in the area; that unfortunately the area district zone was not changed when the use district zone was changed; that the area of the plot is approximately 6407 square feet, the area of the existing building is 4410 square feet, the permitted area coverage is seventy per cent of the corner 5000 square feet and per cent of the balance for a total of 4273 square feet, the permitted deduction for two off-street loading areas (indicated by overhead doors) is 792 square feet, so that the proposed extension will be approximately 1342 square feet in excess of that permitted; that the area of the second story as proposed complies with the area district percentages; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application should be granted under certain conditions; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant

under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the area district regulations of the Zoning Resolution and that the application be and it hereby is granted under Section 21, to permit the excess area of the proposed building, as indicated on plans filed with this application, marked "Received November 12, 1957," 8 sheets, on condition that the building shall not exceed two stories in height, as proposed, and shall be of the design, arrangement and for the use indicated on above cited plans; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

WHEREAS, a public hearing was held on this application on March 11, 1958, after due notice by publication in the Bulletin; laid over to March 25, 1958, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the Zoning Resolution show that the site is in a residence use, D area and class 1/2 height district; that East 99th Street is in a residence and business use, D and E-1 area and class 1/2 height district; that Avenue K, Utica Avenue and Flatlands Avenue are in a residence and business use, D area, class 1/2 height district; that as of July 25, 1916 the property was zoned as a business district, 1 height district; that on May 26, 1955 the present residence designation became effective August 25, 1955; and

WHEREAS, the decision of the Borough Superintendent, dated November 20, 1957, acting on N.B. Applic. 2102/57, reads:

"1. Proposed bldg. with a commercial use and the 1st floor located in a residential use district, is contrary to Art. 2, Sec. 3 of Zone Resolutions."

WHEREAS, the applicant states that the premises consist of a plot, 25 feet frontage, by 90 feet in depth; that it is proposed to construct a two story structure of class 3 construction with a frontage of 17 feet and 67 feet in depth and having a store on the 1st floor and two apartments on the 2nd floor; and

WHEREAS, the applicant contends that this plot is immediately adjoining the business zone of Utica Avenue; that several stores of the adjoining corner building face Avenue K, just to the east of the plot; that the owner of this plot is currently a tenant of one of these stores at 4918 Avenue K, operating a retail liquor store; that his store is only 10 feet by 25 feet with no additional storage space and he finds himself unable to obtain additional space as the building is fully rented; that under Liquor Authority rules he could not move to another location unless he were operating at a loss; that the Authority prefers a store to remain in

its current location if it is of service to the neighborhood; that this precludes moving anywhere around the corner on Utica Avenue since that constitutes a change of location; that under these circumstances the owner is blocked in his efforts to properly service his current business and to expand; that the proposed building would solve his problem, giving him a 16 feet 8 inches by 65 feet store with a full cellar for storage; that it will be the same location as far as the Liquor Authority is concerned; that the proposed building would have no ill effect on the immediate neighborhood since it would be actually an extension of the present store to a distance of 25 feet; that the nature of this particular intersection of Avenue K, Utica Avenue and Flatlands Avenue is such that the proposed building would actually be a part of the business block and could not have an adverse effect upon the residential area; that there is a gas station diagonally opposite the subject site, in Block 7798, Lot 9, granted under Calendar Number 582-55-BZ, and another gas station across the street in Block 7798, Lot 33; that every effort will be made to create a building residential in character in order to help safeguard the adjoining residential area; that it is felt that the granting of this variance will not be detrimental to the general purpose of the Zoning Resolution; and

WHEREAS, the applicant states that the present owner has held title to the property since May 10, 1957; that the assessed valuation of the land is \$1,700; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations on the Zoning Resolution and that the application be and it hereby is *granted* under Section 7e for a term of fifteen years, to permit the erection of a two-story building, as proposed and indicated on plans filed with this application, marked "Received December 17, 1957", 3 sheets, and "February 6, 1958", 2 sheets, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be increased in height or area beyond what is now proposed; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, the decision of the Fire Commissioner, dated November 19, 1957, repeating Item 8 of an order (Reference Number 4318-11816) issued by the Fire Commissioner May 25, 1943 as follows:

"Your request that we re-issue our order dated May 25, 1943, requiring the installation of a standpipe system in the above captioned building and that we send you a copy of the original violation must be denied, as we cannot do either.

The requirement in question was item 8 of a violation order containing nine, all of which have been complied with except item 8 which reads as follows:

Item 8. Provide a 4" standpipe system to cover the entire building.

However, if you see fit, you can make an appeal to the Board of Standards and Appeals, H. H. Murdock, Chairman, Room 1000, Municipal Building, within thirty days from date, on forms obtainable at the office of the said board, from the decision expressed in this letter and from the violation in question, as quote above."

and

WHEREAS, the applicant states that the building is 5 stories,

MINUTES

103 feet 10 inches in height, 350 feet front by 100 feet 5 inches and 195 feet in area, of fireproof construction, erected 1903 and 1925, located in a business use B area, class 1½ height district, and used and occupied since 1903 and 1925 as follows: Cellar—plant equipment; basement—shop, cafeteria and class rooms, 185 persons; 1st floor—class rooms and offices, 380 persons; 2nd floor—class rooms, 380 persons; 3rd floor—class rooms, 560 persons; 4th floor—class rooms, 455 persons; 5th floor—gymnasium; roof—playground and fan room; and

WHEREAS, the applicant states that the building is equipped with a partial one-source sprinkler system and an approved fire alarm system and regular monthly fire drills are maintained; that there are 6 interior steel stairs in the new portion of the building and 8 in the old portion; that the stairs are 4 feet wide, enclosed in partitions of 4 inch Terra Cotta plastered both sides, equipped with kalamein and glass doors which are self-closing; that stairhall leads from roof to street bulkhead; and

WHEREAS, Certificate of Occupancy #17810 was issued September 4, 1931, against N. B. Applic. 177/24, which permits the present use and occupancy; and

WHEREAS, the applicant contends that the building was erected in two sections, the original building in 1903 and the addition in 1925; that all corridors are continuous throughout the original building and the addition; that the certificate of occupancy was issued on the basis of complete compliance with the Building Code; that the building has been occupied from erection to the present date without any physical changes thereto; that the building is equipped with a fire alarm telegraph box, located adjacent to the Principal's office; that an interior fire alarm system for evacuation of the building in event of fire; that in those rooms in the building which even remotely resemble hazardous occupancy, automatic sprinklers are provided, such as in store room, paper chutes and general shop, etc.; that the building is completely equipped with hand extinguishers, as required by the Fire Department, conveniently located throughout the building; that since the Fire Department responds within a matter of minutes, after an alarm; that since the personnel in the building is not trained to handle fire hoses and since the Fire Department uses its own hose coupled to hydrants and pumpers, installation of a standpipe system in this building is unnecessary and would require an unwarranted expenditure of public funds; that the Board of Education receives a limited amount of money for maintaining school buildings and any diversion of these funds would seriously create hardships resulting in a possible breakdown in maintenance of school properties; that in view of the precautionary means already installed to protect the occupants, it is requested that favorable action be taken on this appeal; and

WHEREAS, in the opinion of the Board the penthouse should not be considered as an additional story.

Resolved, that the decision of the Fire Commissioner dated November 19, 1957, as issued May 25, 1943 be and it hereby is modified and that the appeal be and it hereby is granted to permit the omission of four inch standpipe system as required in view of the height of the building; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; as shown on revised plans marked "Received December 9, 1957", 25 sheets.

PETITION AND ORDER OF CERTIORARI SERVED ON THE BOARD OF STANDARDS AND APPEALS

On March 26, 1958, Copy of Petition and Order of Certiorari, with Exhibit, was served on the Board by Edward S. Lentel, attorney, representing Mrs. Frank Preston, et al, objecting property owners, seeking a review of the Board's determination on February 25, 1958, granting a variance under Sections 7e, 7f, 7A and 7i of the Zoning Resolution, to permit for a term of fifteen years, in a business and residence use district, the erection and maintenance of a gasoline service station, lubritorium, auto wash, sales space, service parking, motor vehicle repairs with hand tools only and with a curb cut on 9th Street; Cal. No. 313-33-BZ, Vols. I, II and III; Premises 38-06 Greenpoint Avenue, S.E. Corner of 50th Avenue, Woodside, Borough of Queens.

PUBLIC HEARINGS

Tuesdays at 10 a.m. and 2 p.m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, Chairman.
